Smarty

He was a peculiarly unpleasant person, and when visiting the local cattle show made himself unpopular by his loudly expressed claims to superior knowledge. He was especially insulting to old Sam Potts.

"Pah", he said, sneeringly, "you know nothing about pigs, you don't. Why, my father raised the biggest pig ever raised in these 'ere parts".

"Aye", retorted old Sam, quietly, "and the noisiest".

Innocent

A private stationed at the Army Air Force Basic Training Center, N.J., was ordered to wash and clean an officer's inner sanctum. Quickly he went to work. Happily humming a song, he wiped the desk, cleaned the chair, dusted the books. A hall later the officer walked in. Everything was tip-top — except the floor.

"Private," remarked the officer, "wasn't the floor washed?"

"No," replied the private.

"No WHAT?" exclaimed the irritated officer.

"No mop," said the private meekly.

If it Comes to That

A man was going round the country selling bacon-slicers. He came to a little town in Lancashire and went into a grocer's where he could see they hadn't a bacon-slicer. He put his sample on the counter and showed the grocer how it worked.

"Don't you think that's marvelous?" he asked.

"Aye."

"Don't you think every up-to-date grocer should have one?"

"Aye."

"Now, just take another look at this," he said, and sliced off a lot more.

"Isn't that lovely?"

"Aye, it is an' all."

"You agree this is a time-saving machine and a marvelous investment?"

"Aye, it's marvelous."

"You realize what a lot more business you'd do if you bought one for your shop?"

"Aye, I do an' all."

"Well, why don't you buy it?"

"Well," said the grocer, "why doesn't tha ask me?"

Seems Like Yesterday — By C. Kessler

VOICE OF THE PRESS

"Extra Sweet", Too

Out in Vancouver the stork is so active that in one hospital they're putting the new arrivals in apple boxes. Every girl baby, we suppose, goes in a crate marked "Delicious", and the boys are labeled "Jonathan."

—Ottawa Citizen.

Two Classes

It is deplorable that so many public office-holders fall into one of these classes; (1) Those who won't do anything, and (2) those who will do anything.

—Kitchener Record.

Comparative Skills

The man who pokes fun at a woman trying to drive through a 12-foot garage door usually sobers up when he tries to thread a needle.

—Montreal Star.

And Soon

Goering has reaffirmed his faith in Nazism and says he would follow Hitler again if he had the chance. From all indications, he will get it.

—The New Yorker.

New Alarm Network Helps Catch Crooks

A new kind of burglar alarm—a wartime invention—which automatically calls up Scotland Yard, the Criminal Investigation Department, is being fitted in many London banks, jewellery and business premises as a further step towards combating Britain's biggest crime wave in years.

Already the device—a gramophone-telephone system, which automatically relays the name, address, and telephone number of the premises being burgled to the police—has resulted in some of London's smaller crooks being rounded up, it was stated today.

Now American officials in London, it is understood, are considering having G-men sent from Washington to help in tracking down several hundred United States deserters. Many of London's robberies have been made by men in uniform armed with military weapons.

Special precautions are being taken at embarkation ports to prevent troops bringing souvenir weapons into the country.

Volunteers are now coming forward to reinforce the Metropolitan Police as special constables, and those specials who would normally be released after completing war service are being asked to stay on.

Civilians are responding well to the police appeal to dial 999—Scotland Yard's emergency number—to report suspicious actions, and has resulted in more crooks than usual being arrested.

Alberta Lemons Big as Grapefruit

Alberta's climate is not suitable for lemons, but with a home-made climate, a few seeds, and some special care, W. L. MacGregor has produced nine large lemons.

His wife, who shares in the achievement, displayed the fruit which resemble lemons in shape but are almost as large as grapefruit. The largest is one pound three ounces and the smallest only two ounces less.

JET PLANE TO SPEED PASSENGERS AT 300-MILE CLIP

An order for 100 jet propulsion twin-engine commercial passenger planes like that sketched above has been announced by American Airlines as having been placed with Consolidated Vultee Corp. Total expenditure will approximate $18,000,000. Designers claim that, with jet propulsion as a complement to propellers, the ship will carry 40 pasengers at a cruising speed of 300 m.p.h. Another unusual feature of the model will be entrance doors at the front instead of at the side.

World Problems Of the New Year

Many Political Issues Must Be Solved in 1946.

As the New Year opens, world government and control of atomic power overshadow all problems.

Concisely the world-government issue is this: Is the United Nations Organization to be a genuine world organization or simply another League of Nations dominated by power politics?

As the present moment the world is being run exclusively by the Big Three—Great Britain, the United States and Russia.

Displaced Persons

The grave social problem of the displaced persons still stands substantially unrelieved. Close to 1,000,000 political refugees are scattered here and there about Europe while the Allies seek some way of guaranteeing them freedom and a decent way of life.

Middle East

The chief issue in the Middle East, traditional storm centre of international affairs, hinges upon what appears to be a Russian effort to gain political dominance over the area between the Indian Ocean and the Aegean Sea.

Spain

The problem of the Allies in Spain is essentially this: How soon can Generalissimo Franco be ousted from power and the country restored to a democratic basis? An early Anglo-American-French parley on the wisdom of breaking diplomatic relations with the Franco regime is a possibility.

