NEW MARGENE

When the sale of Margarine in Canada became legal 12 months ago, MARGENE was the first brand to appear on the market.

At that time Margarine had been banned from Canada for 25 years. There was no way of knowing what flavour and what texture would best appeal to the Canadian palate.

In the intervening 12 months, Canada Packers has carried on week-to-week tests to find out exactly the flavour Canadians wish.

We feel we have it in the NEW MARGENE-the flavour and the texture Canadians like.

If you have not tasted the NEW MARGENE try it now.

Why Seagram's sells Canada first

This advertisement is an adaptation of one of a series created by The House of Seagram to tell the peoples of other lands about Canada and her various products. For the past two years this campaign has been appearing in newspapers and magazines printed in many languages and circulated throughout the world.

Our prosperity is based on our ability to sell our products to other countries. Every Canadian has a personal stake in foreign trade, for one out of every three dollars of Canada's national income results from our trade abroad. The more that the peoples

of other countries know of the quality, variety and prestige of our products, the more likely they are to buy from us.

We feel that the horizon of industry does not terminate at the boundary line of its plants; it

> has a broader horizon, a farther view-this view embraces the entire Dominion. That is why The House of Seagram believes that it is in the interest of every Canadian manufacturer to help the sale of all Canadian products in foreign markets. It is in this spirit that these advertisements are being published throughout the world.
