JAPS LOST FACE- AND ARMS, TOO

Demobilization of 7.000,000 Jap troops, accomplished recently with unprocedented speed by General MacArthur's forces, has necessitated collection and tabulation of enormous stores of enemy weapons, as illustrated in photos above. At upper left, Jap officer assists an American in checking off airplanes at Utsunomiya airfield. Propellers have been removed as provided in surrorder terms. At top right, Lt. Charles Dorick of McKeesport, Pa., prepares to inspect one of thousands of rifles displayed in racks at Utsunomiya arsenal. The GI at lower left obviously enjoys carrying to his outfit's trophy room an armload of ornate samural swords, the symbols of Jap militarism. At lower right, an officer from a special U. S. ordnance unit lists some of the captured field pieces.

BRITISH NAVY LEAVES U. S.

English officers and civilian workers leave for Scotland as British Royal Navy closes shop in the United States. They were assigned to various British Admiralty offices throughout country during wartime. Offices now are in closing down process.

QUONSET 'BARN'

BUY A BOTTLE TODAY!

The "Quonset 24" utility building of many war uses has now been converted to the ways of peace, and especially for services on the farm. The packaged, easy-to-erect all-metal structure, shown above, manufactured at the Great Lakes Steel Corporation's Detroit plant, is described as ideal for farm tools, implements and vehicles or, with open front, as a barn for farm animals.

Soldiers take a back seat in New York this week, as gobs arriving with the flee take over. This GI in Central Park does the rowing, while his buddy in bell-bottom trousers entertains the girls—count.

I don't want to see or "Because he'd want to run touch any for months- although move in and take charge and think we ought to let Oliver run I don't mind looking through them. You see, way back in the summer of '44 we ordered five new it. He doesn't know much about storm windows. They were de livered on a cold rough day last December - unpainted, of course "Of course," Gary said, as they We never got them on at all. They were just left in the storeroom. Round about September I began sensible thing to do is to sell a lease, that is, if there should be to think they really should be oil down there. If you sell out to a production concern, they'll put painted if they were to go on the house this fall. Thinking was as far as I got—hat is until the end down a test well and then close the area and hold it for future of October. Then my conscience

wouldn't let me rest any longer-

those windows would have to be

done. Have you tried painting new storm sash? Do you know what a slow job it can be? If you have, then, unless you are a magician, you know you can paint only one side at a time—and with two coats of paint that means wrestling with the job four different times — or more, if you are interrupted. Your eyes tire, your feet ache and you continually find yourself painting the glass as well as the woodwork. On one of these occasions son Bob volunteered to help. I accepted gladly-until I found it took me longer to clean off the smears on the glass than it did to paint! Maythe gass into it did to paint? May-be painters, like poets, are born and not made. As to that I don't think I was born a painter either. Came the day when the windows

around ahead of the carpenter to clean windows before the storm sash was put on. Why didn't I clean them before? Because I don't like doing the same job over again. Clean windows ahead of time and as sure as anything it rains in the night leaving them woefully strea-ky. There was no use looking to the men for helpthey were busy enough drawing in red clover seed.

Eventually the windows were on — old as well as new—and that same night the wind whined and howled, and rattled the shutters from one end of the house to the other. I lay in bed listening to it, feeling more thankful every min-

BACKACHE The Plague of Outdoor Men

The outdoor man, whether he be farmer, truck driver, or railway operator, is often subject to backache. This may be the result of exposure to cold and dampness or the result of strain from the jolting and bumping of the vehicle he rides.

To many people, women as well as men, it would be great to be free of backache—one of the most common and annoying of ailments. And here is how you may be relieved of backache and other symptoms of poisons in the blood.

The treatment suggested is Dr. Chase's Kidney Liver Pills. By reason of their stimulating action on both the liver and kidneys, you have two chances to one of getting relief from your backache by using Dr. Chase's Pills. The torpid liver is aroused to action, the lidneys are stimulated and consequently these organs help to purify the blood of the poisonous inpurities which bring pains and aches and tired feelings, Keep regular and keep well by using Dr. Chase's Kidney Liver Pills.

Dr. Chase's Kidney Pills
