A. L. MILLER, Editor

JEWISH EXODUS?

OUITE A STRIP was aroused by Lt. Gen. Sir Frederick E. Morgan's charges that a mass exodus of Jews from Poland is being directed by a Jewish organization. He also contended that reports of pogroms against the Jews in Poland were not entirely factual.

Morgan's charge concerning the Jews was made last Wednesday and on Thursday a report from the Nurnberg Trial, Major-Gen. Otto Ohlendorf, one of Heinrich Himmler's hatchet men, testified that he personally supervised the execution of 60,000 Jews under Hitler's orders. He further admitted that his record of 60,000 executions was "materially smaller" than the totals reported by three other groups.

Jan Karski in his book "Story of a Secret State" had this to say from first hand knowledge: "I know history. I have learned a great deal about the evolution of Nations, political systems, social doctrines, methods of conquest, persecution and extermination, and I know, too, persecution and extermination, never anywhere in the realm of human relations did anything occur to compare with what was inflicted on the Jewish population of Poland."

The moist flesh of the packed humans would rapidly dehydrate the lime and burn their flesh. The train would travel about eighty miles and finally come to a halt in an open field, where it would remain until death had taken its toll. The bodies were then removed, piled in mounds and buried.

Karski's eyewitness account ties in with Ohlendorf's admission before the war crimes tribunal. It is quite understandable therefore, that any Jews that may remain in Poland desire to get away from the scene of the terrible atrocities inflicted upon their race during the war years.

SOCIALISTS WOULD NATIONALIZE THE LAND

THE EDITOR of the Canadian Statesman has warned more than once that socialism would mean the nationalization of farm land in Canada. He warnings have been pooh-poohed by the CCF faithful, here in Durham County and elsewhere in Ontario, who claimed he knew nothing about the doctrines and practices of socialism.

We summon as our latest witness Tom Williams, the British Minister of Agriculture, who, according to a Canadian Press cable, has warned the farmers of Britain that failure to co-operate in the Labor Government's planned agricultural program might mean nationalization of their land. He said the Labor (Socialist) Government's policy is intended "to ensure that land is properly farmed, managed and equipped" and that it might be taken from farmers and land-owners "who fail to play their part" in a planned agricultural economy.

On December 6th, 1943, M. J. Coldwell, national leader of the CCF said: "The CCF is a socialist movement in exactly the same manner as the labor parties of the British Commonwealth and the Anglo-Saxon world are socialist." He has made other statements along the same line, intending to show that the CCF in Canada and the Labor Party in Britain are political bed-fellows, advocating the same fundamental policies.

It is best to remember that socialism is socialism no matter where you find it. It is a political philosophy, predicated on fixed social and economic beliefs. If British socialists believe in nationalization of farm land, you can be sure that Canadian socialists or Russian socialists or Chinese socialists believe in nationalization of land. The only difference may be that one group hesitates to admit it openly and frankly for fear it might embarrass the party at the polls.

A VITAL SERVICE

WEATHER is officially public property again. Not that it hasn't always been a topic for conversation, but the war's end brought about the removal of censorship restrictions. Now information on winds, temperatures, humidity and forecasts is anybody's for the asking. To the average person such free service may mean only fuller reports and forecasts in newspapers and on the radio. But for others something new has been added. It is possible that within the next few weeks complete weekend forecasts for holidaymakers will be issued. The

Pen, Scissors and Paste

It is only natural that men should want more pay for less work else how would they get enough money to finance their increased leisure.

FAIRPLAY IN TAXATION

WHEN MAN EMERGED from the savage state and began to live in organized communities, one of the first penalties he imposed upon himself for that advancement was the payment of taxes, and he has been paying them under protest ever since.

I have just read an interesting report by Prof. J. L. McDougall, of the School of Commerce and Administration, Queen's University, which gives the results of a special study he has made of the income from commercial operations which are exempt from income and excess profits taxes, with estimates of the amount of tax revenue lost to the Dominion in 1944 by those exemptions.

Furthermore, Prof. McDougall points out that these exemptions seriously affect private business. He declared that so long as the exemptions continue, taxing private enterprise will eventually be impossible where public ownership is possible; and that private business will be impossible where tax-exempt co-operative business can gain a foothold and then crowd the taxing business to the wall by re-investment of its tax-free earnings.

Delegates to the United Nations Organization Assembly which holds its first meeting in London this week have received further incentive to solve the problems confronting the nations, by news from Londonderry, Ireland.

Dr. Raphael E. G. Armistead, Irish scientist, stated there that the Russian has developed an atomic bomb which makes the Anglo-American-Canadian atom bomb obsolete. Dr. Armistead declined to disclose the source of his information beyond saying that some members of the Lomesh Research centre, which he directs, are affiliated with Russian scientific societies. He said "the Russian atom bomb" was about as large as a tennis ball and had a horizontal pulverization range of 53 miles and a vertical lift of more than 6-2-10 miles.

