WHEN you suffer from aching, aggrawhen you suffer from aching, aggravating muscular pain, you want quick
relief. An Instantine tablet taken with
water, will usually bring this relief.
And Instantine's help doesn't stop
here, because this prescription-type
medicine is specially compounded to
give triple-action relief these ways:

1. Speedily excess principles.

1. Speedily eases pain.
2. Prolongs relief from pain.
3. Reduces "depressed feeling."
Gives mild, stimulating "lift."
Instantine quickly relieves headache pain, too. And you can rely on it for prompt aid in fighting off the discomfort that comes with a cold. All drugstores. 12 tablets 25\$\frac{1}{2}\$.

PALS AT FIRST SIGHT

The fearsome face of 'Mr. Propwash,' English bulldog, didn't faze 3-year-old John (Pepper) Fusselman, who immediately became palsy-walsy with the dog, when it landed at Hamilton Field, Calf., with a bomber crew. Pepper is son of S/Sgt. Harry G. Fusselman, Army photographer.

.MARY IMLAY TAYLOR 

CHAPTER VI The lawyer nodded curtly, but he turned in his chair and followed the young man with his eyes. For the first time a doubt had stirred in him. Plenty of innocent people uffered-but, pshaw! This boy had been fairly tried. It was a plain nurder for money. He was hard up at the time, and he was his un-cle's heir. Fosdick pursed his lips. He had not tried to claim the for-He had not tried to claim the fortune yet; it was rolling up; but he would—of course he would! He was piloting her through a crowd and she could not escape would—of course he would! He nodded to himself and went back to his work. He had always believed Mark guilty.

Mark had set his face westward.

ized, than that he should trans-gress again. The thought of his reckless entrance there, his viola-

tion of all the amenities of social life, made his cheeks burn. He loved the girl; it was no romance of a day, and became it.

cause it was a thing above and apart from the rest of his life, he

would see her no more. The suffer

ing and annoyance might be hers, but she would soon forget! To go

away from the city where she dwelt would be exile. There was

always a chance here of a glimpse of her, himself unseen. Once he saw Pam on horseback in the park.

Screened by the trees he watched her in the sunshine and thought her the most beautiful thing in the world! That day he nearly broke his resolution. It seemed as if he

He was on his way to buy his

ticket when he came suddenly upon her. It was fate, he thought, that

she chanced to be out at the time.

She was not angry, only surprised.

smiling, her soft eyes kind. "You've treated us shabbily," she chided

Turning and carrotes notates on the different and the cooked from 300 to 400 F. Combinations of vegetables may be cooked together. Turning and the cooked from 300 to 400 F. Combinations of vegetables may be cooked together. She was startled. "Were you?"
Then she looked down at the table, trifling with her glass of water.
"You're not going to stay in New
York, then?"

God knows!" She lifted her eyes and met his. A soft flush crept up to her hair. She looked adorable, and he groaned under his breath. "I can imagine that a man like you wouldn't care to stay here long,' she said unexpectedly. "What kind of a man do you think me?" he demanded, "too uncivilized for urban life?"

She smiled, her eyes shining. "I wouldn't have said that; but perhaps I meant it! You know you're perfectly extraordinary - If you weren't, I should be down at Monstresi's now with Aunt Lynn, "Would you rather?" he chal-

must speak to her. That night he summoned himself to the bar of his own judgment and condemned himself. No honest man would have gone into another's house under a false name and made love to an innocent girl. He would go West She shook her head "I wonder if you'd speak to me if I tole you the truth?" he said. "I wonder if any woman on earth knows the man she's talking with?" She looked at him across the tea-

She looked at him across the teathings, suddenly grave.

"I know you've been tremendously unhappy."

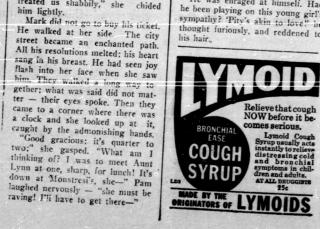

"Good heavens; am I as cheap as that? Appealing to your sympathy — your pity?" he exclaimed.

"You know I didn't mean that!"

He was engaged at he. She was not angry, only surprised.

She blushed furiously.

