

A Bathing Suit That Swims-If you are looking for a bathing suit that is not only something to decorate the beach with, but also doesn't get in the way if, as and when you get into the water, try one like this. It is worn by Cyd Charisse who shows it off to advantage in a new movie called "Fiesta."

"For a minute I thought he was going to pull my head off!"

All Set to Go to Work—Farmerette Gloria Carlson seems to be having no trouble operating this new model 8N Ford tractor. New features include an improved hydraulic system for implement control and four forward speeds.

KIDNEY ACIDS HAIRDRESSING

Many people never seem to get a good night's rest. They turn and toss—blame it on 'nerves'—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well get and use Dodd's Kidney Fills. Dodd's help the kidneys so that you can rest better—and feel botter. RAL DUTY NURSES

> NICE PLAYMATE. Possibly for no good reason, Russia's Mr. Molotov keeps putting us in mind of a momma's pet named Eddie, up in Perth County when we were a kid. In the baseball season, for instance, Eddie would allow the rest of us to furnish bats, balls and all other paraphernalia, as well as get the diamond into shape. Then, if he felt like it, he'd condescend to play-provided we let him go to bat first and tossed him nothing but easy pitches. L \* \* \*

Today, with the use of machines and science, the average Canadian farmer can work about 85 acres of improved land; in 1911 he was able to cultivate only 51 acres. To-day, the farmer can get about 60 bushels

of hybrid corn per acre, where pre-viously he got only 50 bushels from standard varieties. Cows yielding 5,000 pounds of milk annually are average cows, as compared with less than 3,000-pound producers at the turn of the present century.

First call for football talent to report for training has already gone out and before the Dog Days have properly set in, no doubt we shall be having pre-season exhibitions, to be followed by league games, with playoffs and post-playoffs ensuing right up to Christmas or, if the customers hold out, possibly Groundhog Day.

Of course it isn't any of our par ticular business and—as you are probably saying to yourself—if we don't like it we always have th privilege of staying away. But w still can't help feeling that an Athletic Commissioner might do worsefor the benefit of sport in generalthan to apportion the year into definite segments and tell, for in-stance, the football folks not to slop too far over into hockey's territory, and vice versa. WHAT WE WANT IS SER-

VICE; Tales of hitch-hikers and their agreeable ways are legion. Still, we rather relished this incident, as reported by a friend. Driving to his summer cottage with his family recently, they stopped for this hiker, nanaging to make room for him in the back seat. After half a mile or so the new passenger spoke, "Mister," he said to the man sitting beside the driver, "I wonder would you change places so that I can sit in front?" Then possibly feeling that a word of explanation was in order, he added, "You see, there'll be a pal of mine thumbing a couple of miles further along the road; and I want to be able to spot him in time so that can pick him up too."
