"What a thrill to take the wheel of a smart new Oldsmobile..."

HERE'S an up-to-the-minute version of that grand old tune, "In My Merry Oldsmobile". In the new words you'll find one of the outstanding reasons why Oldsmobile owners are so enthusiastically singing the praises of the 1947 Oldsmobile. What a smart looking car it is! ... Long and low and smooth in its lines - tailored just to your taste. It's a smart performer, too, and it offers all the features you want.

"You'll be fresh when you arrive thanks to Hydra-Matic Drive..."

You go places with less effort in a new Oldsmobile with GM Hydra-Matic Drive. Yet you get livelier performance, better economy, and greater safety than you did in old-fashioned driving. Hydra-Matic Drive is the only fully proved, fully automatic drive - and it's at its peak in the 1947 Oldsmobile!

"Just forget the clutch and gear - all you do is sit and steer..."

There's no clutch pushing with GM Hydra-Matic Drive - not even a shifting is automatic, through all four forward speeds. Just take the wheel of your Oldsmobile and sit in comfort, enjoying the smoothest driving you've ever known.

"What a happy day it will be for you when your Oldsmobile is here!"

To you who are waiting for your new Oldsmobile - our thanks for your patience... our tribute to your wisdom. The demand for Oldsmobile with the new GM Hydra-Matic Drive is so widespread that it will greatly exceed the supply. Make sure your present car carries you conveniently and safely through the waiting period by having it checked regularly by your GM dealer.

**Did Someone
Say Softball?**

There has been so many interesting factors in the launching of the softball season this year that the news about the games played so far has been far from complete. Schedules have been thrown off course because of the weather and the games played whenever possible have been marred by the weather. The scores tallies in line. But if the little lads stay out on the barometer maybe we can expect to see the teams settle down and deliver the brand of ball we expect of them.

When spring comes the ball enthusiasts can usually be found at this corner is right in there agreeing with anyone who puts forward the suggestion that there is deflation of the ball. When the possibility of a fight was started so the ump was forced to call the game and see the teams from disgrace.

A Gentleman

WE MIGHT AS WELL ADMIT IT. To-day there is practically no distinction between a gentleman and a sucker. With women in business, bureaucrats in every one else's business, and certain nations trying to mind too many other nations' business, the sight of a gentleman has become not only rare, but - ridiculous. He is out of date, whether it concerns women, Russia, business, or perhaps even the income tax department.

A gentleman on a stretcher, for example, is a contradiction in terms. During the rush hour anyway, he is back at the last stop helping healthy secretaries beat him to it. At a Big Four Meeting, he would obviously let the other boys walk away with everything. Faced with a tough contest with one of those alarmingly cool, but female, business executives, your gentleman is lost.

Gentlemen, like Christians, can only operate - and survive - when everybody else goes by the same rules.

-The Printed Word.

But if the little lads stay out on the barometer maybe we can expect to see the teams settle down and deliver the brand of ball we expect of them.

When spring comes the ball enthusiasts can usually be found at this corner is right in there agreeing with anyone who puts forward the suggestion that there is deflation of the ball. When the possibility of a fight was started so the ump was forced to call the game and see the teams from disgrace.

But if the little lads stay out on the barometer maybe we can expect to see the teams settle down and deliver the brand of ball we expect of them.
