J. J. PARSONS, Clerk
 F. S. PUND, Reeve

ON THE FARM FRONT

(continued from page one)

of these storages recently and the eggs looked every bit as good as the day they went in. Incidentally it was a farmer owned storage too.

A great deal of interest is being displayed in artificial breeding units these days and right so for such units can do much to quickly improve the herds of a county or district. A couple of weeks ago a group of Halimand farmers visited the new Unit at Woodstock and came away greatly impressed by its size, the quality of the bull being used and the generally businesslike manner in which the whole unit was set up and managed.

NOTICE

This is to advise the holders of Insurance Policies on out with the late George L. Miller, that this business has been turned over to Mr. George W. Walker, of Jarvis, Ontario.

Mr. Walker is experienced in all branches of Insurance and the decision to dispose of the business to him was taken with the view that the best interests of the policy holders could be served more capably in his hands.

On behalf of the late Mr. Miller, we wish to express with kind appreciation the loyalty of the many policy holders over a great number of years and bespeak for Mr. Walker a continuation of the same confidence.

WOMEN'S INSTITUTE

The September meeting of the Nanticoke Women's Institute was held at the home of Mrs. J. Henning with an attendance of eighteen.

The meeting was opened by the President and after the business of the day had been disposed of the response, Mrs. Hare gave a splendid talk on the topic "Who is Responsible for the Bringing Up of The Child?" The great speaker, Mrs. Harold Johnson, gave an instructive talk on "School Home Supervision" and a short talk on "Canter." Several songs were sung, with Mrs. Storey as accompanist.

The next meeting will be held at the home of Mrs. W. Kintree.

FAREWELL PARTY

A number of friends and neighbours gathered on Thursday evening at the home of Mr. and Mrs. Ralph Godding for a party in honour of Mr. and Mrs. Emerson Forritt who are leaving the community to reside in Port Dover.

The evening was spent in playing cards and getting acquainted with our new neighbours, Mr. and Mrs. E. Forritt were called to the centre of the room to receive an appreciation address which was given by Mr. Ed. Field on behalf of the Nanticoke community.

A beautiful electric table lamp and table with magnetic rack combined was given to them from their many friends by Mrs. John Mendenhall and Mrs. M. J. Forritt. Everybody joined in singing "For They Are Jolly Good Fellows". Lunch was served.

They are both members of Christ Church, Nanticoke and have resided together on the same farm for thirty-five years. It was Mr. Forritt's home from childhood.

DELAYED APPLICATIONS will have to be cleared through the main office of the Ration Administration—and your new book will be mailed you as soon as possible.

THE WARTIME PRICES AND TRADE BOARD

To those who did not get NEW RATION BOOKS!

It is not possible to issue new Ration books to consumers who apply in person at Local Ration Boards or at Ration Branches.

If you did not secure your new book during official "Distribution Week"—then mail your application card to any Local Ration Board or Ration Branch in your vicinity.

Your application is to be made on the green card, marked RB.191, at the back of your present book No. 5.

Be sure that the card is filled in completely before mailing, and that your name and address are printed.

DELAIED APPLICATIONS will have to be cleared through the main office of the Ration Administration—and your new book will be mailed you as soon as possible.

HIS NOSE is made of Plastic Wood!

SIX INCHES HIGH and carved from wood, Jean-Baptiste began life without a nose when his creator's knife slipped and eliminated that important part of his face.

But plastic surgery saved him. His new nose is a product of chemistry. It came out of a tube in the form of C-I-L Plastic Wood, a C-I-L Paint & Varnish Division product for home, hobby and industrial use in healing holes and cracks in wood.

C-I-L Plastic Wood comes from "Wood Flour", derived from nature, combined with a chemical bonding agent. The result is a product that "Handles like putty and hardens into wood".

Now Chemistry enables the farmer to put longer life into his fence posts by the use of Chromated Zinc Chloride solution. Green posts are immersed in the solution and the chemical is taken up by the sap stream to permeate the wood and make it resistant to insects and decay.

Further information on any of these products is obtainable by writing C-I-L, P.O. Box 10, Montreal, P.Q.
