On the air for only a comparativel

On the air for only a comparatively few seasons, the program steadily has grown in charm and humour until it is now indeed "at the head of the class" Perhaps the clue to the success of Ozzie Nelson and his wife. Harriet Hilliard, lies in their knowing awareness that the life of a pair

ing awareness that the life of a pair of young parents can be hectic and amusing without inserting vaudeville gags. The jokes are allowed to flow freely and there is no ambition to make every incident hilar-lous. The goal is the leisurely and natural laugh which is all the more amusing behavior to the property con-

ause it does not seem purposely con-rived.

Responsibility for the execution of

Responsibility for the execution of the script depends primarily on Mr. Nelson in the role of the young father who has a very human distaste for helping with the dishes. Miss Hilliard, as his understanding partner, is the perfect complement, keeping the script moving in a forward direction without ever seeming to do so. Henry Blair and Tommy Bernard portray the lively youngsters and John Brown turns in one of his consistently good characterizations as

United Kingdom farmers carried off prizes in a ploughing match again at a team of Canadian champions held in Yorkshire, January 30th. There were classes both for tractor and for horse ploughing. The manager of the Canadian party, who is the President of the Ontario Ploughmen's Association, spoke of how delighted they have been with the trip. He said: "There is no mistaking the good this kind of thing does. These boys are going to take back with them a grand impression of the Old Country. Everything they have seen has delighted them and they are going to talk plenty about it when they get back home. This is the way for our countries to get together - this exchange of men doing a job of work and getting to know their opposite numbers." It is hoped that the United Kingdom champions in these matches may make a return visit to Canada in the autumn to take part in the International Ploughing Matches in Canada. WHEN BILL and his crew go into the woods now, they get timber out twice as fast as they used to. That new tractor Bill bought really handles those logs!

Back in town, the saw-mill is running full blast, taking all Bill's crew can deliver . . . And this extra activity, this extra income spreading around through the community is largely due to the fact that Bill went to see his bank manager and arranged a loan to buy the tractor ...

In lumbering towns and rural hamlets, in big seaports and tiny fishing villages, bank credit - money at work - helps to increase business activity in whole communities. Your bank manager's job is to help men and women grasp opportunities and to put the bank's facilities to work for you and your neighbours.
