

Voice Of The Press

Watch the Others
If every person who handles a motor vehicle could be brought to obey the highest of watch the other fellow, highway travel would be safer in very great measure.

Why of Accidents
The great majority of automobile accidents are not caused by lack of skill, physical incapacity or handicaps of drivers, nor by failure of the car mechanism—the greatest percentage are due to ill-temper, gross bad manners, or bad judgment.

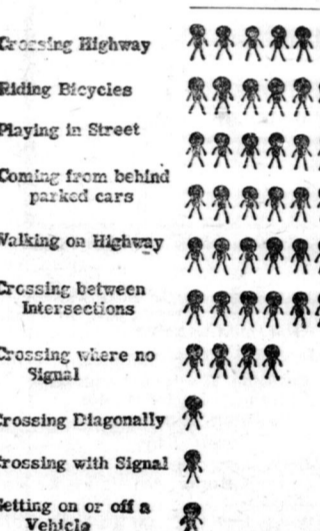

They Wouldn't
Those who do not know the difference between right and wrong seldom make the mistake of doing right.

Very Doubtful
St. Thomas Times-Journal says there was a time "when you could find a tiny square of pork among the beans, if you had good eyesight."

That Annual Illusion
Now comes the worst illusion of man, that a straw hat tossed in the closet last fall will be wearable in June.

Still They Get Killed
Lights, bells, watches and even lowered gears are insufficient to cause all motorists to stop, look or listen when approaching a railroad crossing.

How 68 Children Of School Age Were Killed In 1946 In Ontario

There is no "percentage" in being careless in traffic. This statement can be proven. You read the papers and listen to the radio. You learn from these sources details of individual traffic fatalities and injuries in Ontario but you have not a clear conception of just what your own chances are of being involved.

Based on statistics compiled by the Ontario Department of Highways, here are some of the chances you face of being involved in a traffic accident in Ontario in 1947, if the experience this year duplicates that of 1946.

Neither youth nor age is immune from the disaster riding the streets and highways. Last year, out of a total of 12,228 fatal and non-fatal accidents, 19% happened to children under 14, and 40% to those over 65 years.

STUFF AND THINGS
OUT OF THIS WORLD
"Come, come! A good brisk walk will put new life in you!"

Animal Fare—Bartending in Chicago is going to the dogs, as evidenced by these pictures of Baron, a Doberman Pinscher, as he waits on customers in his owner's tavern.

Cop who found this duck strutting down busy street in Los Angeles, Calif., gets armed escort as he takes it to Leath, Mo., as flood waters swirl around it below.

Shipping Losses on Great Lakes Sharply Reduced in Recent Years

Memory which sometimes finds expression on this page goes back to earlier years when shipping accidents and disasters on the Great Lakes were much more common than in recent years. A generation ago the young reporter in any town along the Great Lakes kept constant watch over the shipping offices and other offices of live characters, fully conscious of what was likely and, in all too many instances did come.

Right of Freedom For Princely States
Many people are asking: Under this change in India, what of the Princely States?

Another location that seems to have taken high toll is some miles to the south of Port Colborne, about 100 miles from Toronto, on a line between Thunder Bay and Michigan. A few years ago it was learned that there are had shafts in that area and certain findings suggest that there are had shafts in that area and certain findings suggest that there are had shafts in that area.

Three Minutes of Fiction

Good Business
By M. J. COLLINS

Uncle Joe came stamping into the kitchen making about as much noise as a small herd of cattle. "Here! You be careful!" Aunt Martha warned, waving a large mixing spoon threateningly.

"Well, let me go to town," Uncle Joe said, "I've got to get some more of my head." "You buy it here," Aunt Martha said, "I'll give you a good price."

What Science is Doing
80 Pound Piano

Once upon a time, the piano was just a pack of tin cans and a few strings.
