FROM COW TO CREAMERY

WHAT DOES IT COST to produce a pound of butter? Report from Ontario Agricultural College at Guelph, Ont., is that definite action is to be taken this summer to determine as nearly as possible actual cost of turning out butter, says Canadian Grocer.

RADAR SCREEN

IN ONE SHORT WARTIME DECADE two new scientific marvels were born - radar and the atomic bomb. Each still are equal mysteries to the average man, even if the result is accepted.

For that reason mainly, the United States has allotted an initial \$161,000,000 towards fencing North America with a radar screen. Canada is lying in its radar defence program with that of its big neighbor.

Because the two democracies are concerned with defence and not attack, radar would thus be used primarily in its role of an alarm.

Because of their physical size and location, the British Isles were ideally suited to the radar defence that helped repel the Nazis. But, as Prime Minister St. Laurent pointed out, the cost of a complete radar screen for a continent the size of North America is astronomical.

For the moment, though, the money must be spent because of the menace of war, most wasteful of man's follies, and the many peacetime uses of both radar and nuclear energy will be subordinate to their roles in war.

MANKIND'S BIGGEST JOB

THE NEXT FEW YEARS will be critical in world history. The co-ordinated effort to ward off world hunger is in the hands of the United Nations Food and Agriculture Organization.

The FAO has laid down certain broad objectives. It has set 1950 as a target date at which the world is to achieve a basic ration of 2600 calories a day per person.

The thought of organizing the food supply of the world with the basic needs of all humanity in view has a powerful emotional appeal. No decent person anywhere will disagree with its noble daring.

QUOTE FROM YESTERDAY

All the business of war, and indeed all the business of life, is to endeavor to find out what you don't know by what you do; that's what I called guessing what was at the other side of the hill.

CHURCHILL'S SPIRITUAL MESSAGE

LISTENING to the broadcast of Winston Churchill's speech at Boston, I had an uncanny feeling that it was not Churchill who was speaking.

Churchill's speech at Boston, I had an uncanny feeling that it was not Churchill who was speaking. The voice was the voice of Churchill, but it was the voice of a man who had seen the world.

WHAT IS DEMOCRACY?

DEMOCRACY is the line that forms to the right. It is the "don't" in "don't show". It is the hole in the stuffed shirt through which the sawdust slowly trickles - it is the dent in the high hat.

They say you can get used to anything, but anyone who can get used to parking restrictions in the cities of Canada, and like it, should be ready to vote for socialism.