The Irish scientist said the Soviet Council had ordered a group of Russian scientists to concentrate on atomic research immediately after the Anglo-American-Canadian bomb was organized to fill one of the six non-permanent seats on the United Nations council in which the Big Five powers have permanent seats. Prof. McDougall includes the possibility that Canada may have a seat on the proposed atomic energy control commission.

L. B. Pearson, Canadian ambassador to Washington, is prominently mentioned for the key post of secretary general of the U.N.O. and this

Please keep those dates open as there is special matters of importance to be considered. Your attendance is requested. The Parish corporation.

Junior Jottings

By the time you read this, the three months' school at the Rural Youth and Agricultural Centre will have started. Present indications are that there will be a large class of boys and a satisfactory group of girls. Those who were unable to register in the first few days may do so at anytime at a later date. All who register will be accommodated. This is your school and we want you to take full advantage of it.

The meeting of the Junior Farmers Executive and Directors, held in the Common Room at the Youth Centre on the evening of January 2nd, was the first official meeting to be held at the Co-operative Association. A great deal of important business was enacted and news was laid for a program of events to carry through the winter months. This Centre was established primarily to carry on Young People's activities and it was very fitting that they should be the first group to make use of the facilities offered there.

A very fine radio has been installed at the Centre, through the generosity of the Junior Farmers' Association. This radio has been placed in the Common Room and will be available for Farm Forum nights, for Junior Farmer gatherings and for such other groups as may want to use it. The Juniors are to be complimented on having the lead in providing some of the equipment it would not have been possible to secure in any other way.

Maybe the most important item of business enacted when the Executive met, was the formation of a Junior Farmers' Co-operative Association. This Company will have the right to sell stationery supplies and books and will also have the privilege of selling refreshments at the Centre. It is the plan of the new company to sell memberships and keep a record of each individual's purchases of books and supplies. A dividend will be declared at the end of each year based on the amount of business the individual has carried-on with the company. Student Co-operatives are well established at all the major colleges and universities in Canada and the United States. The members of the newly elected executive should feel highly honoured with their appointment for it will give them an insight into the workings of co-operatives that could not be secured in any other way.

As mentioned above, a full program of interesting events has been outlined for the winter season. It is hoped that these gatherings are to take the form of a party night, a skating party and a literary evening. The skating party is of course dependent on the availability of ice at the Centre. In case ice is not available some other form of entertainment will have to be substituted. Watch for future announcements of these events.

The sacrament of the Lord's Supper will be observed at the afternoon service at the Stone Church on Sunday, Jan. 13th. The service will be at 2:30 P.M.

Miss Fay Caswell of Simcoe, spent the week end with her parents, Mr. and Mrs. Harold Rindell and Dick of Villa Nova, took dinner on Sunday with Mr. and Mrs. Len Harrom.

Mrs. Jean Liles and Mr. Russel Park of Simcoe, spent Sunday with Mr. and Mrs. Tom Liles. Mr. and Mrs. Wm. Lemary and children spent New Years with Mr. and Mrs. Tom Liles. Mr. and Mrs. Sanford Fearman of Hagersville and Mr. Ted Howard North and Mr. and Mrs. Walter North, spent New Years dinner with Mr. and Mrs. Wilbert Howard.

Mrs. Fred Crowell and daughter Barbara, Anne, of Hamilton, spent Sunday at the home of Mr. and Mrs. F. W. Reichel. Mr. and Mrs. Ward Parsons and daughter Sylvia, of Simcoe, spent the week end at the home of the latter's parents, Mr. and Mrs. F. W. Reichel. Cpl. F. D. Pattee, Smith Falls, recently released from R.C.A.F., has come to Jarvis to work in the Lundy-Henderson garage, and is living with Mr. and Mrs. Alan Cameron, No. 6 Highway.

Church Notes

The Westminister Chimes—All through this hour Lord be my guide, And by Thy power No foot shall slide.

In the story for the children last Sunday the minister told how these words can be sung to the chimes of Westminister which are heard from the tower of Big Ben immediately before the great bell strikes the hour. These are the words that are taught to the school children of London as the message of Big Ben.

The Sacrament of the Lord's Supper will be observed at Wesley Church on Sunday morning and at Garnet in the afternoon.

Annual Vestry meetings will be held on January 21st, Jarvis, Nanticoke, January 22nd; Chesapeake, January 23rd, at 8 P.M. on these consecutive evenings. Please keep those dates open as there is special matters of importance to be considered. Your attendance is requested. The Parish corporation.
