CANADA LOOKS GOOD IN LONG PANTS

From a tiny court at 10 Downing Street, the Privy Council told Canada she could prohibit appeals beyond the Federal Supreme Court.

Thus their decision this week cleared the way for a new Canadian constitutional era, sixteen years after the Act of Westminster, and eight years following the late Hon. C. H. Cahan's introduction of Bill Nine which would abolish the judicial committee of the Privy Council as ultimate authority in Canadian law cases.

Said Lord Wright: "The Supreme Court of Canada, if the Cahan Bill becomes law, shall have 'exclusive jurisdiction appellate, civil, criminal, jurisdiction written and oral, and the judgment of the court shall in all cases be final and conclusive.'"

The Empire's highest legal tribunal ruled: Since restriction on the Dominion's legislative power had been removed, Mr. and Mrs. Average citizen thought: "Canada looks good in long pants."

BERTON
 Ernest Gas had the misfortune to lose and break his arm Sunday.

Several friends and relatives from Bertons attended the funeral of the late Edwin Andrews held from 11 to 12 P.M. at the funeral home in Simcoe on Monday afternoon.

Mr. and Mrs. Charles Hedges and family have returned to their home at Nanticoke after spending the Christmas holidays with Mrs. Humphrey of Cayuga.

Mr. and Mrs. George Jackson and family of Nanticoke have returned to their home after spending two weeks with Mr. and Mrs. Roy Henning of London.

Miss Hilda Hayes, R.N., has returned to her home at Hempstead, N.Y., after spending the past week with her sister and brother-in-law, Mr. and Mrs. Clyde Corrigan, of Nanticoke.

NANTICOKE WOMEN'S INSTITUTE MEET
 The December meeting of the Nanticoke Women's Institute was held at the home of Mrs. Stanford Vokes. The meeting was opened by the President, Mrs. Kathleen Evans, with the Ode and the Creed. After the business had been attended to, Mrs. Nunn had charge of the program.

Mrs. Pratten gave an excellent paper on the motto: "The Holy Call, an exchange of Christmas recipes, received a good response. Mrs. Storey gave a splendid paper on the topic "How to Develop a Taste for Good Foods in Our Community." This was followed by an exchange of Christmas gifts.

It was decided to hold another card party and dance in the Town Hall, on January 18th in charge of the same committee as the last one. Luncheon was served by the hostess and a social half hour was enjoyed by all. The January meeting will be held at the home of Mrs. Pratten.

Recent sleet and wind storms in Niagara and Western Ontario areas, brought down whole sections of both sleet-covered and ice-laden trees and limbs, broke, fell across Hydro lines and forced them to the ground.

WORTHY OF COMMENDATION
 Unflinching credit is due the men and women who wear on their lapels the black and silver eight-pointed cross of St. John of Jerusalem. They are the visible expression of a high degree of knowledge and skill in the care of the ill and injured, gained at the sacrifice of much time and effort.

IMPORTANT GOVERNMENT NOTICE
Respecting Price Control

The Wartime Prices and Trade Regulations (Order in Council P.C. 8528 of November 1, 1941) established basic price maximum prices for goods and designated services. These regulations were passed under the authority of the War Measures Act and continued in force under the National Emergency Transitional Powers Act, 1945.

From time to time these basic maximum prices have been varied or the fixed maximum has been suspended in the case of particular goods and services by Orders issued by the Wartime Prices and Trade Board under the authority of the above Regulations. A few days ago a substantial number of suspensions from price control was announced.

I believe it is desirable therefore that a summary should now be published of those goods and services on which a legal maximum price remains in force under the provisions of the Wartime Prices and Trade Regulations so that all citizens may be given an opportunity to inform themselves of the law.

The complete price control regulations are contained in Wartime Prices and Trade Board Order No. 684 which is available to the public at any office of the Wartime Prices and Trade Board, and to which reference should be made for exact details.

 Minister of Finance.

On the Farm Front
 —By Halldmand Harry—

Halldmand swine producers will be interested in learning that the Negotiating committee, under the Hog Producers Marketing Scheme, has been unanimous in its approval of the rules governing procedure and these in turn have now been approved by the Farm Products Marketing Board. The rules are now in force and it is expected that the enforcement of same will commence on or about February 1st.

One of the interesting rules that is set forth shall be on the basis of Grade A carcasses. In other words, Grade A shall be the basic hog. The B1 hog has been recognized that, therefore, should not be considered as the basis of payment. However, rather interesting item is that the buyer agent, purchasing hogs for resale to the farmer, should purchase these hogs and pay for them on the basis of weight. It has been recognized that one price for all grades, live weight, to the producers does not encourage quality.

Someone has pointed out that the "Big Three" in dairying are the Dairy Farm, the Dairy Herd, and the Dairy Farmer. The farm, of course, is important since it can produce at low cost approximately two-thirds of the cost of the milk in the production of milk. There is no doubt that the herd is important inasmuch as the cows are virtually the machines which make the feed into milk. The third and last factor, the farmer himself, is really the key member of the trio. Neither the farm nor the herd will produce economically without the skillful management of the farmer who has been well trained and has a thorough knowledge of the requirements of good crop production and economical milk production.

The human factor can not be over emphasized. The farmer, therefore, must be up-to-date in his practices. He must have a wide knowledge and keep his knowledge up-to-date on feeds and feeding, housing, breeding, diseases, etc. He must have information to recognize trouble in his early stages and to know what to do immediately. There is ample information available and all farmers should avail themselves of the opportunity of acquainting themselves with it.

