## Starting Age At Public School

held By Board of Trustees

**Pupils Must be Five Years and 8 Months of Age to Start at Fall Term**  
Unless a student has reached the age of five years on or before January 1st, 1947, he or she cannot register for classes at the opening of the Fall Term of the same year. This has been a ruling of the local Board of School Trustees for several months but seemingly this is the first occasion when the rule has had to be strictly applied.

**On the Farm Front**  
The decision to raise strictly by the rule for the current term, was made at an emergency meeting of the Board on Monday night after a request had been made to register a pupil whose age was two months short of the five year, eight month minimum.
