A. L. MILLER, Editor

THE NEW LIBERAL LEADER-

THE HON, LOUIS ST. LAURENT has been chosen as the new Leader of the Liberal Party in Canada. Having been endorsed by the Liberal Party in convention at Ottawa, the new Leader will, in all likelihood, be the next Prime Minister of Canada.

In the selection of the new leader the in fluence of The Rt. Hon. W. L. MacKenzie King scored a final triumph to an outstanding career. While the voting delegates endorsed Mr. St. Laurent it was, without doubt, the plans and designs of Mr. King that he should be his suc-

A more agreeable choice, so far as the people of Canada are concerned, could not have been made. Although in Parliament but a short time he has demonstrated Statesmanship from the outset. At no time could any of his utterances be described as political and he has gained the respect of everyone who appreciate orthrightness in public men.

When his name was first linked with the Liberal Leadership he stated he was not aspiring to the position, but felt it would be an honourable duty to accept, if selected by the delegates. That is the attitude which we think should appeal to the rank and file Canadian.

THAT HOLIDAY CRUISE-

OF ALL THE MEANS of finding summer enjoyment in this broad and beautiful land, or sheer relaxation few can equal the pleasures of a steamship cruise.

Whether the ship is a so-called "luxury liner" that plies the Great Lakes or the St. Lawrence River or a more modest craft, it carries the holiday-seeker out of the workaday world and into new surroundings of blue skies, sparkling waters and fresh breezes.

Best of all, everything lends itself to just lazing away the days on the sunswept decks. Except for the breaks for leisurely meals and it's surprising how the fresh air improves an appetite - one can spend many restful hours in a deck chair and watch the scenery or the gulls wheel.

The man who likes to chat can generally find a congenial fellow-voyager. And the person whose inclination is to sit and meditate can find solitude by retreating to a quiet corner of

There's generally an orchestra to please the young folk whose feet tingle to dance. When

HANDS AT WORK ... for ONTARIO

ONTARIO'S products are desired and purchased by people all over the world and the capacity to produce such goods largely determines the economic welfare of every man, woman and child within her borders. Because the sale of every article produced in Ontario brings valuable dollars into this Province, we all are more assured of job security... and we and our children can have more of the better things in life. To produce such goods in sufficient quantities, skilled labour is vital. That is why every single one of us should be glad that war veterans are constantly being trained to provide the skilled hands so needed by Ontario industry. They receive ON THE JOB training under expert instructors in our Ontario factories.

Ontario factories.

This training, provided through the co-operation of the Department of Veterans' Affairs, the Federal Department of Labour and the Ontario Department of Education, starts veterans on the road to skilled craftsmanship. Taught to use their hands in such jobs as routing, etching, stripping, burnishing and finishing, they will eventually become photo engraving craftsmen. Because of the increasing importance of this trade, every, effort of these newly-skilled workers helps to make Ontario a finer place in which to live and contributes to the welfare and happiness of all her citizens.

PHOTO ENGRAVING R. C. Smith, 22, of Toronto, an R.C.A.F. veteran, is shown routing a plate in a large Toronto photo engraving plant. During their training, veterans are shifted

LEARNING

from one job to another to familiarize them with all phases of photo engraving. Many veterans subsequently obtain full time employment in the factories where they receive training.
