#### | Canadian Cattle For British Herds

Canadians have reversed history, and now Great Britain is buying cattle in Canada to freshen English herds rather than export her own animals to the world, Ontario Agriculture Minister T. L. Kennedy said in Toronto last week.

Kennedy told the Ontario Good iculture, on a visit to Canada last onth had bought cattle for English herd breeding and said this urchase was "very unusual because it always has been the British custom to raise their own animals and ship them all over the world."
