Finest Quality-Easy to Use

# TEA BAGS

TABLE TALKS

Bernard Shaw was once asked why he-a professed hater of the beots — had a housekeeper who hailed from the 'land of Cakes.' His enswer was typical of the man. Because," he said, "the Scots are the only people in the world who really understand oatmeal." Roll about 2 dozen crackers -

Whether Shaw is right or not about that, it isn't for me to say. However, I think that a lot of you will realize the delightful possibil ities of oatmeal-I really should say 'rolled oats' - after you've tried these.

OATMEAL PANCAKES 2 cups quick cooking oats

2 cups scalded milk 2 eggs
1/3 cup melted shortening (or salad oil) 1/3 cup sifted flour 2 teaspoons double-action

baking powder (or 21/2 teaspoons any other type) 1 tablespoon sugar 1/2 teaspoon salt Method

Pour 2 cups scalded milk over 2 cups quick-cooking oats, stir, and let stand till cool. Then beat in 2 egg yolks and the 1/2 cup melted shortening. Sift together 1/2 cup sifted flour, the baking powder, sugar and salt. Add to oats mixture Fold in the two egg whites, stiffly beaten. Drop by spoonfuls on hot griddle (greased, if necessary) and brown on both sides. Yield; eighteen pancakes. (Private note-espe cially good with honey.)

. . . With the hens starting to lay more plentifully, (I hope) maybe you'll feel that you can spare enough to make a Chiffon Pie for some festive occasion-or just to top off a Sunday dinner, for that matter. And here I'm going to take time out for a few seconds to speak once again about the convenience of what are known as "crumb"

### They Want Some Changes Made

In the April issue of the Farm Journal, published in Philadelphia, there is a column devoted to suggestions from readers regarding things they would like to see inrented, designed, changed, and so on. Those sending these suggestion n are, of course, residents of the how many of them will appeal to anadian men and women. Put Button Loops on the underside of neckties so they can be kept

out of the soup.-Mrs. W. C. Fiser, Los Angeles, Calif. Make Lawn Mower handles adjustable for persons of different heights. — Mrs. H. R. Ziegler, night. Kenton, Ohio

Maintain A Self-serve "remnant" counter at lumber dealers, where one could shop for single boards, or an excited woman. odd pieces of material.—Mrs. Edna Hale, Dugger, Ind. Make Exposed Gears for farm

machinery from some heat-treated | ter send-a man along." abrasion.-Albert M. Wolf, River

You can make these crumb crust from vanilla or chocolate cookies, graham crackers, or corn flakes-to nention just a few of the possibilities. They're all made the same way except the corn flakes, which uses brown sugar as well as the melted butter.

enough to make a cup-and-a-half of mbs. Pour in 1/2 cup melted butter. Toss with a fork to mix well. Press into a 9-inch pie pan. Chill and fill. That's all. (Chilling crust before filling makes it cut better) For the corn flakes crust you roll enough corn flakes to make 11/2 cups crumbs. Mash a quarter of a cup of brown sugar into a half-cup melted butter with a wooden spoon, only a minute over a low heat so butter and sugar .won't separate Pour over the crumbs as before. Press into a 9-inch pan. Chill and

Now, at long last, we come t that filling. Lemon Chiffon is the general favorite, but there are dozens of variations. LEMON CHIFFON FILLING

1 envelope gelatin 1/4 cup cold water 3/4 cup sugar 1/4 teaspoon salt 1/4 cup lemon juice 1/4 teaspoon grated lemon rind

Method Soak I envelope gelatin in a quarer-cup cold water. Beat together 4 egg yolks, half-cup of sugar, and a quarter-teaspoon salt. Add the lemon juice and lemon rind. Cook over boiling water, stirring con-stantly until thickened. Stir in gela-Chill until thick and syrupy. Beat the four egg whites with a quarter-cup sugar and fold into egg volk mixture. Turn into crumb crust. Chill until firm, about three

After that? Serve-and watch it disappear.

