bines in Haldimand and who this ward. year will be cutting his eighth crop with his machine. His answer was significant and corroborates what significant and corroborates what was given in this column last week. He said, "When you see your neighbour starting to cut his wheat with a binder it is time to plow your summer fallow; when you see him drawing his wheat in, work the fallow down; then perhaps you can start to combine your crop".

That was the answer given by a farmer who has been reasonably successful with his combine. He is free to admit that even he can be wrong at times but how true that is with the best of us. In any case when using a combine "patience is a virtue" and it would appear that the man who "makes haste slowly" is the man who "makes haste slowly" is the man who is going to have the least difficulty in keeping his grain vy v v

Here woo has been reasonably successful with his combine. He is free to admit that even he can be wrong at times but how true that is with the best of us. In any case when using a combine "patience is a virtue" and it would appear that the man who "makes haste slowly" is the man who is going to have the least difficulty in keeping his grain vy v v

How word in your application.

Bloom is very largely a production factor. One requisite is health. On the other hand fright, thirst, and undue starving before killing may each cause a reduction in bloom.

Careful handling at all times is necessary to preserve this "something" which makes a bird more saleable. Market birds should be carefully lift ted from the roosts after dark and it is preferable to ship to market during the cool of the night.

News Of Surrender Came To Waiting World At 7 P.M. Tuesday Aug. 14

O'clock by Prime Minister Atlee of Great Britain and President ruman of the United States marked the end of one of the most Japanese Emperor had accepted the surrender terms outlined in Potsdam Declaration and would issue the necessary orders to all armed forces under his control to cease operations and place It was later made known that General Douglas MacArthur had been named to the post.

oined in together in common thanksgiving that the instruments of war had at last been stilled. In Great Britain the announcenent came after "Big Ben", Parliament's famous clock had finish ed the last stroke of twelve midnight. Prime Minister Atlee ther came on the radio which brought the news first to Canada. Reoughout the day indicated the surrender was close at hand, but there was a feeling that something might take place to
