

... JUST IN FUN ...

Overdone
A doctor who had a neurathetic patient said to him: "Say each morning 'The Mediterranean sun is beating down on you'."

"Good," replied the doctor. "Go on with the treatment and don't forget the Mediterranean sun is beating down on you."

In another week the doctor called on him and was horrified to find the blinds down.

"What's happened?" he inquired of the maid.

"Please, sir, Mr. Robinson's very ill."

"Heavens, what was the cause?" "Sunstroke, sir."

Free Air!
One of those tiny new postwar motor cars was stopped in front of a service station.

"Give me a gallon of gasoline and three ounces of oil, please," requested the big man squeezed in behind the wheel.

"O.K.," said the station attendant. "Would you like me to stretch in your tires?"

Handy Gadget
On her first visit to the city, little Mary, who had always lived on a farm, saw a springing cart for the first time.

"Mummy, mummy, come here quick," she called excitedly, "see what this man has fixed on the back of his wagon to keep the kids from hooking a ride!"

Thrifty
Then there was the Scotsman who returned home unexpectedly and found his wife with her lover.

"I found him behind the other," ordered the enraged husband, drawing a revolver. "Then I can make one bullet do."

Victory Awards
Two new bronze medals, above, will soon be ready for distribution to United States veterans. At top is the World War II Victory Medal which will go to veterans who served from December 7, 1941, to December 31, 1945. The American Defence Service Medal, below, is for service between September 8, 1939, and December 7, 1941.

Book Parade
A quartet played in a new U.S. slot machine will start a "book parade" of 96 of the latest paper-back books. Pull a lever when you see the one you want and it slides out.

It Pays To Provide 'Lounge' For Cows
That milk from contented cows has extra nutritive as well as advertising value has been demonstrated in experiments conducted under the auspices of New York State, says the New York Sun.

A cow at liberty to wander about a "loafing barn" says off with milk of higher nutritional content than does her sister anchored to a stallion. Such a loafing lounge should have a ceiling at least ten feet high and the cow should be free to enter and leave at will. Allowed to pick her own spot for rumination, she will keep herself cleaner, run less risk of suffering from insect annoyance and consume more of the roughage essential to the best milk.

There was a time when few dairy farmers could consider providing lounges for their cows. But in these days of guaranteed prices the cow has brought a more abundant life to many farms. It seems only just that she should share in the benefits.

HOME-TOWN ECHOES
By C. Kessler

IF SURE WADDELL'S FIDELITY COULD BE THE REASON WHY THE "BLACK CROOK" AT THE O'BRYEN HOUSE, T'NIGHT, ELMER?
"OF COURSE THE BARBER ALWAYS STAVED THE BACK OF OUR NECK—REMEMBER?"

POP—Not Contagious
By J. MILLAR WATT

THE MATTER, SON?
I'M HAVING TROUBLE WITH EZEMIA!
GRACIOUS! HOW DID YOU GET THAT?
I HAVEN'T GOT IT! I CAN'T SPELL IT!

Historian Claims Hitler Really Dead

Killing a legend is like laying a ghost—an unsatisfactory achievement because people will continue to believe in both.

The legend that Hitler was not dead was so persistent that to avert its political dangers in Germany, the British government in September, 1945 commissioned a noted historian, Mr. H. P. Trevor-Roper, to examine into all the evidence of the last hours of the infamous dictator in the underground "bunker" where with Eva Braun he took refuge as the Red Army was breaking into the flame-and-bomb shattered capital, says the Ottawa Citizen.

The historian's findings have just been published. He met and questioned many of the actors in the terrible drama who remained alive after the capture of Berlin. He sifted all the written evidence derived from the questioning of the historian's findings have just been published. He met and questioned many of the actors in the terrible drama who remained alive after the capture of Berlin.

VOICE OF THE PRESS

Where Peace Is Needed
A dispatch from Nanking says China has been working for several months on preliminary drafts of a peace treaty with Japan. It might be much more to the point if China were to work on a peace with China.