"Where have you been? We've wondered!" She held out her hand, wondered!" He was enraged at himself. Had he been playing on this young girl's sympathy? 'Pity's akin to love!' he thought furiously, and reddened to

bluntly, not looking at her; "I've got to take up a new life out there. I wanted to tell you about my coming to your uncle's house; it was he broke off for she interrupted hin

"Oh, Mr. Fosdick!" she looking around at the old man be side her chair. Mark was taken aback. The la

yer had risen from a table in the farthest corner. It was evident that he had been watching them. "I come here for tea; it's the only place where I can get the kind like," Mark heard him explaining to Pam, as if he knew his presen in a tearoom was amazing. As spoke he looked at Mark - looked through him and did not see him. Pam thought they were not a quainted, and Mark heard her pro enting him as "Mr. Byram." Fosdick stared hard at him, seeing him now. "Byram?" he repea

(To Be Continued)

Vegetable Cooking Methods Important

Vegetables can and do suffer more than any other group of foods in the hands of the cook. Nature packs them with health-giving vitamins and minerals, adds giving vitamins and minerals, adds gay, bright colour for good measure. We come along, boil out most of the minerals, kill the vitamins, destroy the lovely fresh colour and present the depressing looking result to our families with the words—"Eat them up. Vegetables are "Eat them up. Vegetables are good for you!" It doesn't make all right so long as we don't meet sense does it? And if some families the snowplough!" Well, just as we got near the Base Line I said to Partner—"Look what's coming!"
Sure enough it was the snoware 'difficult' about vegetables, we wouldn't blame them.

Overlooking and 'Drowning' When vegetables are limp, flavourless and a poor colour after "No, you won't," said Mark, firmly, "fou're going to lunch with me.
I've always known' it, only we've
delayed, but you can't break that
engagement with me!" cooking, it is safe to say by have lost a large part of their food value. Overcooking and 'drowning' are the two most frequently committed sins against vegetables.
Cooking until just tender, by
whatever method, and the use of
only enough boiling salted water
to prevent scorching, preserves
food value, colour and flavour. If
any liquid is left remembers in Her face was glowing above her furs, she shook her head, but her eyes laughed. "I can't!" she protested, "not today."

prefer a world-wide system of
ading. There is no altruism about

NNOT STAND ALONE

INOT STAND ALONE

If international trade on the nadest scale is not fully restored, that can Canada do independently preserve her foreign markets? Here are certain obvious measures, notably maintenance and impovement of the quality of our orts, vigorous salesmanship, and acceptance of imports from cuntries to which we export, up the limit either of their capacity sell to us, or of our ability to sorb their products. These are orb their products. These are ic principles which Canada can I should adopt, whatever the t of the world may do.

What other alternatives will be ormally available to us? In the cert place, we might have to relict our exports to the ability of using markets to pay for our oducts. Since many of our marexport commodities are production a scale out of all proportion our own consumption, the subquent unemployment of men and sources, the agricultural depreson, and the social problems which ould arise, would build up a load at our economy and constitution uid not support. Secondly, Cananight provide credits to counces desiring to import goods on desiring to import goods on sis similar to the credits which been established during the but with the hope of ultimate ment. Finally, we could sub-

Truthermore, as I stated a year o. I believe it would be sound liev for Canada not only to exad liberal long-term credits to untries who are actual or potentuyers of Canadian products, in special cases to make outth gifts of foods, raw material, taked goods and machinery to list and hasten the rehabilitation such countries.

Thus far could we go, independ-y of the policies of other pow-But a moment of consideration show how slight our hopes of ess would be without inter-nal co-operation."

Wilson reviewed the function Wilson reviewed the function was never entirely automatics operated. "The system could have been mantained," he without the unrivalled smacy of the City of London in foreign exchange and intermal investment markets, the edition of the City of London in foreign exchange and intermal investment markets, the edition of the city of London in foreign loans it floated, great foreign loans it floated, willingness of Great Britain except imports of goods and ces for payment on loans and but by no means least, the ledge and experience of the London banks and financial out that the "gold stand-

NATIONS FORSAKE RULES In the second place, all countries ethics set up by the gold standard. Fundamental changes in this system took place following the last war, said Mr. Wilson, and the international economic system, dis-rupted by the war, remained out of balance and the disequilibrium became intensified. Countries ceas-ed to abide by the rules and no longer sought to adjust their do-mestic policies to the requirements of the gold standard system and with the breakdown and abandon-ment of the standard in 1931, each country set out on its own course.