Japan

In setting up a four-power control council to administer Japan, the Allies are facing the same challenge that confronts them in Germany, to wit: Can differing nationalities, differing concepts, and often differing ideals be meshed into a unified and efficient administrative machine? It must be admitted that the effort thus far has not been very successful in Germany.

Colonies

The trouble in Indonesia provides a fair example of the colonial problem in all parts of the post-war world. In essence, the issue is this: Will the great powers attempt to cling to old rights and privileges or will they act in accordance with the principles of freedom, justice and the self-determination of nations?

BOMBS STILL BURST

The villages of Chiffe, Eng., feel that peace has passed them by as great explosions come from near-by marshes where old bombs, mines and ammunition are being detonated.

STOPS COUGHS

France Faces Wheat Shortage

France will face a grave wheat shortage before the end of the winter—a fact that may precipitate a governmental crisis, since bread is the staple food of France, says Newsweek. Early estimates placed the wheat crip at 60 per cent of the 1938 figure. Actually, the 1945 harvest reached only 42 per cent. Moreover, Argentina probably will be unable to deliver wheat as contracted for by former Food Minister Christian Pineau. Desperate attempts will be made to obtain wheat from the U.S. and Canada.

Disability pension is based upon the degree of physical disability actually caused by the injury or disease.

BABY CHICKS

BABY CHICK BUYERS

ORDER YOUR GOVERNMENT APproved chicks now and obtain an early order discount. Each breeder is Government hauded and blood-tested. Write for our 1946 price list and catalogue. Monkton Poultry Farms, Monkton, Ontario

LAYING AND READY TO LAY pullets for immediate delivery in Barred Rocks, New Hampshires, White Leghorns, crossbreds. Also day old chicks for immediate delivery. Tweedle Chick Hatcheries Limited, Fergus, Ontario.

Conscientious Cow

According to one British authority, out of a ton of grass a good dairy cow puts 1,456 pounds on one side, for milk production and keep, 784 pounds for herself. A cow of poor stock uses 986 pounds for milk production and takes 1,254 pounds for own maintenance. (The British long ton is 2,240 pounds).

Hitler's Last Wills: Political and Private

Adolf Hitler's last political testament, apparently prepared as Berlin tottered before the Russian onslaught, was revealed last week as a masterpiece of propaganda in which he built himself up as a martyr and bequeathed to the German people the Nazi creed of fierce loyalty to the State and hatred of the Jews.

His final admonition was:

"Above all, I enjoin the government of the nation and the people to uphold the racial laws to the limit and resist mercilessly the poisoner of all nations, international Jewry."

The testament, dated April 29, 1945, was discovered by British and American intelligence agents. It disclosed that Hitler expelled Reichsmarshal Hermann Goring and Gestapo Chief Heinrich Himmler from the Nazi ranks for attempting to seize control of the State, and "negotiating with the enemy without my knowledge."

Urging Germans to keep alive the Nazi doctrine, Hitler said "the seed has been sown that will grow one day in the history of Germany to the glorious rebirth of the National Socialist Movement," the document added.

Throughout the testament, Hitler built himself up as a martyr who wished to "join in death" the troops who had fallen on the battlefield.

In his personal will, also dated April 29, Hitler told of plans for suicide after marrying Miss Braun, his mistress.

Hitler left his personal possessions "in so far as they are worth" to the Nazi Party, and said that paintings he had collected should be placed in a gallery "in my home town of Linz on the Danube."

WHAT SCIENCE IS DOING

Artificial Eye

The U.S. Navy has perfected an artificial eye that moves, and even shows expression.

This new plastic model does everything but see.

It appears so natural that a pretty girl could have her good eye for reading and use her false eye for flirtations.

The new eye should hit the civilian market some time in 1946, and at a price which the lower income groups can afford. The Naval Dental Corps at Bethseda, Md., has manufactured more than 500 of these eyes during the past year.

Dentists were assigned to the job because of their experience in molding plastics to tissues.

Comm. Lamar W. Harris, speaking to the Greater New York dental meeting, explained that the navy's new eye grips at the muscles behind the eyeball. The old-fashioned glass eye was mostly a shell, with almost no gripping power.

"The muscles attaching the eyeball are cut and gathered so that they fit aroung the edge of the plastic ball," Harris explained.

Harris said that it was a simple operation and that the navy is passing on its information to civilian dentists.

The wearer can remove his plastic eye for cleaning and it won't break. Harris even bounced one against a wall.

HAVE YOU HEARD?

"I know he is the man for me, mother. Every time he takes me in his arms I can hear his heart pounding."

"Better be careful, daughter. When your father was courting me I was fooled for a year by his dollar watch."

The man who pokes fun at a woman trying to drive through a 12-foot garage door usually sobers up when he tries to thread a needle.

"Did you say that any incompetent man could run a hotel?"

'Not at all. I said that any inn experienced man could."

What a nice place
This world would be
If I loved others
Like I love me.

Dad: "No, son, I wouldn't think of buying you that bugle. You'd make too much noise with it."

Son: "No, I wouldn't, Dad. I'd only practice on it when you're asleep."

DEMOTED

Fifteen one-time shiny Japanese army horse-drawn gun carriages took on a new atmosphere recently. In suitable rites attended by American Military Government and Korean officials, they were recommissioned as garbage wagons.
