ing into its own and rightly so. Dur ing 1946 a total of five cars of lime were brought in by rail and 428.45 tons were delivered by truck. This is an increase of two cars by rail and 138.9 tons by truck as compared with 1945.

So far we have only touched the surface. There is a piace for 500 cars averaging forty tons to the car every year for ten years. Two hundred thousand tons at one ton per acre would just about cover the county. That is exactly what is needed. Methods of spreading seem to be the most serious obstace les in the way at the moment. Surely with such a great need for this soil corrective, ways and means can be found to surmount this difficulty. Let's get to work on it!

Poultrymen are reminded this week that clean eggs are a "must" if we are to retain the British mark ket. We are reminded too that the cleaning of eggs is not a substitute the following five points if followed carefully will insure clean eggs: 1.

A sufficient number of nests. (One to carefully will insure clean eggs: 1.

A sufficient number of nests. (One to carefully will insure clean eggs: 1.

A sufficient number of nests. (One to carefully will insure clean eggs: 1.
