Early this fall another 60,000 kilowatts (80 000 h.p.) will be added to the Southern Ontario System of The Hydro-Electric Power Commission of Ontario with the opening of the new generating station at Stewartville, on the Madawaska River, eight miles southwest of Arnproir.

Begun in the fall of 1945 and erected at an estimated cost of \$10,500,-000, Stewartville is the third of Hydro's post-war projects to go into service. It is the first sleep in a last a spot where the Madawaska at a spot where the Madawaska special research of the Madawaska at a spot where the Madawaska special research of the Madawaska specia

program designed to add 750,000 kilowatts (1,000,000 h.p.) to the Commission's generating facilities by September, 1952. Although not of the forty feet of the bottom of the old same magnitude as other developments at Des Joachims and Chenaux on the Ottawa River, Stewartville will be an important factor in the Southern Ontario System when de-

of earth and rock IIII. The amount of concrete poured for the entire bearing the name Stewartville job was estimated at number. Reward. and four inches thick, a distance of 1,082 miles. Nearly 340 carloads of lumber were required for the build-

the fall and winter months.
