HONOUR FOR BRITISH WAR LEADERS

The Viceroy of India, Field Marshal Lord Wavell, and the C-in-C India, General Claude Auckinleck, have received the highest American honour that can be awarded to non-Americans—the Legion of Merit, Degree of Chief Commander. The honour was conferred by the President of the United States and was presented in Delhi on his behalf by U.S. Lieutenant-General R. A. Wheeler. Picture shows the Viceroy of India, Field Marshal Lord Wavel, receiving the decoration from Lieut-General Wheeler.

## Canada's War Gratuities Top List

When it comes to paying gratuities to war veterans, Canada is right up at the top of the list. Here is the scale of grants for a private with three years in the forces, two of which have been served overseas: Great Britain .....

The High Barbaree by Charles Nordhoff and James Norman Hall

Catalina Flying Boat lies ditched in the Pacific after its death struggle with a Jap subtroyed, its water tanks punctured, and three of its crew killed. But the Cat still floats, and in it the two survivors, Alec Brooke, the navigator, Gene Mauriac of Cali-fornia, sweat out the hours as they for rescue.

They know they have drifted far of range of Henderson Field, and as the hours pile up and the water runs low, Alec begins to reminisce about his home town in Iowa, about his sea-faring uncle, and about his boyhood dream of a tiny Pacific Island, an island marked "Existence Doubtful" on the old maps, an island toward which they might even now be

To Great Britain "Deal" of Vital Importance to all United Nations

The loan of \$4,400,000,000 arranged last week by British representatives with the United States government has two features-an advance of \$3,750,000,000 to Britain, to be used to re-establish domestic economy, and \$650,000,000 by way of a Lend-Lease balance. The essential aspect of the \$4,400,000,000 loan is the good it can do the two Countries (and the world) in setting up the basis for

new trade agreements which will permit a free flow of world-trade The major trade concessions made by Great Britain will work to the advantage of the United States, by opening up new markets to American industry and agriculture. It is not inconceivable that these renewed markets will add more billions to the national income of the United States in one year

than the amount of the loan. In fighting the war, says the New York Sun, Great Britain en-tirely exhausted its working capital. The British still are in a strong position as business men all over the world. They have the shops and an established reputation for sound business dealings, but they haven't the goods with which to stock their shops.

It is now proposed that we help them by supplying working capital. If we do so we can hope that the channels of world trade once mese will be open to ourselves as well as to Great Britain and other nations. If world trade cannot be established in an orderly manner, the alternative for Great Britain will be inability to buy goods from us which would mean that she would have to confine her trade to the sterling area.
