HONOURED BY KING

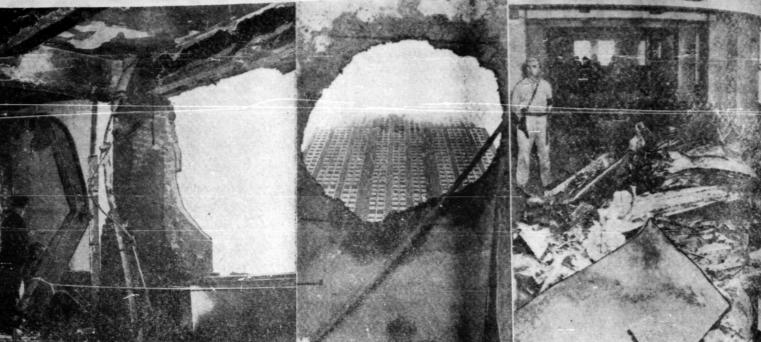

Lieut.-General Charles Foulkes, 41, of Kingston and London, Ont., at the all-Canadian Investiture held this month at Buckingham Palace, where he received the Distinguish-ed Service Order and the honour, Companion of the Order of the Bath. Gen. Foulkes, Commander of the First Canadian Corps, re-ceived the capitulation of the Gerceived the capitulation of the Germans in Holland. He will replace Lieut-Gen. J. C. Murchie as Chief of the General Staff in September.

EYES ON SPAIN

Harold J. Laski, above, Socialist spokesman and Labor Party chairman, which swept the British elections, indicated possibility of a break with Franco under revised British foreign policy when he said: "We are going to be in a position to do full justice to our Spanish comrades."

LIKE A SUPER ROBOMB, THE B-25 CRASHED INTO THE WORLD'S TALLEST BUILDING

Gaping holes in the north side of the world's tailest building at the 79th floor are examined here by a New York fireman. That girder above him was twisted by force of the crash.

This view was taken through a hole in the roof of a penthouse on 3rd St., into which part of the wrecked plane came blazing down.

Wreckage of the B-25 Mitchell bomber is being guarded by a stary policeman here after the crash. The plane's crew of five eight others died in the tragic accident.

Picto-map above illustrates highlights of probable peace terms Allies will impose upon Japan ir industry with war production potentials; surrender of all con quered territory (indicated by black areas on map), including Manchuria, Korea and Formosa, not already recaptured; dismantling of shipbuilding facilities and strict control over imports.

IS DOING

Heated "Sandwich"

nvented two novel devices which will raise the safety and comfort standards of Britain's civil air liners to new high levels. The first of these inventions-which will be applied to high altitude flying-is a heated "sandwich", which overcomes the menace of ice and mist formation on the windscreen at great heights. It consists of a very light device by which warmed air s pumped between the double layers of glazing forming the pressure-resisting surface of the coupe. One important advantage of this device is that even at temperatures as low as-78 degrees F, the cockpit is so warm that special cloth-

Both these advices have been incorporated in Britain's latest stratosphere single-seater fighter the Westland-Welkin. The Welkin, which has been specially designed to combat the menace of high flying Japanese raiders, is the largest single-seater fighter ever built. The experience gained in operation of the Welkin is expected to lead to still further developments in stratosphere flying and these two will be applied to Bri-tain's civil air liners.

"You looked like a tired little boy-like Pol Martin and Emil after they have played so long in the snow that they drop off before they can get into bed. And that is. where you must go now." "My first night home," mutter-

ed Roger, "and I fall asleep! Why, I planned that it would be all nirth and flowers and music! You and I were to dance till dawn. You were never to leave my arms; instead-" "I held you in my arms while

THE PICK

CHRONICLES of GINGER FARM

Gwendoline P. Clarke

a sense of satisfaction for work accomplished We have finished with some of the odd jobs that haying and harvesting have pushed baying. The wheat is cut and stocked. It doesn't take long to tell to take a holiday? Just imagine having a notice in the paper — "Ginger Farm will be closed for it — it would take longer to de-scribe our joy at seeing the barn well stocked with hay and the wheat in stooks. You people or farms know what an anxious few

one week — from August 1 to August 8." If only the cows could hunt their own feed and find their would happen to the eggs in the hen-pen if there was no one around to pick them up several times a a store, a factory or an office but a farm — never. At least not a farm with livestock on it depending on the owners for daily care.

But I was talking about odd jobs . one of them is experimenting you we didn't waste any time in to death of association with flies We surely hope DDT will live up to its wonderful reputation. As far as I can see its one disadvantage However there is one safe way of using it around the house. It can be sprayed around the outside of the window frames, being careful to shut the windows first and to wear gloves for the job. It certainly discourages flies from mak-ing a rendezvous of your windows and from them eventually gaining access to your rooms, fly screens

notwithstanding. Of course we really bought it for barn use but Partner has not yet had a chance to try it out.

WITH MASTERLY SKILL ... Maxwell House Coffee is blended from rare extra-flavor coffees. More people buy Maxwell House than any other brand of coffee in the world. Have you tried it?
