

OF THE SEA By George E. Walsh

SYNOPSIS

CHAPTER XII

The gale was stiffening every minute, and the work of getting under way was hurried. With almost bare poles the lugger would have great difficulty in standing up in the wind and rough sea. A giant wave swept the deck. With vell Dick tried to save himself, but with his arms tied behind his back he was as helpless as a child. He rolled over and over, and was saved at the last minute by Black Burley, who jerked him back in the nick of time.

"Cut these ropes," Dick spluttered, "and give me a chance. Another wave like that will finish me." Captain Tucu nodded to his mate.

Dick waited his chance. He had definitely decided to trust his life to the sea again and to try to reach the schooner. Better die battling with the elements than sail away with the black pirates. He stood a moment, stretching his limbs, and watching the heaving seas. Another wave, smaller than the first, but big enough to give him an excuse, swept over the bow of the lugger and rolled aft.

When it struck him, he gave another yell, as if calling for help, but instead of resisting the mass of green waters he plunged straight into them and assisted them in carrying him overboard. Black Burley made a grab for him with his long arms, but Dick ducked in time to elude them.

Shaking the brine out of his eyes, he began swimming, holding his head as high out of the water as he could. He made no resistance to the waves, but swam with them, striving to keep on their crests for better observation. A light twinkled out of the darkness, but he wasn't sure whether it came from the lugger or the schooner.

He conserved his strength as much as possible, swimming easily and treading water every time he was swept on the crest of a wave. From this pinnacle he had a wide glimpse of the sea; but the dark-ness now shut out everything, and neither the lugger nor the schooner was visible. "I've missed it," he groaned once.

"I should have been there before In the midst of his bitter reflections his hand caught something

that startled him. It was a watersoaked rope! His mind nimbly leaped from despair to hope. He clutched eagerly at the mass of slimy ropes that before had been sea monsters and slippery eels. Now they were life lines flung out to help him. Their continued lashing and twisting were real and substantial. He

He began clawing at them, pulling himself from one mass of rig-ging to another. When his hands came in contact with a floating spar, and it bobbed up and nearly smashed his face, he laughed in glee instead of cursing. If he could

crawl up the wreckage to the schooner's deck he would be safe. Again and again the waves broke his hold and flung him back, jerking the ropes from his hands, and casting him hopelessly adrift; but a succeeding comber would restore them to him. He grew more cautious, climbing upward between waves, and holding on for dear life each time one swept over hi

In this way he slowly pulled himself up the mass of wreckage until, between waves, he was o of the water. Then came the battering of his body against the sid

Finally a giant wave carried him clear over the rail and dropped him heavily on the deck where he lay sprawled for some moments, gasping for breath, and groaning from tre effects of the teriffic struggle. The crests of the surging waves reached him even here, but they no longer had the power to use him as a battering ram. By cling-ing to a deck stanchion, he could resist them and recover his wind and strength.
When he finally raised his head

and looked around the wave-swept deck, he had a queer feeling that all his efforts had been in vain. The schooner was abandoned, with him as the only living being apoard. A little startled by his discovery he began crawling in the direction of the cabin. If Rose and her father were aboard he would find them there, for the wet, slippery deck was no place for them, and they could not hope to navigate the derelict on such a wild night.

When he reached the head of the companion, a welcome ray of light came through the open door of the cabin, bringing Joy and relief to his tortured mind. Rose was below with her father, watching hoping, and praying or stoically awaiting their fate.

Dick staggered to his feet and started down the steps; but be-fore he had taken one, sounds of muffled commotion halted him. Craning his head forward, he listened, peering intently through the murky gloom until his eyes came to a focus on something lying half across the threshold witr a little start of surprise, he recognized the body of one of the two Caribs left

behind on the schooner. A reddish clot of blood in the middle of the forehead told him where a bullet had entered and brought his life to a sudden end. From inside the cabin came the low, shifting sound of a wordless conflict, with the combatants struggling back and forth in a dead-ly embrace, their breath coming Dick slipped down the few steps

The sceond Carib had disarmed Rose, and with one powerful hand pinning her against the wall he was trying to encircle her waist with his free arm. With a growl of rage, Dick sprang at the brute, catching him by the neck, and with a jerk wrenched his head back. Then looping an arm around the neck he pried the head backward on the windpipe.

The Carib was a big, powerful man, with a head as hard as a battering ram, and arms and legs as thick and solid as tree trunks. Jesus is shown to have the "form of God" an expression which asserts the eternity of His Person and His Deity." Jesus is also de-scribed as "equal with God." In order to become a man Jesus laid aside the glory which He had with the Father and took upon Himself man's nature. This was necessary for Him to be received as a man among men. But in assuming man's nature He die not partake of man's sin. Jesus came in the form of a man to be a servant of all men. Sharing With Jesus

The exhortation in verse 5 is that we shall share the humiliation Jesus suffered: we shall be humbly His servants and the servants o mankind; we shall seek to save the lost by seeking to bring them to Jesus Christ, their only Savior. We are to have the mind of Jesus Christ in the sense of true faith, obedience to God, love for the Word of God, faithfulness in prayer and longing for God's holiness.

### Chemical Bombs To Fight Fires

Chemical bombs weighing pounds will be used to attack forest fires in Australia this summer. Royal Australian Air Force planes, which previously have been used only for spotting purposes, carry the bombs on routine forest patrols. These plans were revealed at the opening of the Victorian Forest Commission Fire Fighters' camp, when the opinion was expressed that the bombs would be effective if dropped on fires when first detected. The burst will cover an area of 400 square yards, bombs
