## THE JACK MINER NATIONAL WILD LIFE WEEK

NOT A HOLIDAY, not a week anyone would be compelled to observe but with the week of April 10th being so appropriate as the season of the year when the birds are returning and the date of the late naturalist's birth—the Hon. John R. MacNeil, M.P., Conservative from Toronto, has introduced a Bill in the House of Commons asking that the week be observed and known as The Jack Miner National Wild Life Week throughout Canada.

Not only would it have tremendous educational value but by being named after the late Jack Miner, whom Irvin S. Cobb declared "was the greatest practical naturalist on the planet," it would be a living memorial to the most famous Canadian. It being the birthday of the late naturalist just as it is such an appropriate time both the season of the year and a way in which to honor the late Jack Miner at no expense to the country in the form of dollars and cents.

Should the Bill pass the House of Commons, The Jack Miner Foundation, made up of a group of the late Jack Miner's friends, would act as sponsors of the week and distribute literature and plans for building bird houses.

## FREEDOM

A CERTAIN LADY PROPAGANDIST who gets paid by the Government to tell the people of Canada of the virtues of Wartime Price and Trade Board Controls, pictures in one of her recent articles the value of a home. She pictures it as a man's Castle; where he enjoys the perfect freedom; he can do exactly as he pleases at any time; she can think up any sort of pretty convincing arguments in favour of the continuance of certain controls that fetters the free activity of human beings.

It is not that the controls we have had to contend with in Canada have proved unbearable and to freedom loving souls the trend looms dangerous indeed. Nothing much is ever said about the Russian edict which forbids the movement of Russians with people of other Nationalities.

In other words the control of the State over the subject has advanced to the point where the central authority as to whom we may take as a life mate. That seems to us to be borrowing backward with a stupid determination.

## THE JOYS OF TAPPING

APPEARANCE on store counters of this year's maple syrup crop serves as a reminder to people across Canada that in the maple groves of Ontario and Quebec the earth has brought forth its first fruits for 1947.

In communities far from the sun-swept hard wood ridges of central Canada, the sight of the syrup and the rich flavor of maple sugar cakes will bring back to many a Canadian the memory of a boyhood in which the advent of spring was marked by the joyous shout of "Sap's running!"

These days the making of maple syrup has been commercialized and modernized until it has lost much of its old-time color and enjoyment. A pep with a metal tank has replaced the wooden barrel on a horse-drawn sleigh for the collection of sap. The whittled wooden spiles of the old days have given way to galvanized iron ones and syrup evaporators instead of in an old pot over an open wood fire.

## Pen, Scissors and Pastepot

Despite the fact they have only two members in the Legislature, the Labour-Progressive Group, are by no means the least vocal. Mr. MacLeod and Salsberg are never at a loss for words and have little difficulty in arousing the ire of the Premier who occasionally lets loose his wrath turned directly upon them. The Premier would almost judge from his comments that Premier Drew has little use for the communists, MacLeod and Salsberg.

There are some very interesting debates in the Ontario Legislature which are available to the public in printed form at the rate of \$5.00 per session by applying to The King Printer, Parliament Buildings Toronto.

Thomas Richard Henry thinks that every wartime control should be cut off including subsidies and other payments so that prices can find their natural level. As a matter of fact he says a little bit of depression might not be a bad thing. He doesn't mean a big depression like 1929 but a little depression like the good year that was an artificial inflation of prices paid for by the Ontario subsidies.

The Ontario Government has set on an additional \$1,000,000 payment to its members over the \$2,000 that it was authorized to pay. If we could get \$1,000,000 in expenses we wouldn't be worrying about the cost. The Ontario Government has set on an additional \$1,000,000 payment to its members over the \$2,000 that it was authorized to pay.

## WAR CONTROLS AND TAXES HAMPERS PEACE RECOVERY

There MAY BE SOMETHING to be said in favor of price control in time of war, even though such control is for the most part a gesture and does not in reality keep down the cost of things in general and the cost of living in particular. We now know that we were fooling ourselves into thinking that by the nominal prices of certain essential commodities we were saving money, whereas we were actually shifting the burden of increased cost of these commodities into other subsidies and other things which we had to pay for in extra taxes.

Nevertheless the psychological effect of price control may have helped to prevent a run that have been put forward in favor of the rigid controls during war do not apply to peace time. The purpose of wartime controls was to restrict the production and distribution of manufactured goods and commodities, upon the depends in time of peace. In the immediate future, even our personal freedoms, are our freedom of enterprise, which are the stimulants of peace-time industry, cease to exist.

The fashion parade was given better than anticipated co-operation from the weather on Sunday. For the most part the sun shone brightly with only some inspiring creations were duly noted. The models, however were sort of handicapped in having to hold down their chopped up hair. These goods were chopped up for the Robin in your yard will perhaps keep winter months. In warm days a attraction for Robin.

The same applies to war-time bureaucratic controls and taxes which have been carried over they were originally intended as a brake on private enterprise, while high taxes weaken the sinews of industry and discourage labor production and raising prices, thus reducing the purchasing power of wages.

YOUTH, beauty, graceful action seldom fail; but common interest always will prevail; and pity ceases to be shown; To him who makes the people's wrongs his own.—Dryden
