For quick relief from headache pain, take an Instantine tablet with a glass of water. Chances are you'll discover as thousands have done, that this Aspirin-type Instantine is a modern way to *fast relief* from headache pain. Instantine works in three ways to bring prompt relief:

1. Quickly eases pain.
2. Relieves relief from pain.
3. Reduces "depressed feeling." Gives mild, stimulating "lift."

Instantine never pampers pain. It's scientifically compounded to give quick help to relieve muscular aches and pain—and for the discomfort you feel when a cold gets you down. All druggists have Instantine. 12 tablets 25¢.

Ford To Produce 'A Post-War Car At Pre-War Price

At least some of the private enterprises of the United States realize that the survival of private enterprise depends upon vigorous action to the lowest possible selling price of goods, says the Toronto Free Press.

The Ford Company announces that, despite advanced costs during the years, it will produce a new and thoroughly modern car at pre-war prices when peace comes. This announcement denies the general expectation that cars will sell at higher prices after the war because manufacturing costs are higher; for against higher costs is increased efficiency and its use.

C. E. Wilson, president of General Electric announces that his firm goes back to civilian production its goods will sell at pre-war prices, despite all the increased costs of operation. Other manufacturers in the same line have been suggesting that their goods must advance from 10 to 35 percent in price. Mr. Wilson sees no such necessity, and he proposes to maintain his present wage level. He can do both he evidently believes by handing on to the consumer and the wage earner the benefits of mass production and improved techniques.

Easy Way to Relieve RHEUMATIC Aches and Pains

Here is a simple, easy way to get relief from the misery of swollen, painful joints and muscular aches and pains. Go to any drug store and get a bottle of Rx-35a. If you are not pleased with the help it gives you—go get your money back. Rx-35a is a generous offer you can not afford to ignore.

BOILS

BIG PUSH ON THE TRUNK LINE

UNPOUCHED

Unfeeling mother of Cuddles, 2½-mor th-old kangaroo in the Sacramento Calif., zoo, tossed her out of the maternal pouch and left her to shift for herself. But cuddles is happy, having been taken into the home of zoo director Anthony Spencer. Above, Mrs. Spencer feeds the warmly sweatered baby.

An Airman's Creed

For all emotions that are tense and strong
And utmost knowledge. I have lived for these.
Lived deep, and let the lesser things live along.
The everlasting hills, the lakes, the trees.
Who'd give their thousand years to sing this song
Of life, and man's high sensibilities.
Which I unto the face of death can sing —
O Death, thou poor and disappointed thing —
Strike if thou wilt, and soon; strike breast and brow.
For I have lived; and thou can't rob me now
Only of some long life that ne'er has been.
The life that I have lived, so full, so keen.
Is mine; I hold it firm beneath thy blow
And dying, take it with me where I go.

The King's Horses Return To London

The King's horses have returned to Old London Town and the good citizens hailed it as a victory omen that the King's men wouldn't be far behind.

The team of four stately bays stopped people short when they pranced from Buckingham Palace news after a five-year absence on the Royal farm at Windsor.

On the first outing, the bays — Rodney, Chesterfield, Baldwin and Felix—walked to Hyde Park corner, eyed buses and traffic suspiciously when they danced across into Hyde Park, then settled down to a steady trot through Kensington and Knightsbridge.

Head coachman Fred McIlveen and his two postillions will act as Royal messengers, as a gasoline-saving measure, while exercising the horses.

The diamond was first used for drilling purposes in 1844, when a Swiss engineer invented the diamond drill-bit.

WHAT SCIENCE IS DOING

Tractor Seat

A special coil spring, and a shock absorber, is the basis of a new suspension-type tractor seat which will take all the jolts out of riding the farm tractor over rough plowed land and ease the work of the driver. It may perhaps, decrease the high degree of kidney and skeletal disorders among farmers blamed on the all-day-long tractor jarring. The new tractor seat was developed in Chicago by an automotive equipment company, which developed and has made thousands of seats for war tanks. The coil spring is placed directly under the driver's seat, and the triple-action hydraulic shock absorber at the rear. The absorber is similar to those commony used in automobiles. Together the two devices give stability that enables the rider to stay level while the tractor bobs over rough ground. The construction of the new device is simple and inexpensive, and it can be installed on all makes of tractors. It can also be applied to truck seats.

U. K. Has Coldest Christmas Since 1872

Now it can be told that Christmas, 1944, was Britain's coldest since 1872, the date that systematic temperature readings were begun.

London was the coldest spot, with the reading 13 degrees Fahrenheit, but there were record sales of ice cream newly returned to the market after a wartime economy ban.

In one restaurant waitresses wearing overcoats ruled out the ice cream stock in two hours.

1,167 Fighting Ships In Growing Navy

The largest Navy in the world, fighting the most extended war in history now has 1,167 men-of-war to carry the battle to the enemy. And it is still growing.

This was reported by the United States Navy in a review of ship production which showed that in the last year 39,971 new vessels — 420 of them fighting ships — joined the fleet, boosting the overall total to 61,045 Navy ships of all types.

Nazi child snipers are still active.