with the breakdown and abandonment of the standard in 1931, each country set out on its own course. "Instead of adjusting domestic prices and production to the needs of international exchange stability and balanced payments on international account, countries began to manipulate exchange rates, as a mean contract at home. International account, countries began to manipulate exchange rates, as a mean contract at home. International trade became disrupted, with every country seeking to force its exports on others, but to reduce imports to a minimum. Competitive exchange depreciation, higher and higher tariifs on imports, quantitative quotas and bulk purchases, and similar measures, were utilized by all countries in greater or less degree. Well over a third of total world trade was conducted on a basis of crude barter. With the collapse of the gold standard, there disappeared the only operative system for the co-ordination of national economic policies; in its absence, sovereign countries, acting independently and without regard for the external repercussions of their policies, inevitably drifted toward international economic chaos."

Upon this chaos, said Mr. Wilson, had now been superimposed the new disequilibrium of a second World War. The great importing countries including Great Britain and those of Europe had suffered devastation, destruction of their industrial machinery and, particularly Great Britain, loss of overseas markets. Other countries, notably those of North America, had found their industries and agriculture greatly expanded. "In order to maintain employment," said Mr. Wilson, "it will be necessary for these countries and particularly for Canada, to export to an extent greater than was necessary even before 1939."

BRETTON WOODS

BRETTON WOODS Mr. Wilson dealt at length with the Bretton Woods Conference last July when the experts of fortyfour countries sought to evolve a system of international control of foreign exchange and investment with a view to providing exchange stability. He readily admitted that the Bretton Woods program was no panacea for post-war problems but he pointed out that practical businessmen were largely in agreement with the Bretton Woods experts. Meeting at Rye, N.Y., last November, businessmen from fiftytwo countries, including Canada.

perts. Meeting at Rye, N.Y., last November, businessmen from fitty-two countries, including Canada, recommended a Multilateral Trade Convention for all countries to provide for the progressive lowering of trade barriers; the elimination of quotas and import embargoes; the abandonment of discriminatory trade practices; the abandonment of national sales and production monopolies.

"It appears to me," said Mr. Wilson, "that the next step in preparation for the general resumption of foreign trade after the war must be discussions and agreement between governments on commercial policy. If some standard of commercial policy. If some standard of commercial policy is not established prior to the resumption of general trading, we may see the continuance of the predatory practices of the pre-war cra.

"Canadian economic development, in the future as in the past, depends upon the maintenance and development of international trade. Monetary stability is one of the prerequisites of international trade. For Canada, therefore, monetary stability is of paramount importance. If we acknowledge these premises, our course of action is clear. We must implement the measures necessary to secure them. I sincerely hope that Canada will be one of the first to approve the principles of the Bretton Woods agreements, leaving the Government free to deal with matters of detail in consultation and agreement with the other countries concerned." cerned."

GENERAL MANAGER'S

ADDRESS

In presenting the Annual Balance Sheet Sydney G. Dobson, Vice-President and General Marager, pointed out total assets were now at the record level of \$1,790,251,802, and that the increase in assets during the year was the greatest in the history of the bank. The liquid position was exceedingly strong, he said. Total Liquid Asset representing \$1.62% of the bank's Liabilities to the Public. Noteworthy was the increase in the number of Deposit Account Customers which now totaled 1,450,000. Profits for the year, after providing for Dominion Government Taxes, amounted to \$3,821,183, an increase of \$355,824.

'ON TO BASTOGNE!"

Following signing of truce be-tween Greek ELAS forces and the British Army, Gen. Nicholas Plastiras, Greek premier, is faced with task of bringing order out of the political chaos that spark-ed off 40 days of bloody civil war. Besides premiership, he holds portfolios of War, Navy, Air, Merchant Marine.

TRIBUTE TO STAFF The General Manager reported that the staff, not including those in the armed services, now totalled 8,205. "In Canada 71% are young women, compared with only 21% in 1939. While the more experienced officers have been under great personal pressure, because of the need to train and help inexperienced newcomers, these new members of the staff have learned quickly, fitted in readily, and performed splendidly the duties allotted to them. All of our officers serve with a sense of public responsibility as well as of duty to the bank.

