THRESHING MILLS
NEED NO LICENSE

In response to many inquiries which he has received in recent weeks A. H. Martin, Director of the Crops, Seeds and Weeds Branch, Ontario Department of Agriculture, announces that permits or licenses are no longer necessary for the operation of threshing mills. Licenses are necessary, however, for seed cleaning plants. The fee is \$1.00 per year to custom plants and free to privately owned plants. The branch is planning to provide an inspection service on cleaning plants during the coming winter months. THRESHING MILLS NEED NO LICENSE THE E. H. JACKSON CO., LIMITED PHONE 2 (SIMCOE) FOR APPOINTMENT

HANDS AT WORK ... for ONTARIO

ONTARIO'S products are desired and purchased by people all over the world and the capacity to produce such goods largely determines the economic welfare of every man, woman and child within her borders. Because the sale of every article produced in Ontario brings valuable dollars into this Province, we all are every article produced in Ontario brings valuable dollars into this Province, we all are more assured of job security . . . and we and our children can have more of the better things in life. To produce such goods in sufficient quantities, skilled labour is vital. That is why every single one of us should be glad that war veterans are constantly being trained to provide the skilled hands so needed by Ontario industry. They receive ON THE JOB training under expert instructors in our Ontario factories.

This training, provided through the co-operation of the Department of Veterans' Affairs, the Federal Department of Labour and the Ontario Department of Education, starts veterans on the road to skilled craftsmanship. Taught to use their hands in such jobs as routing, etching, stripping, burnishing and finishing, they will eventually become photo engraving craftsmen. Because of the increasing importance of this trade, every effort of these newly-skilled workers helps to make Ontario a finer place in which to live and contributes to the welfare and happiness of all her citizens.

THE BREWING INDUSTRY (ONTARIO)

LEARNING PHOTO ENGRAVING

R. C. Smith, 22, of Toronto, an R.C.A.F. veteran, is shown routing a plate in a large Toronto photo engraving plant.

During their training, veterans are shifted from one job to another to familiarize them with all phases of photo engraving. Many veterans subsequently obtain full time employment in the factories where they receive training.
