

Pen, Scissors and Pastepot

Something we could never understand is how Gordon Skinner, Haldimand's Agricultural Representative, covers as much ground as he does with such apparent ease. Take the annual Junior Farmers' Banquet Friday night for example. There was enough detail to look after in this event alone to make anyone hard to live with. Yet, so far as we know, he hasn't developed stomach ulcers yet. Aside from all that it is a mighty fine thing for the farm Juniors of Haldimand County to have a headquarters like the Youth Centre at Kohler. We don't know if anyone ever got any credit for having the youth center established in Haldimand County, but here again the credit belongs to no one else but Gordon Skinner. Boy, wouldn't any political party like to sign him up as a candidate in this County.

Another Haldimand County citizen that seems to find time to do at least a dozen jobs and do them well is James N. Allen, of Dunnville. In addition to operating an extensive business he has found time to be Reeve or Mayor of his town for about eighteen of the past twenty years, chairman of nine Victory Loans during the last war and now County Chairman of the Centennial Committee; President of the Ontario Good Roads Association for a term; a Past District Deputy of the Masonic Fraternity and, we see by this paper, he is a candidate for the Presidency of the Ontario Progressive Conservative Association. Some people find it hard to work for themselves alone and retire on pension at sixty-five.

Isn't this just like a woman? Miss Jones was at her office when she received a telegram from her fiancé who had gone to London on business. She tore it open and started to read. Soon she blushed prettily.

"Oh Millie," she called to the girl at the next desk, "just listen to what Robert says. I am taking the first plane back to Jarvis to marry the most beautiful girl in the world."

"Now isn't that just like a man, snuffed Millie. And after being engaged to you all these months!"

When the Jarvis Township Hall Committee are considering plans for the construction of a suitable building, they should not overlook the Township of Walpole. The Township sorely needs a Council Chamber that will provide suitable, vaulted space. Since the Township Council has met in Jarvis for nearly the length of its incorporation, it would be reasonable to suppose the good citizens of the Township will continue to regard Jarvis as its capital. The electors vote into office each year a group of men who control the spending of approximately \$150,000, and that would almost warrant an office which they could call their own. If it is decided to construct a community hall in a location that would prove suitable, every consideration should be given to the inclusion of proper offices for both the municipalities of Walpole and Jarvis.

CHINESE STEWARDESSES FOR CANADIAN PLANES

A new and charming addition to the ranks of Canadian air line stewardesses are these three Chinese girls, slated for duty on the Canadian Pacific Air Lines flights from Vancouver to Tokyo and Hong Kong. Shown being welcomed at Vancouver airport by their Canadian colleagues, the girls will soon shed their picturesque Oriental costumes for C.P.A. stewardess uniforms, and will share duties with Canadian girls on the 6,500-mile run one Chinese and one Canadian girl to each plane.

On the C.P.A.'s Australian service Australian and Canadian stewardesses share duties. Left to right are Lorraine New Shanghai, Miss. Vancouver, Joyce Lam, Hong Kong; Barbara Ay-cliffe, Port Alberni, B.C.; and Gloria Woo, Hong Kong. A fourth Chinese lass, Dulcie Hall, of Hong Kong, arrived in Vancouver earlier.

BRIEF NOTES FOR THE BUSY FARMER

By Haldimand Harry

Those interested in the breaking of the supposed hard pan underneath our soil in Haldimand County had

the opportunity, last Wednesday, of attending an interesting demonstration on the farm of Mr. Ed. Rittenhouse in South Cayuga Township. A special tool was used for the job and according to all reports the soil was easily broken and lifted. It will be interesting to watch the results from this demonstration. The breaking of this pan should assist in aerating the soil and in permitting of better drainage. The mole attachment was used on part of the field and this will assist with the drainage. Of course it is expected that a good deal of power is required to handle this equipment and when it was put down to twenty inches, two tractors were used. The two tractors in the machine quite readily when it was lifted to sixteen inches.

During the month of September, butter production in Haldimand County amounted to 252,648 pounds as compared with 85,818 pounds during the same month a year ago. This increase in production does not necessarily mean such a tremendous increase in milk production in the County as there are a number of factors entering into the picture. The total butter production for the nine months period ending September this year now stands at around a quarter of a million pounds more than for the same period in 1948. Actually the Provincial figures also show a slight increase during the month amounting to approximately 5% while the cumulative production for the nine months is 5% less than during the corresponding period a year ago.

This column has drawn attention to the fact that sheep production in Canada seems to be on the wane in spite of the fact that there is a demand for the product. Our population here amounts to around one and one-half million head which is not a very high population compared with the world population of 680,000,000. Australia leads with 100,000,000; United States follows with 35,000,000 and the United Kingdom with 18,000,000.

Jack Herod of Caledonia has recently finished a litter of pigs which forms something of a record. The litter was farrowed on May 24th and by the first of November they were ready for market; one pig weighing 216 pounds. Twelve pigs were farrowed and eleven went to market. Mr. Herod used his own feed along with a supplement at the rate of about ten pounds to a hundred. He used pig starter for the first two or three weeks. It is not often we hear of litters going to market at such a young age.