"Leave of absence for military service has been granted to 2,225

Over field microphone, Lt.-Col. Creighton (Abe) Abrams, of Jacksonville, Fla., gives the order that started the Third Army drive that relieved the heroic 101st Airborne Division garrison in Bastogne. Col. Abrams commands the 4th Armored Division's rescue spearhead.

**ACTS IN GREECE** 

Mr. Dobson reported steady development of the bank's foreign business in the Caribbean and South America. "The South American countries," he said, "are potential purchasers of large quantities of equipment of all kinds for modernizing and expanding aircady established manufacturing facilities, for developing new industries, and carrying out public works programs. A growing interest in Canada and Canadian products is evident, and it is hoped that our manufacturers, exporters, and importers will reciprocate this interest. Our well-placed branches are in a unique position to offer assistance in the development of trade between Latin America and Canada."

Leave of absence for military service has been granted to 2,225 of our officers since the war started, of whom 2,154 enlisted from Canadian branches. This is equal to 74% of the Canadian male officers who were under 45 at the war's outbreak."

ficers who were under 45 at the war's outbreak."

Looking to the problems of the post-war years, Mr. Dobson stated that one of the bank's first considerations would be the placing in satisfactory positions of the members of the staff who were serving in the various armed services. "This matter," he said, "is foremost in our minds and is being given careful study. The affairs of customers in many cases will undergo great changes in the transition period from war production to peacetime needs. In this transition we shall be called upon to play an important part in assisting financially in helping to bring about this change. It may be necessary for us to revise to some extent the existing practice of making loans for short terms only, and in certain circumstances to consider loans extending over a period of two, three, or five years to meet changed conditions.

"I am not implying that we should depart from our policy of prudent banking, but because of our large holdings of readily negotiable Government securities, we may, without risk to our liquidity, assist leserving borrowers with longer term loans.

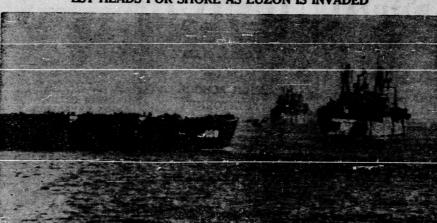

"Your bank is strong financially and exceedingly well equipped to handle post-war financing, and we shall consider it our patriotic duty to play our full part in assisting business generally in becoming reestablished."

WHY HOME FRONT MUST TIGHTEN UP

Everything expended on the War Fronts means just that much less for the Home Front, and the promise of 1945 is that combat expenditures, some of which are pictured above, will reach hitherto unimagined totals. CASUALTIES: Running at the rate of 1,500,000 a year, are expected to increase as war's tempo speeds up. AMMUNITION: More than two tons of ammunition are fired every minute of every day at the Germans alone, with rate of fire increasing. TIRES: Life-span of tires in combat is often measured in minutes. As supply lines lengthen, tire requirements will increase. GASOLINE: Combat reverses, resulting in loss of gas dumps, like that in photo; ever-increasing mechanized strength and growing air forces, including such gas eaters as B-29s, the luge new B-32s and other giants will use gas in unprecedented quantities. MECHANIZED EQUIPMENT: Tanks, trucks, jeeps, ducks, tank destroyers, motorized artillery and other equipment are highly expendable, as photo of Germans advancing past burning Allied half-track indicates. PLANES: As enemy's defenses tighten up, plane replacements will be increased.

LST HEADS FOR SHORE AS LUZON IS INVADED

An LST, loaded with troops heads for a Lingayen beach as the invasion of Luzon got under way. Floats for portable docks can be seen on the side of the landing ship. Other ships stand by, waiting to send their troops ashore.

Promise that servicemen who have lost their legs will not be deprived of the convenience and pleasure of auto driving is seen in the fact that the two veterans in the photo above have just won driver's licenses in Georgia. They learned to drive with artifical driver's licenses in Georgia. They learned to drive with artifical limbs at Lawson General Hospital, Atlanta. At left is a sergeam of the Georgia State Patrol, who supervised their successful road

JUST IN CASE

MANY THANKS go to wives and mothers who serve Maxwell House! Yes, Canadian families love the delicious, satisfying flavor of this superb blend of Latin-American coffees.
