The same of the sa

CHAPTER X

If Tucu believed there was any treasure hidden on the schooner. he would search for it, spend days overhauling every part of the craft. He concluded finally to favor the idea that there was something of value aboard, and that Captain Bedford had hidden it. By pretending that he and Rose knew of its existence, but couldn't locate it,

they would gain time. When Tucu appeared a few hours later, with the first streaks of dawn breaking in the east, Dick's mind was made up. He met the eyes of the old renegade with a look of compliance.

"Tucu," he said, "you've got me in your power, and there's no use fighting against fate. I'll make a new deal with you. Captain Bed-ford has enough loot aboard to make those smuggled jewels look like cheap imitations."

'Thought y'said there wasn't none,"growled the man, scowling hard at his prisoner.
Dick smiled. "That was before I thought you knew," he replied. "Y'wanted to get the treasure

an' the girl?" "Wasn't any harm in that, was there?" laughed Dick. "You'd do as much if you had the chance." "Reckon I got 'em," leered the

other.
"No," slowly, "you haven't. "You've got the girl, but you haven't got the treasure." "Reck'n one goes with the other. She'll tell when I want her to." No, she won't," replied Dick boldly, "for she doesn't know where it is."

"The hell she don't! Y're lyin' "All right!" - shrugging his shoulders. "Don't believe me. Ask

"If she don't know where it is, who does?" he demanded surlily. "Y'ain't lvin' to me ag'in!" ejaculated Tucu, eyeing his prisoner "When did I lie to you before?"

made no reply. After a while, he asked: "What's this new deal y'had in mind? Spit it out."

wanted your word you wouldn't hurt Captain Bedford's daughter," replied Dick slowly. "If you promise not to harm her, we'll nelp you search for the treasure If you find it we'll let you take it, if you leave the schooner to us You don't want that. She's no good, and wouldn't be worth towng to port." "Reck'n she ain't a bad prize,

murmured Tucu reflectively. "We could get her to land if another storm didn't come up." "But another storm is coming,"

of a treasure aboard the school and he's after it. I told him I'd she added. . . .

Instead of meeting him with glad

eyes, her face darkened. Dick had

PHILLIPS'

Dick was on the point of answering negatively when a queer expression in her eyes arrested him. He glanced soberly at her, and then instead of putting in a denial he countered with the question: "Do you? Is there any treasure

She remained noncom glancing from him to the two stalwart Caribs, whose sleepy eyes indicated no interest in the conversation. Dick became suddenly disturbed in mind. If there was any particular sum of money or gold or anything else of special value, he had not improved matters by telling Captain Tucu he would help him in the search for it. In fact, he felt that he had complicated the situation. From the accusing eyes of the girl, he began to feel guilty of having betrayed a secret.

"I didn't know there was any-thing, Rose," he said penitently. "I supposed your father's chatter was all moonshine. I am sorry if I've— I've blundered.

The church of Antioch had five prophets and teachers worthy of tile church became a fountain of they ministered to the Lord and fasted. It was the Holy Spirit's work to call; it was man's work to ed apart for work. But it was the work whereunto the spirit called The Spirit's Command

No Hope For More Or Better Bacon

Agriculture Department sources said last week there was little pros pect, for some months at least, of improvement in the quantity and quality of bacon being sold for home consumption. They pointed out that Canada, be-

cause of her declining hog production, was having trouble meeting her contract to supply Britain with 350,000,000 pounds of bacon this year and likely would experience similar difficulty in 1947. This means that bacon, both is quantity and quality, will continue to be a rarity on Canadian butche shop counters. Glycerine can be converted to

nitro-glycerine.

TABLE TALKS

... Thickeners ...

During the past few months, Canadian homemakers have had to use different types of "Thickeners" for sauces, etc. The Consumer section of the Dominion Department of Agriculture has received many inquiries as to the relative thicken-ing power of wheat, potato and rice fours, cornstarch and most recently wheat starch. After experimenting with these different flours and starches, they have found that rice

and potato flours and wheat starch have approximately the same thickening power as cornstarch twice as much as all purpose flour. Eggs are also thickeners and when the supply is plentiful they can be used in place of starch or flour thickeners. Conversely when hey are scarce and consequently high priced they may be replaced, at least in part, by other thickeners. One-half ablespoon of cornstarch or 1 tablespoon of all-purpose flour may be substituted for 1 egg and
