"Yer right, lady," agreed the beggar. "When I was blind I was always getting counterfeit money."

"Here it is, then, said the mane, "and cheap, too. The garage man wanted thirty bob to drive me over."

Diamond Cutting

Refugee Dutch and Belgian artists who fled from their homeands before the German inva-sion are training 15 Canadian war veterans in the ancient skill of

diamond cutting. The veterans work on a threeyear apprenticeship basis at the Toronto plant of the Canadian Diamond Cutting Company, but because of production line methods some are making good money

right now.
"It takes 10, 20 or 30 years become an expert diamond man, but wer're able to teach them production methods in a very short time," said Mark Gross, son of plant owner S. Gross. "Of course if they want to stay in the business and become all-round men they'll have to work quite a while.' "The quality of the work done by the veterans will stand up against any in the world,"
Gross said.