Her Holiday
Postcard from girl on vacation: "Having a wonderful time. Wish I could afford it."

Evolution
1955—Look! A horse!
1955—Look! A motor-car!
1955—Look! A pedestrian!

For Sale—One Idea
D. C. Abbott says his "personality" sympathies are in favor of income-tax reduction. Now it remains to be seen if he can sell the idea to the Minister of Finance.

Safe Bet
You can safely bet on a girl's wedding if she starts her married life with more kitchen aprons than lounging robes.

For The Indians
It's old-fashioned to suggest giving this country back to the Indians. The modern plan is to let the War Assets Corporation sit back to them at 70 per cent discount.

Playing Safe
In a microscopic study of pocket change, 431 students of St. Xavier's Academy in Providence, Rhode Island, have discovered that bacteria avoid dimes but cuddle up to nickels. Maybe that explains why so many people avoid attending church. They're afraid of the germs on the collection plates.

HELICOPTER TAKES ON BAGGAGE

Navy representatives observe "Rescue" largest helicopter ever built, demonstrate its load-carrying ability in Philadelphia, by taking a jeep aloft. It's the first time a military load of any significance has been carried by helicopter.

SPOTS OF SPORTS

By FRANK MANN HARRIS

In this space recently we quoted a gentleman who is getting rather tired of trying to sponsor small-town hockey, and who gave some of his views as to what an amateur hockey player in general. In this connection it is rather interesting to note a statement from Mr. George Panter, President of the Ontario Hockey Association, a body that is widely heralded as the greatest amateur hockey organization in the world—or maybe that should be the United States.

Out in Winnipeg for the junior playoffs, Mr. Panter was greatly shocked at the mere suggestion that the poor, hard-worked Toronto St. Mike's should travel all the way to Edmonton for one game of that series. Matter of fact, he seems shocked that the St. Mike's should have to travel from their own city to Edmonton for one game of that series. Matter of fact, he seems shocked that the St. Mike's should have to travel from their own city to Edmonton for one game of that series.

At the present time of writing it looks as though there is a real possibility of a Canadian horse-racing man, that is—winning the Kentucky Derby, huh! Which recalls the last time, in fact the only time, that such a thing happened before. That was in 1919, when Sir Barton, owned by J. K. Ross of Montreal, and one of the few unidas ever to turn the trick, popped down in front of eleven other starters, paying off at odds of 13 to 1. (What a marvelous memory! What a handy record book!)

The President of this great AMATEUR association went on to say that the participating clubs stand to lose something like 25 G's by having the junior finals in Toronto. The St. Mike's should have to travel from their own city to Edmonton for one game of that series. Matter of fact, he seems shocked that the St. Mike's should have to travel from their own city to Edmonton for one game of that series.

Just as each become accustomed to skinning, sports writers are supposed to get hardened to seeing their predictions go haywire. But for once we were really glad to see one of our prognostications go wide of the target, when the Brooklyn Dodgers finally decided to give Jackie Robinson a chance at the big show. Whether or not he's able to stick up there may depend, in a large measure, on the sort of co-operation he gets from his teammates—as an unpopular or unwanted player can be made to "look bad" in scores of ways almost impossible to detect with the naked eye. But Robinson has loads of natural ability—enough, perhaps, to overcome the handicap of playing out of his proper position; and thousands of Canadian fans, who admired not only his hitting and fielding but also the way he conducted himself in general, are pulling hard for him to make it.

Only 3.6 per cent. of the land in Norway is unproductive or forest. The rest is unproductive or forest.

New Alloy Used In Watchmaking

If you have bought an Elgin watch since Jan. 1 of this year, you have a masterpiece which, it is claimed, will run from 3 to 8 hours longer without winding than other watches.

This is due to a new alloy called "Elgiloy" developed after 19 years of research by the Elgin National Watch Company. Called "the most important development in watches since jeweled bearings were introduced 243 years ago," Elgiloy is expected to have applications in many other fields. Razor blades, stainless cutlery, gunsprings and electronic appliances may all be improved by the new alloy.—Financial Post.
