DANISH BUTTER QUALITY HIGH SAYS DAIRYMAN

The first of the import shipment of Danish butter, which has been brought to Canada to supplement limited supplies of Canadian manu-facture, has found its way to this FARES FROM district and has been widely distri-buted this past week.

Possessing a distinctive flavour JARVIS WELLAND Possessing a distinctive flavour different from Canadian butter, local consumers are uncertain whether they should turn their noses up at it or not. Lea Marshall, president of the local Creamery, who has been in the butter business for more than forty years, describes it as butter or outstanding quality. He points out that it is made from sweet cream with lactic acid developed from a pure culture to give it a distinctive DUNNVILLE CHAMBERS COR. "The salt content", he says, "is lower than we are accustomed to in Canadian butter, but that fact permits the high quality of the butter to be more easily determined. On the basis of our own butter," says Mr. Marshall, "it is every bit as good, if not better." The local firm is handling a considerable quantity of the Danish imports to supplement their supplies and to enable them to keep their trade going throughout the winter months. "So fer." says Mr. Marshall, "we have not had a complaint, except that it tastes different."

The Canadian government is to be commended for their action in bringing this butter to this country, as a very serious shortage was avert-NEW YORK

ONTARIO'S products are desired and purchased by people all over the world and the capacity to produce such goods largely determines the economic welfare of every man, woman and child within her borders. Because the sale of every article produced in Ontario brings valuable dollars into this Province, we every article produced in Ontario brings valuable dollars into this Province, we all are more assured of job security . . . and we and our children can have more of the better things in life. To produce such goods in sufficient quantities, skilled for the better things in life. To produce such goods in sufficient quantities, skilled albour is vital. That is why every single one of us should be glad that war veterans are constantly being trained to provide the skilled hands so needed by industry. Veterans receive ON THE JOB training under expert instructors in our Ontario factories.

This training, provided through the co-operation of the Department of Veterans' Affairs, the Federal Department of Labour and the Ontario Department of Education, starts veterans off on the road to skilled craftsmanship. Taught to Education, starts veterans off on the road to skilled craftsmanship. Taught to expect their hands in general aero engine and airframe work, both on military and evivilian aircraft, these veterans may qualify for a Department of Transport license, authorizing them to declare aircraft airworthy. In aircraft manufacturing plants and on flying fields throughout Ontario, these newly-skilled veterans will have and on flying fields throughout Ontario, these newly-skilled veterans will have the opportunity to apply their talents and training. Their efforts will help to make Ontario a finer place in which to live and will contribute to the welfare and happiness of all her citizens.

THE BREWING INDUSTRY (ONTARIO)

H. Parry, 25, of Oshawa, Ontario, a Canadian Army veteran, is shown making an adjustment to the engine of a Cub Trainer. Students work on various types of aircraft ranging from the Cub Trainer to multiple engine military aircraft. Many veterans, trained as ground crew specialists during the war, have chosen to take post-war training in this occupation for which they are particularly suited. For them the transition to peace-time employment has been easier.
