OKINAWA ARK CAUGHT IN DELUGE

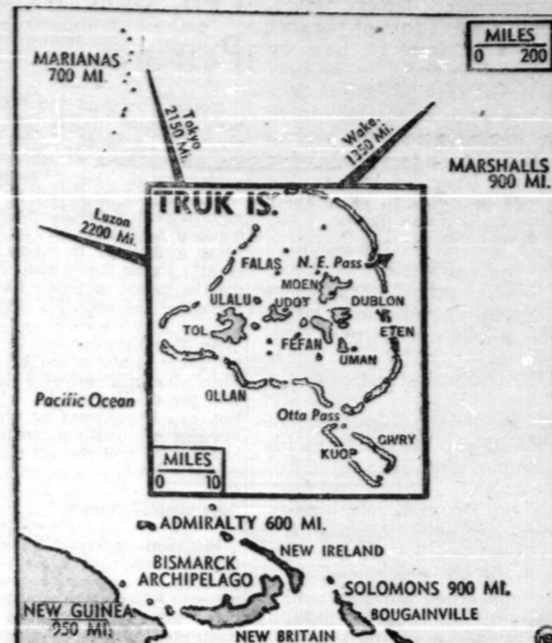

Flash flood caused by tropical torrent caught this AAF liaison plane and it took the whole crew to fish it out. Weather is typical of obstacles Allies found in exterminating Japs on the island.

74-YEAR-OLD SEA HERO

Age is no barrier to gallantry in wartime Merchant Navy service. It is proven by Chan For Sui here receiving the British Empire Medal in his 74th year. This Chinese veteran of Canadian Pacific Steamships—the now is serving his 53rd year with that company at his own request—is a survivor of the sinking of the Princess Marguerite, one of 12 Canadian Pacific vessels lost through enemy action in this war.

UNFINISHED BUSINESS

Some unfinished business in the Pacific received attention when, according to Tokyo, British carrier planes bombed Truk island, once-vaunted Jap stronghold. Consisting of many small and heavily fortified islands encircled almost completely by coral reefs (small scale map above) Truk would be difficult and costly to attack by sea. So Allied forces by-passed the island long ago, rendering it impotent, by seizing surrounding strongholds.

Lena and six of her record litter of 28 fox hounds bid adieu to brother Lawrence who will be mascot for War Loan drive. Dogs are one year old.

FRAGRANT HOBBY

Actress Peggy Ann Garner is shown with variety of perfumes and colognes which she collects as a hobby. Many rare scents are gifts of fans in appreciation of 13-year-old girl performances in film version of "Junior Miss."

INGENIOUS CHINESE

Allied soldier looks on with interest as Chinese soldier knits and punts while industriously whipping up sweater in Kuming, China.

JUST LIKE CARTOON

Thick glasses buck teeth, tiny hat and deceptive grin—this Jap, captured on Guam, is typical of the character all cartoonists portray in presenting the "superior" soldiers of Japan.

MOVING DAY FOR MA ROBIN: FROM TRAIN TO TREE

Plight of the mother robin who was raising a family under a railroad car was alleviated when the trainman and a passenger removed the nest and placed it in a tree 30 feet from the right-of-way.

WINNING, WEATHER OR NO

Sticky clay . . . water knee deep . . . and the pound, pound of Jap shells. It isn't a pretty picture war paints on Okinawa for these Marines who waded through knee-deep water following a cloudburst that sent a stream over its banks, inundating a command post near Shuri. They're using stretchers to carry office equipment.

SUPPLY CHIEF

Man-size job of supplying troops, food and equipment for the Pacific theater has been delegated to Lt.-Gen. Wilhelm D. Styer, above, by Gen. Douglas MacArthur.

NEEDS NO NOTES

One of the most amazing minds revealed at the United Nations Conference in San Francisco was that of Lt. Andre Kaminker, of France. An interpreter, he sat through all English speeches and, without making a note, repeated them verbatim without a mistake. In upper photo he is shown concentrating; below, interpreting.

WANTED!

Back in 1900 you could have picked up \$125 for turning in Winston Churchill by any arm of the Dutch law. At that time "Winnie" was a war correspondent in the Boer War, and the Boers, as bottom facsimile indicates, put that value on the capture of his head. At right, the cigar-smoking, nonchalant Prime Minister of England is shown as he appeared as a scrivener at that time.

£25 REWARD is offered by the Sub-Commission of the fifth division, on behalf of the Special Constable of the said division to anyone who brings the escaped prisoner of war.

HOME, SWEET HOME

There's nothing like a front porch to wipe out memories of the front lines. Here Gen. Dwight D. Eisenhower and his son, Lt. John Eisenhower, learn all the home town news at Abilene, Kans., from The's mom, Mrs. Ida Eisenhower.

MOTOR OF FUTURE

Simplicity of jet motors is indicated in this sketch of the P-59-A propellerless fighting plane. Note that basically the motor consists of a drive shaft, impeller and turbine wheel. Air flows into intake (A), is compressed by impeller (B), and goes to blast chamber (C), where fuel is ignited and temperature raised. Turbine (D) is propelled by air pressure and in turn gives power to air compressor at front of engine. Air flows at high velocity through nozzle (E) creating by reaction the force which drives plane forward. This plane uses twin turbo-jet engines.