#### ARE YOU ASKING FOR ACCIDENTS?

How good are the brakes and lights on your car? If they are only average, you may be asking for

Suppose you're driving at hight under good conditions — clear weather, dry paved road. And supsight are "average good." If a dark obstacle is on the road ahead, says a Department of Public Safety, you can't possibly get your car stopped until you're 50 to 75 The result. You have to hit the obstacle or swerve to miss it. Eith-

er way, you'll be lucky to avoid a smash-up. The solution: Check your lights and brakes. And slow down at

### EASY TO CONTOUR

Whether you have long, gentle lopes, or short, steep ones, con ouring is one of the first steps toward working out a good soil con-servation program. It helps hold fertility, and boosts yields. It helps

stop soil and water loss.

To the man who has never grown corn on the contour, it looks like a bad job. At first, it's hard to figure out just where the rows are going But, as one farmer said after he'd contoured for a few years: wouldn't give a man his dinner to help me contour. It's easy once you Equipment is simple and inex

pensive. Actually, you can make an outfit from a small level, a pocket nirror, a clothespin and a couple of If you want to contour your row crops, you should plow and disk that way. And don't worry about

short rows. You'll have some. But you may have plenty of real long Start just below the brow of the hill-about where you can just see the skyline over the hill. mark guide lines. They prefer old newspapers at each point on the contour. Pile a little dirt on them

ion't have to run ahead to get the lath out of the way. The idea in making a contour line is to find a series of points, about 100 feet apart, which are on the same level around the hill. The man with the target goes about 30 steps ahead of the man with the level. He moves up or down the hili until the target is at

that position is marked. Then the man with the level goes on past the target and sights back notif he is again level with the tar-get. That point is marked. And on around the hill you go.

Extreme accuracy such as is needed for a terrace isn't necessary. But you shouldn't let the contour 19. Why is the clinical thermo line sag, for that collects water in the low spot allows it to break over the ron and wash down the

Once the line is plowed, keep plowing until the slope changes. Then run a new guide line and work both ways from it. Fill in with short Two words of caution: Don't

plant the end rows up and down the hill. The contoured rows dump water in them and you breed a gully in a hurry. And leave good, wide water-ways. Most of the water-ways you've seen are too narrow. Leave them plenty

long hog-back, and the rows make a fairly sharp "V," leave a turnrow right down the top of the ridge. Leave it wide enough for a hay loader and rake. You can use it for a turn-row and for a lane.

ALUMINUM AS A BUILDING MATERIAL

roofing and siding material for farm buildings-if it's properly used. That's the report of Alvin Dale and Henry Giese, agricultural

They list these advantages for the light metal: It's long-lasting and requires no paint. It has good insulating qualities - is somewhat cooler in summer than most roof-

um may give poor service if not properly installed. Brace buildings properly fro within and use plenty of sheathing under the aluminum - the meta Use plenty of nails And be sure they are screw or ring-shank aluminum nails-preferably with synthetic rubber washers. They should

Don't apply aluminum ever old roofs or shingles. Start roofing and siding away from prevailing laps. Give sheets ample overlap. Aluminum will corrode through contact with fertilizers, alkalis (including wet concrete), livestock manure and urine, copper and un-

# in the lesson. We, too, may have

mented, "This man began to build, and was not able to finish. "The

main reason for failure in Christ's

kingdom is the failure to count the

cost and prepare to pay it. It must be an all-out effort. There are no

half-hearted disciples "Whosoever

that he hath, he cannot be my dis-

ciple." The individual who will not

give Christ the pre-eminence in his

life is left out of the Divine program.

Playing with religion and giving

God the left-overs is being done by

many. But only he who disciplines

himself and strives to enter in at the

strait gate will find an entry. He who

takes the way finds to his pleasure

that Christ's yoke is easy and his

burden is light.

By Rev. R. Barclay Warren The Disciplines of Discipleship

Luke 12:16-21; 14:27-22. not bear his cross, and come after me, cannot be my disciple.—Luke

One of the most tragic stories that Jesus ever told is that of the foolish rich man This man thought his soul could be satisfied with things. When he had harvested his bumper crops in bigger barns he would say, "Soul, thou hast much goods laid up for many years; take thine ease, eat, drink, and be merry." But it is not only the rich who are in danger of this misplaced emphasis. It is a common error to slave for the needs and pleasures of this life and forget the soul. The rich man received the death summons in the midst of his planning. How much did he leave? He left it all. The tragedy is that he
