On the Farm Front BRIEF NOTES FOR THE BUSY FARMER - By Haldimand Harry

This is an excellent year in which to do something about the control of weeds like cultivated crops. Weeds are difficult in growing during dry weather, although they seem to be better than the average crop.

Recent information points out that the sheep population of the Dominion has declined from a high of 1,000,000 in 1944 to 750,000 in 1948.

This is reflected in the Haldimand County to be in the sheep population is at its lowest ebb in history.

It is now estimated that 14% of the sheep in the Dominion are now in the hands of the Dominion.

Softball Notes

Another week has rolled around and several teams in the Erie League are near the third-place mark in their schedule.

Apparently we slipped a bit two weeks ago when we forgot that we mentioned the fourth place team in the standings.

We thought we had been in some strange predicaments while trying to cover ball games, but the other night while returning home from a game we were a bit startled to see one of the players in the law suit on the side of us again.

It is the happy privilege of very few married couples to reach the 15th Anniversary of their wedding.
