A disruption in the mailing Department last Thursday morning when Jim Paterson's paper was missed in mailing he apparently thought he had been cut off for non-payment of dues and sent through a money order forthwith. Being Scotch like ourselves he will no doubt feel like kicking himself in the pants when he realizes the paper was missed through an error in the mailing Department. Jim also says he is a reader of P.S. & F. which adds another issue to our ever-growing group of readers. A letter to the Editor this week also leads us to believe that all our readers do not necessarily agree with everything we say in P.S. & F.

It would be delightful if all groups in the community could blend their efforts to a common purpose. We are among those who have looked forward for some years to the celebration of the centennial of the incorporation of the County of Haldimand. It seems to us that everything else should be secondary to the success of this big event. We think we might be excused therefore in a feeling of regret that engulfs the very thought of the pending visit of the Governor General of Canada to this county in June. How much more effective such a visit might have been had it been arranged for him to come sometime during the week of the Centennial celebrations. We think some thought might have been given to a closer synchronization of these two big events.

It is a treat to see two National Hockey League teams in action when one of the outstanding stars of the game happens to be a home-grown product. We are thinking of "Red Kelly". Since Port Dover both claim him as their own, but Jarvis can claim him as well because Kelly was born in Jarvis. Kelly was "Red" often visited his Grandparents here before going away to school. That doesn't mean a thing, however, because we would like to watch Red Kelly play hockey if he came from Haldimand. Syd Apps failed to include Red in the three stars in last Saturday night's game at Maple Leaf Gardens which leads us to believe the one famous center player was taking a nap when he dreamed up his selection. Our view is supported by no less a person than Carson Cooper who, according to Bobby Hewitt, said Red was the outstanding player for the Detroit team. One thing for sure if all players in the National Hockey League were of the calibre of Red Kelly, seats would be even harder to get than they are now.

A few members of the Lions Club have been working awfully hard this winter trying to get ice in the rink for the kids to enjoy themselves but given by those responsible to a closer synchronization of these two big events.

If a new community hall becomes a reality in Jarvis we are sure the Jarvis Women's Institute, as well as both individuals and collectively will be as deserving as anyone else — or probably we should say more so — of the credit that should be bestowed.

Proceedings Of Parliament

— By Earl Colthorpe —
The second session of the Twenty-first Parliament of Canada was opened on Thursday, February 16th, with the usual pomp and splendour that has become recognized as a time honored institution in this Country and while we think sometimes that this very elaborate ceremony may not be essential, it does add greatly to the occasion that marks the beginning of another important era in our national life, not only of parliament, but of all the people of Canada as well.

The Speech from the Throne that is delivered by the Governor General forecasted the general trend of proposed government legislation for the session, which in all probability will Kelly play hockey if he came from Haldimand. Syd Apps failed to include Red in the three stars in last Saturday night's game at Maple Leaf Gardens which leads us to believe the one famous center player was taking a nap when he dreamed up his selection. Our view is supported by no less a person than Carson Cooper who, according to Bobby Hewitt, said Red was the outstanding player for the Detroit team. One thing for sure if all players in the National Hockey League were of the calibre of Red Kelly, seats would be even harder to get than they are now.

LETTER TO THE EDITOR

In reading your most interesting column, namely Pen, Scissors and Pot, not long since you made use of a statement which made "The Trash Blood Bill" and as my fighting force haven't been up to par for some time, is the reason you haven't heard from me before now. However, am coming back to normal. Let me warn you right now be careful what you have to say about the Women's Institute.

You were speaking of our proposed Community Hall and you made use of the statement that the Women's Institute has taken the project over for a while but it had "fallen through". As you proceeded you told how the Service Clubs, Councils, etc. etc. hoped to take it up and would go on with it asking contributions. Now be honest with the Women's Institute. Wasn't it the W.I. who sold you the idea of a new community hall? Do you remember we sent delegates to all the Men's Clubs etc. asking help? The delegates reports were not very encouraging. It is to us women who feel the need of a place where there is some conveniences to put on a banquet for the men.

First of all, when you are paid, pay yourself. Unfailingly, set aside a definite percentage of your earnings, deposit it in a savings account with us—and leave it untouched. Then plan to live comfortably on the balance of your earnings. In this way you are bound to succeed—to enjoy life much more, to be independent when independence means most. Be generous to yourself.

THE FIRST SUNDAY IN LENT
There is something particularly important about this Lenten season. It is a chance, it may be even the last chance, for our civilization to stop this headlong march to destruction and turn to God. This reconversion of life must come to us each one personally. We pray that it may come to every member of our congregation during the weeks of Lent. And we specially urge public worship and private prayer as a regular practice for all during these weeks.

IT TOOK 58 YEARS TO WRITE THIS STORY

• This is a story of achievement and service... and 1949 is the greatest chapter in the unfolding history of The Great-West Life.

Fifty-eight years of exceptional growth and progress are reflected in the Annual Statement for 1949. The Company now provides protection totalling \$1,500,000,000 for 425,000 policyholders in Canada and the United States. The carefully invested assets, held to meet policyholder obligations, have grown to \$577,000,000.

During 1949, \$50 millions were paid or credited to living policyholders and beneficiaries.
