### FURTHER POLISH VETERANS FOR CANADIAN FARMS

Hon. J. A. Glen, Minister of Mines and Resources, and Hon. Humphrey Mitchell, Minister of Labour, today issued a joint statement, announcing that arrangements are being made to bring an additional 1,100 Polish veterans to Canada for work on Canadian farms. This number, additional to the 2,900 Polish veterans admitted last Fall, will bring the total for the movement of Polish farm workers into Canada up to the figure of 4,000, the quota set originally for the admission of Polish veterans.

These Polish veterans will be placed with farmers who have requested their services and are willing to sign an agreement covering the terms of their employment. Well over 1,000 applications have been received from farmers in the various provinces during recent weeks.

These applications, the Minister stated, are a clear indication of the satisfactory work which is being done by the Polish veterans who arrived in Canada last fall.

It is expected that Canadian officials will have shortly for England to complete the arrangements there for the selection and transfer of the Polish veterans to Canada.

It is planned to allot a proportion of those brought over to each of the provinces in accordance with the applications received. The responsibility for the placement of the men will be assumed, as in the case of the group which arrived last Fall, by the Dominion-Provincial Farm Labour Committee in each province.

In Alberta, Manitoba and Ontario the demand for workers for sugar beet growers is heavy, so that it is expected that several of the new arrivals will be placed on these farms to relieve labour shortages. Farmers interested in securing the services of one of these Polish veterans, the Minister added, should submit applications at once to the nearest Provincial Agricultural official or National Employment Service official.

## Eddie started his job today

THE MANAGER of the furniture factory in Eddie's town landed a big order. It meant he had to buy a lot of extra lumber, increase his payroll.

He lost no time in putting the whole thing up to the manager of his bank. Together they worked out how much money he would need to take care of wages and other costs until he delivered the goods.

Then, with the backing of his bank, he got to work on the order.

... And that's where Eddie came in. He was put on the payroll—given his first chance to learn a trade. Right now he's on his way home to tell Mom and Dad how much he likes his new job.

SALE OF "DETOUR" BENEFITS CANADIAN RED CROSS

Lieut. J. E. R. Wood, M.C. of Vancouver, who was captured by the Germans at Dugbe is the author of "Detour", a book of factual stories, anecdotes and verse written by British, Canadian and other Allied prisoners of war in Oflag 14C, now on sale at bookstores and news stands across Canada.

Profits from the sale of the book will go to the Canadian Red Cross Society. Lieut. Wood in addition to writing Detour, worked for months producing the book under a multitude of difficulties. The type was set up by the Canadian Army before it withdrew from Holland, and the printing and binding was done by the British Army of the Rhine in Germany.

The book's initial sale was in Britain where it received glowing tributes from the press and a gratifying reception from the general public.

Detour is a book of 179 authors, all of whom were inmates of Oflag 14C, at Colitz, Germany, a camp set up for captured Allied officers, considered "bad actors" by the Germans.

The book is finely illustrated with pastel portraits and drawings in black and white.

In an interview, Lieut. Wood told something of life in the prison camps by music made possible by Canadian Red Cross instruments. Many of the men turned themselves into writers, architects, engineers, B.A.'s etc. while in the prison camp. The while in the prison camp, the animation papers were sent out to the University of London and later were eventually notified if they made the grade, through Red Cross channels.

Red Cross, too, had a part in the preparation of Detour, for the Society provided the drawing material through which the book was illustrated. Says Lieut. Wood, "Every body wanted to do something for Red Cross in gratitude, but didn't know
