BUCKLEY'S CAPSULE

Oday, moderation is a necessity. By moderating our pleasures, by controlling unessential spending, we serve our nation and ourselves best.

The House of Seagram for many years has advocated moderation. Now, during these days of adjustment, it suggests this even more strongly. We Canadians can still enjoy comforts, standards and pleasures that less fortunate people are denied. But let us remember that the continuation of these

advantages belongs only to those who treat them with respect.

Let moderation be our intelligent contribution to the futuremoderation in spending-moderation in all things we do.
