## ADVERTISING RATES UPON REQUEST

### SUBSCRIPTION RATES

To all points in Canada \$1.50 per year in advance. To the United States 50c additional for postage. The date to which subscription is paid is indicated on the address label.

A. L. MILLER, Editor

### CANADA SAVINGS BONDS

CANADA SAVINGS BONDS will be available to the Public on October 15th. Unlike the Victory Loan campaign, there will be no canvass of the general public for the sale of these bonds. They will be available through all chartered banks, authorized investment dealers, stock brokers or Trust and Loan Companies, or through employers on the payroll Savings Plan.

The Bonds will be dated November 1st, 1946, and will mature on November 1st, 1956, and will bear interest at the rate of 2 3/4%. They can be redeemed on demand at any chartered Bank at 100% plus interest.

In view of the fact there will be no organized canvass it is up to each individual to assume the responsibility for their own purchases. The bonds are available in denominations of \$50, \$100, \$500, and \$1000. Sales to any one individual is limited to \$2,000.

The importance for individual investors to buy Canada Savings Bonds is the same as with Victory Bonds. The Government could meet its borrowing needs from other sources, but it is in the best interests of Canada to have the interest paid on these loans to as many people as possible. Keep up the habit of Bond buying. There is no better investment.

V V V V

TO ALL MEN Light is a symbol of triumph - of good over evil, of joy over sorrow, of knowledge over ignorance. To the blind, it has a special significance. They, who never see the sun, know the importance of that light to be found in work, in play, in social relationships. When they can find light in their inner life, they have in reality triumphed over darkness.

The Canadian National Institute for the Blind has been working in the Niagara Peninsula for many years, through its Field Secretary, Home Teacher and voluntary Advisory Boards, to enrich the lives of the blind in the district. Now a new project is under way which will improve the facilities for serving the blind to an immeasurable degree. The C.N.I.B. is launching a drive to raise \$70,000 in the Niagara District to build a Home and Community Centre to serve over two hundred blind people in the area. Like a light, it will spread its rays throughout the Peninsula, warming the lives it touches with new interests and new opportunities.

The new building, which will be erected in St. Catharines, will house twenty-nine residents in pleasant single rooms, filling a long-felt need in the district for a comfortable home where those who have no proper accommodation can live. The new radiant heat is to be installed, giving an even temperature and eliminating radiators.

There will be facilities for teaching handicrafts of all kinds, for industrial training and for selling BLINDCRAFT products. This means more occupation and employment for blind workers.

Social gatherings will be encouraged in the recreation rooms - knitting groups and reading groups, too. Braille books and cards, Talking Books and music records will brighten the leisure hours of residents and visitors. No effort will be spared to make this building a humming centre of activity to widen the horizons of the

blind.

The \$70,000.00 objective will be divided proportionately among the districts in the Peninsula. The campaign in Jarvis starts October 7th. Do your share generously to bring light to the lives of the blind.

V V V V

IT IS good forestry practice to cut mature timber stands. Such stands should be cut new growth and disease reduces the value of the timber.

### "MY WEEK"

— By R. J. Deachman —

ONCE I WROTE an item justifying an increase in salaries for Members of Parliament. Some quarrelled with me, wrote and said that I was somewhat silly, they put it stronger than that, I am stating it more politely.

Now an American Committee has recommended that Congressmen should be paid \$15,000 a year, with a tax allowance for duplicated rents at Washington and at home. The Committee also suggested an \$8000 a year high powered "Administrative Assistant" for every congressman and help from a stenographic pool to assist the strain on his clerical staff.

I would not like to pass judgment on the calibre of American Congressmen but there would not be ten private members in the Canadian House of Commons who could make use of a high class staff of that kind. No one should expect them to be able to do so.

Mr. M. J. Caldwell, Socialist Leader, who speaks rather well when he is not talking about Socialism, discussed in the House of Commons recently, the grading and packing of Ontario apples. He pointed out that British Columbia had captured the Western market, Ontario had fallen down in its grading and packing.

Bad grading and packing is not alone responsible. The failure is, in part, the result of changes which have taken place in the last few years. Twenty-five or thirty years ago nearly every farmer had an orchard, it wasn't a large orchard, just an acre or two but together they represented a fairly large volume of good quality and exceptionally fine flavor.

Then came the day when codling moths, blight and scab, demanded the spraying of orchards. Later, competent labor was increasingly difficult to obtain. We reached the time when it was necessary for the farmer to specialize, he couldn't be a mixed farmer and look after an apple orchard. In the early thirties when the trees were old there came a devastating frost. It killed many of the orchards in Western Ontario. They were never replanted.

The farmer now feels that the small orchard no longer pays, he must specialize in the Niagara Peninsula community center and home for the blind, to develop skill in the home. Give all you can, to speed the day when this new building becomes a reality.

Yesterday's paper said the Provincial Commission is appointing a Royal Commission to investigate the recent increase in the price of apples. The action will possibly pacify the Toronto voters for the time being and the ruralites will not be too greatly disturbed as a result of experience with previous Royal Commissions.

JARVIS W. I. TO MEET

The Jarvis Women's Institute will hold their October meeting at the home of Mrs. Jim Brown on Wednesday afternoon, October 9th at 2 o'clock. This being the Thanksgiving meeting, the Roll Call is "Give Thanks for the Blessings of the Year." The program convenor is Mrs. E. Marr and the hosts of the evening are Mrs. R. Dozier, Mrs. Bailey, Mrs. Parsons and Mrs. Robinson. The new school teachers will be entertained.

THANKS to the forest resources, Canada produces as much newsprint as all other countries combined. Fire is the greatest enemy of this important industry. Prevention of forest fires checks needless destruction.

## Pen, Scissors and Pastepot

No man has so much to learn as he who thinks he knows it all—

The above was contributed to this column by the suggestion that it might be helpful to men readers taken to heart. We were assured it was not personally directed to the writer.

Milk is up three cents a quart this week. Each child should drink a quart of milk a day the health experts say. Three times seven is twenty-one and four times twenty-one is eighty-four, which means each child will cost to feed each day one cent and four cents giving per month with this milk giving per month the previous cost. Eighty-four cents subtracted from the minimum family allowance check from Ottawa leaves four dollars and sixteen cents left for other advances. It is a little tight, but maybe that poor, poor family of sixteen in Toronto need not cut down on their milk purchases after all. They just temporarily forgot about the baby bonus. But again, maybe the Old Man's on strike.

Somewhere along the work done on Walpole street was just half a job. But they were wrong, George Cartwright, the official inspector, put his right, the official stamp of approval on the project. He said it couldn't be better than what it had been done by a council that knew something about construction work.

The paper says the soda ash strike hits production and thereby the quota ration is set to twenty-six ounces per month. Lots of people have heard what that caustic flavor was in liquor.

Hermann Goering in making his final plea from the prisoners' dock at Nuremberg said he did not expect they would go through all this (the trial) to kill us. Nothing unusual in the procedure for Hermann. After all he sent his Luftwaffe over England for many months and some people went through what that caustic flavor was in liquor.

Your dollars can help to provide equipment and training in the Niagara Peninsula community center and home for the blind, to develop skill in the home. Give all you can, to speed the day when this new building becomes a reality.

Yesterday's paper said the Provincial Commission is appointing a Royal Commission to investigate the recent increase in the price of apples. The action will possibly pacify the Toronto voters for the time being and the ruralites will not be too greatly disturbed as a result of experience with previous Royal Commissions.
