

Uraninite Find in Haliburton—Northern Haliburton County is experiencing a rush of prospectors since the proving of a commercial ore body of uranium at Wilberforce, on the property of Fission Mines. This property may be producing uranium by the end of the year. Radium Lake (above) is on the Fission Mines property. Gravel and silt on the lake bottom have been found to be radio-active. The ore is fluorapatite and uranium, the lighter ore with purplish tinge indicating the presence of fluorite, from which fluorapatite is obtained.

Three Minutes of Fiction Fun

SECRET OF THE LOCKET

By EDWARD LEE

Silas Henbury, wedged into a chair tilted against the counter, was slipping into his regular after-dinner snooze when the door opened. The customer was an elderly woman. Silas rose and the chair creaked to his relief. He clumped behind the counter and said: "Good evening, ma'am. Something I can do for you?"

Argentine Keen Competitor In Cattle Market

Those who have been arguing that Canada is chasing a will-o'-the-wisp in trying to hold any part of the Argentine cattle market are strengthened in a Buenos Aires dispatch stating that a new high class Argentine cattle was established on the other day. The price was 52.6 cents per cwt. as against an average of 38 cents in 1942-43. Which according to the *Lethbridge Herald*, means that the Argentinians are again a former price of four cents.

Alberta cattle producers, who are telling us that they cannot feed coarse grains at present prices to 15-cent beef and ends meet, will wonder how Argentina ranches can sell for 6.3 cents a pound. The Argentine Government sells wheat for export at \$5.00 or more per bushel in United States dollars. It is a great livestock producer and has some 25,000,000 cattle and 44,000,000 sheep and against 8,000,000 cattle and barely 2,000,000 sheep.

It Paid to Insure In Those Days

Back in Colonial days, insurance companies were scarce. Some of the early fire insurance companies were established in the 17th century. In fact, the first fire insurance company was established in London in 1666. The first fire insurance company in America was established in 1720. The first fire insurance company in Canada was established in 1792.

These things were done in the days when a house was made of wood. The first fire insurance company was established in London in 1666. The first fire insurance company in America was established in 1720. The first fire insurance company in Canada was established in 1792.

Boxer Braves Smoke and Flames to Rescue Child

WINS DOW AWARD

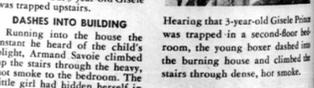

Dorochev has recently blasted his way over the ranks of authorship. He is a Russian, and he is a boxer. He is a Russian, and he is a boxer. He is a Russian, and he is a boxer.

Boxer Dorochev, who braved smoke and flames to rescue a child, has won the Dow Award.

ARMAND SAVOIE OF MACKAYVILLE, QUE., risks life to rescue 3-year-old from burning house

The fire had started between the two-story house in Mackayville, a few miles from Montreal. The flames were already spreading rapidly by the time Armand Savoie, 35, stepped in. He had just been out for a walk. He had just been out for a walk.

Armand Savoie, after crawling under a blazing fire, rescued a 3-year-old child from a burning house. He was awarded the Dow Award for his heroic deed.

Skin Eruptions

There is a skin eruption, sometimes called the "itching disease," which is very common. It is caused by a parasite called the scabies mite. It is caused by a parasite called the scabies mite. It is caused by a parasite called the scabies mite.

And One Thing or Another

Frank Mann Harris

It is a curious thing, but I have noticed that the more one knows about the world, the more one is inclined to be tolerant. It is a curious thing, but I have noticed that the more one knows about the world, the more one is inclined to be tolerant.

What Goes On In The World

By Norman Blair

Russia has really and truly won. It has won the world's admiration. It has won the world's admiration. It has won the world's admiration. It has won the world's admiration.

Ontario to Have More Game Fish

An extensive program of fisheries research is being undertaken in Algonquin Park through the cooperative support of the Department of Lands and Forests, the Ontario Research Commission, and the University of Toronto.
