CITIZENS ARE BROADMINDED—CITIZENSHIP requires, besides patriotism and industry, something people refer to as open-mindedness. Dr. Kidd, a graduate of McGill and Columbia Universities, who made an intensive study of Canadian youth in preparation for his treatise on Canadian citizenship, declares "The Canadian people as individuals are comparatively free from prejudice and bigotry."

DEAR BARBARA ANN—WED LIKE TO MOVE a vote of thanks to a beautiful blonde for providing a bright spot in the news during these days of international wrangling. She's done more to bring grins to the faces of Canadians than almost anything could—except, of course, a cut in the cost of living.

THE blonde, of course, is Barbara Ann, whose fame is such that it's almost superfluous to add that her last name is Scott, that she's beautiful, lives in Ottawa and is the world's figure skating champion.

THE beautiful smile as it pops up on front pages these days is a tonic, a shot in the arm, if you will, that sends men whistling to their tasks and, very likely, sets women to thinking of new spring fashions.

WHAT MAKES FOOD PRICES GO UP?—By Lewis Milligan—THE HIGH COST of living is one of the perennial problems of modern civilization. Indeed, it may be said to be one of the hall-marks of a progressive civilization, because it is an indication of a rising standard of living.

WE ARE SURE we voice the resentment that many residents of Saskatchewan feel when they are patronizingly referred to by C.C. F. politicians as "common people." It is ridiculous to attempt to divide the people of this province into two classes, "common" and "refined."

QUOTE FROM YESTERDAY—A little grown-up wise hearts is better than a wilderness of fools. —Ruskin

THE profits of the manufacturer must, of course, be included. But although the manufacturer is the most abused suspect in the crime of high prices, his profit is one element of cost which, so far from increasing, has actually declined. In 1939 the food manufacturer averaged 16 cents profit on the sales dollar. In 1947 it was 39 cents, and in 1947 it will be 35 cents.

Mr. Willis pointed out that the Government was indirectly responsible for a large part of the high cost of food. "In the price of everything you buy," he said, "is a goodly sum for taxes paid to federal, state and local governments."

THE above facts and factors are usually overlooked in public discussions of the high cost of food. They go to explain what is called the "price-spread" between what the farmer receives for his product and what the consumer pays in the store.

SATISFYING HOBBY—WILL MR. PETRILLO'S BAN on commercial recordings bring Junior back to the piano?

Music, like business and industry, has become centralized and efficiency-conscious; symphonies are "pipied" to restaurant diners, dance bands are available at the turn of a "platter," and—with the flick of a radio dial—the strains of Orpheus provide background noise for conversation in the home.

THE blonde, of course, is Barbara Ann, whose fame is such that it's almost superfluous to add that her last name is Scott, that she's beautiful, lives in Ottawa and is the world's figure skating champion.

THE beautiful smile as it pops up on front pages these days is a tonic, a shot in the arm, if you will, that sends men whistling to their tasks and, very likely, sets women to thinking of new spring fashions.

Pen, Scissors and Paste Pot

With all the talk about Prime Minister King's lengthy tenure in office it is interesting to note that the Opposition Leader in the House of Commons, Hon. John Bracken, had 17th, 1947. Mr. Bracken served as the head of a Sovereign Government in Canada just a few months short of twenty-one years when he retired from office to accept the Leadership of the Progressive Conservative Party.

Having just returned from a free dinner at the expense of the newly formed Cayuga Rotary Club, we hasten to extend congratulations to the charter members of that worthy organization whose motto is "Service Above Self." Having been fairly well acquainted with the progressive citizens of Cayuga over the past number of years we could not but observe that the names of those usually associated with every active and progressive movement in the County of Cayuga are men present at the Rotary Club meeting.

Announcing the government's immigration policy in 1946, Prime Minister King agreed with the Senate suggested a two-phase approach to the question: (a) a plan to bring in as many as can be absorbed immediately on a long-term basis in every country; (b) a plan to bring in as many as can be absorbed immediately on a long-term basis in every country.

LACK SHIPPING SPACE—Mr. King declared that lack of shipping space was continuing handicap in effecting his policy. So the whole was left at that for the time being. It was pointed out that Canadian farmers faced with the most serious labor and history and tens of thousands overseas anxious to come to work in the physical endurance. The story will be in the next article.

CHURCH NOTES—The W.M.S. will meet at the home of Mrs. J. A. Fleming on Tuesday, February 10th at 2:00 P.M. with the hostess in charge of the program.

ARE YOU ASKING THESE QUESTIONS ABOUT SAVING ELECTRICITY?

IS IT STILL NECESSARY TO SAVE ELECTRICITY? Yes. Not nearly enough saving is yet being made, especially in the home. Result, for some time past several large industries have had their power supply cut off for lengthy periods in the 24 hours.

IS IT NECESSARY TO SAVE ONLY AT CERTAIN HOURS? No, it is vital to save at ALL hours. While electricity cannot be stored, water that generates it can be stored. The water storage for the five Hydro plants in the Niagara area is provided by the Great Lakes. This assures a continuous flow of water sufficient to enable these plants to go all out 24 hours a day—still there is not enough power. In 48 other Hydro generating stations throughout Ontario the water supply must be very closely guarded—if too much electricity is demanded one day, the next day's power supply must suffer.
