But now at last the rising sun is ours

O Canada, most favoured of the lands,

If we now stop to haggle at the cost

Then we have lied.

Then we'll have lost.

Then we'll have won.

And with it comes new challenge to our powers.

And, having won, to cheer, and strive no more?

If that be all for which our men have died

Review whereon our right to victory stands;

To break our foes that we might freely live.

Our vow to free and succour those oppressed-

Provide for those who fought and are distressed,

Who risked without reserve all they could give

If we play square with those who fought our fight,

And work with them to shape our world aright,

Postpone our buying things we little need-

Prevent inflation growing through our greed,

By loaning to our cause a little more . . .

Co-operate in peace as well as war

If we keep faith until the job is done

"The farmer who is wise will look ahead and plan carefully.

"And in these years when prices and returns are more satisfactory than they have been, when labor is scarce, when farm machinery is restricted, when building materials are not readily available, a good course to follow would be that of putting a substantial share of the year's earnings into sound securities such as Victory Bonds. These reserves will not only provide a measure of insurance against difficulties in less favorable years, but at such time when supplies are favorable and costs will probably be lower, their purchasing power will be greater and return from them correspondingly increased.

"We believe this is good planning from the farmer's standpoint. At the same time, it is the very best of planning from the standpoint of the Nation."

FARMERS CAN BUY VICTORY BONDS on convenient deferred payments THROUGH ANY BANK

. . just sign a short form letter which Victory Loan Salesmen carry (banks have copies) ordering the bank to buy Victory Bonds for you. Pay 5% when ordering and the balance at any time during the next 12 months. The interest the bonds earn pays the interest on the bank loan.