This is the season of the year when cattle lice get an opportunity of increasing and proving to be a menace in our herds. In the first place, lice thrive in dirty, dark, and poorly kept surroundings but even if all these conditions are eliminated, a herdman can still be bothered by these pests. Dr. Lionel Stevenson, in his bulletin on "Cattle Lice and their Control," suggests that the common method of control is the use of kerosene, which is washed or dusted powders. The spray-pump application of stock dips is another method, taking more material it is true, but also being more effective.

Cattle that are stable can be economically treated with raw linseed oil. This is applied with a brush at the rate of four ounces per cow and produces an oiliness of the hair and skin which is destructive to lice. The treatment should be repeated at intervals of twenty days or less. Raw linseed oil must be used and not both oil or paint oil. Incidentally, a copy of Dr. Stevenson's bulletin is yours on application to your agricultural representative.

Have you, as a good Halldmand farmer, figured out your list of repair parts for your farm machinery. If not, we suggest that you do so now and put your order in to

WINTER RAMPAGE!

When King Winter makes an all-out attack, man can do little but repair the damage as fast as possible. Recent power breaks in Niagara and Western Ontario areas were the direct result of unusual and severe storm conditions.

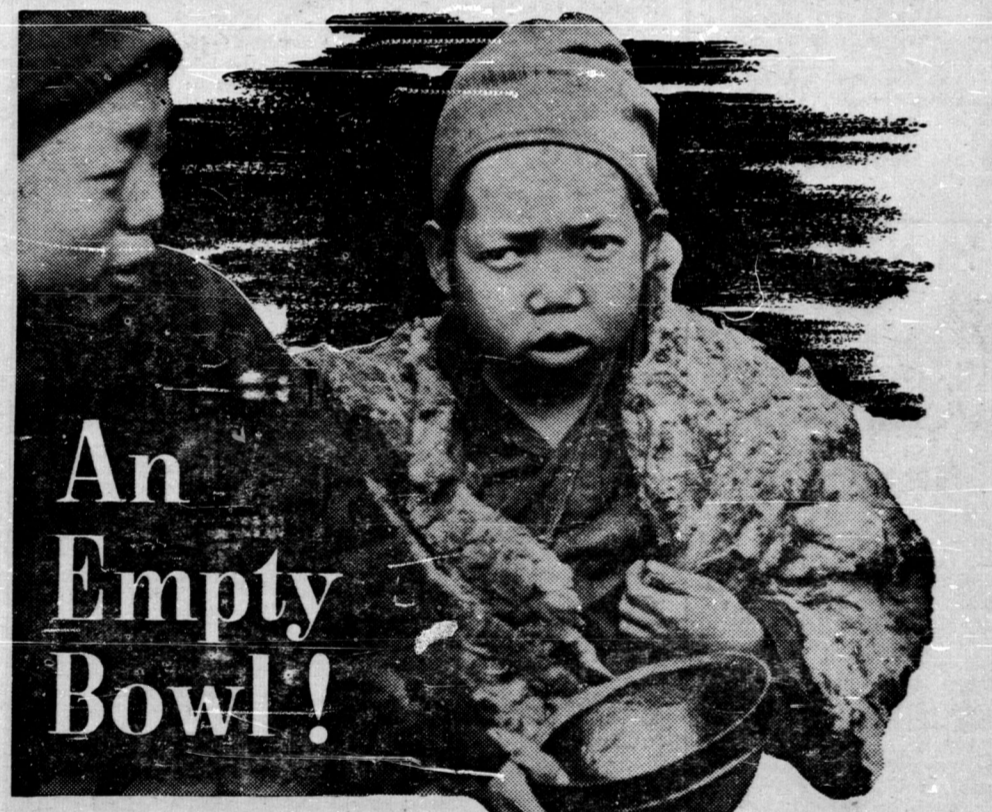

Because of the flexibility provided by its unified, province-wide organization, Hydro was able to rush emergency repair crews from other parts of Ontario to restore power. Every effort was directed to this end.

To all consumers who suffered in these storm areas, Hydro expresses its thanks and appreciation for their patience and understanding in a difficult and trying situation.

At all times Hydro safeguards service by endeavouring to locate lines free from trees and by tree trimming. Present storm damages illustrate the advisability of these methods.

During this winter period, storms and power shortage present great operating problems for Hydro. Your co-operation in the conserving of power will be of material assistance and most appreciated.

An Empty Bowl!

is the lot of millions of homeless orphans in war-torn China

Do it NOW!
 He who gives quickly gives twice. Send your cheque or money order TODAY to Canadian Aid to China for IMMEDIATE relief of suffering among the Chinese victims of war and famine.

Brought to the orphanage at Hangyang, this starving boy had only an empty bowl.

Millions of orphans, widows, peasant farmers, uprooted and despoiled by war, hungry, sick, homeless, are perishing for want of food, clothes, shelter, medical supplies.

UNRRA relief is ending; voluntary agencies must redouble their efforts. China, a good neighbor and customer, calls pleadingly to YOU, a fortunate Canadian, for help. In better days, she will not forget!

This is the only national appeal to be made in Canada within the next twelve months for Chinese relief.

Be Generous! China, a Good Neighbor, calls to YOU!
