Misses Meta and Willa MacMurchy are spending this week at Hes

The old wooden bridge on Lydia. Street is to be replaced by a cement structure, according to N. L. Marshall, chairman of the Road and Bridge Committee of the Village Council.

To several years temporary repairs have been made to the bridge in order to keep it open for public use but it has reached the point where something more permanent must be done. The work is to be undertaken by a local contractor and will be started just as soon as the necessary materials are secured. There will be no major sidewalk building this year and work in this connection will be fimited to patching. The council made this decision.
