PRICE CONTROL

WE FIND VERY FEW people who will admit that the actual cost of living bears a close relationship to the statistical level as reported by the Government.

It is a big question to determine the exact advantages of controls in wartime.

The control of prices at the present time however, means a great deal to the wages of the average working man.

It is significant to compare the price of five staple commodities at the present time under Price Control as against the cost of the same commodities at the same period following the first Great War.

NATIONAL CLOTHING DRIVE

THE CANADIAN Allied Relief Fund is sponsoring a second National Clothing Drive from June 17th to 29th, inclusive.

Perhaps the importance of the campaign is best described in the words of William M. Birks, National Chairman, who says: "The grave world food situation at the present time is being met by rationing and voluntary restrictions."

Anything we can do to alleviate the situation will be a tribute of friendship to those who in many instances, lost their all in the ruins of the most devastating war in history.

CHALLENGE OF THE NORTH

ANNOUNCEMENT that the Canadian Army, which recently took over the Alaska Highway from its American builders, will employ civilians for maintenance crews represents the latest call for service in Canada's rugged northland.

Those who answer the call will be the type to whom the north ever has held an irresistible lure—the young, adventure-hungry, intrepid men willing anytime to exchange the smoke and din of the city for the pure air of the high forest or the mountains, men born to see what lies back of beyond.

The army men and maintenance crews will work in one of the wildest and most beautiful parts of Canada. To them, such places as Blueberry, Muncho Lake, Summit Lake, Suicide Hill and Steamboat Mountain will become familiar. Along the highway itself lie resources to be discovered.

Pen, Scissors and Paste

"Shall I ask the brave soldier, who fights by my side, if he is tired of mankind, if our creeds agree? Shall I give up the friend I have known and tried, if he kneels not before the same altar with me?"

INFLATION

"FOUR THOUSAND years ago a hungry man started 'inflation' when he bartered away his birthright for a mess of pottage. And away his birthright for a mess of pottage. And away his birthright for a mess of pottage. And away his birthright for a mess of pottage."

DO HIGH WAGE RATES BRING PROSPERITY?

By Lewis Milligan

"DOES THE RAISING of hourly wage rates produce greater annual wages, incomes and rising employment?"

In his fact-finding search Mr. Rucker discovered that the average hourly wage rates in manufacturing industry were 10.2 per cent higher in 1939 than in 1923.

Now, according to the theory popular with many labor leaders, annual income of factory workers should in that time have increased by the same proportion—22 per cent, but, instead, there was an actual decrease.

WAR ORPHANS FIND REFUGE IN ENGLAND

VICTIMS OF NAZI CONCENTRATION CAMPS REGAIN HEALTH AND HAPPINESS UNDER U.N.R.R.A. PLAN

Langford, Surrey, England—(CP) Six hundred orphans, who survived the horrors of Auschwitz, Ravensbrueck, Dachau and Bergen are being nursed back to health and happiness in small hostels scattered over England.

These are official figures of what really happened, compiled by a government fact-finding organization, and they permit of only one conclusion, that the prosperity-through-higher-wage-rates did not work out in practice.

INDUSTRIES WANTED

This newspaper may be much whittling in the world, but the fact that Woodstock derives a great deal of its income from the establishment of new industries in our vicinity, but it does not seem to be the most important thing in this community at this time.

IN ORDER to strengthen the arm of the Church and enable it to meet the challenge of postwar needs with intensified effort at home and abroad, members of the Church of England in Canada are asked to provide the sum of \$4,300,000.

This money is urgently needed to carry on the Church's educational and social work in Canada.

To meet Diocesan and general synod needs as well as the expenses of organization and administration.

To carry on missionary work at home and abroad, to assist the Mother Church in England and the Churches of Europe in the work of rehabilitation.

To strengthen the pension fund for missionary clergy.

The money will be allotted in the following way:

- Fund - \$1,300,000
Missionary Work - 1,400,000
Educational Work - 1,000,000
Social Work - 550,000
Church in Britain - 100,000
Churches in Europe - 90,000
General Synod Administration - 205,000
Extension of Church House - 50,000
Diocesan Needs - 200,000
Organization and Administration - 800,000

Spiritual re-dedication must be first, self-sacrificing practical endeavour if the Church is to meet its Christian obligations.

Be prepared to lend YOUR support to the limit of your ability when the Visitor comes during the week of May 12th to 19th, by mail your offering to your Diocesan Headquarters.

BRIEF NOTES FOR THE BUSY FARMER

By Halldom Harry—It is a well known fact that hay plants become woody as they approach maturity and are thus less digestible.

THE PROVINCE OF PROMISE...

ONTARIO'S northern timber areas form a very important part of her natural wealth, and logging—getting the trees out for pulping—is a colourful operation which, while linked with progress, is still in step with nature.

The processing of pulp into newsprint and a host of new and promised products is however an advanced industry upon which model towns are built and careers are launched.

Ontario's forest wealth is side-kick to her mineral riches... more solid if less spectacular. Pulpwood and gold are each the yield of rugged country... each in its way beckons to the daring.

Published by THE BREWING INDUSTRY (ONTARIO)

FOREST WEALTH

An estimated 71,031,000,000 cubic feet of timber stands on Ontario's 100,000,000 acres of forested land. With a capital investment of \$250,000,000, the pulp- and paper and lumber industries rank first in industrial financing.

Forest industries also lead in number of employees and wages paid and net value of products. Plans are now to: (a) train in modern logging methods; (b) maintain the yield of natural tree growth by reforestation; and (c) moderate woods operations with mechanical equipment.
