HANDS IN TRAINING...FOR ONTARIO

Learning to Work With Copper and Brass

IN Ontario the wheels of industry turn for the benefit of every single one of us. Our lathes, dynamos, drill presses, farm combines, tractors, business machines, etc. are producing goods and services which earn dollars.

We should appreciate, then, the co-operative efforts of government, industry and labour in the field of employee training. In schools and in factories our workers, young and old, are given the opportunity to develop new and specific skills in the field of business and industrial activity.

THE BREWING INDUSTRY (ONTARIO)

Our Way of Life Rewards Trained Hands

Ontario workers know that we can earn more, have executive responsibility and enjoy a higher standard of living in direct ratio to the skills they acquire and the way they make use of them.
