On The Farm Front

BRIEF NOTES FOR THE BUSY FARMER

— By Haldimand Harry —

This is Farmers' Week at the Haldimand Rural Youth Centre and the programme which has been arranged will merit a large attendance.

If you have not already done so, your calendar should now be marked for the Ontario Bull Show and Sale to be held on March 21st and 22nd. Two hundred and nine bulls have been entered. These will be shown commencing at 12.30 noon on Tuesday, March 21st. The sale will get underway at 9.30 sharp Wednesday morning, March 22nd with the Hereford Breed being first to be sold and followed by Shorthorns and then Aberdeen Angus.

Heavy losses are sustained each year through the ravaging of poultry flocks by biting and sucking lice. These insects feed on the skin, scales and feathers and cause much discomfort. The usual result is lower egg yield and a poor condition particularly for the older birds. Young birds may have their vitality so greatly reduced as to become easy victims of common diseases of poultry. The old fashioned dust bath is still a pretty satisfactory method of meeting the situation. Such baths should be made up with tobacco dust or sodium Fluosilicate.

-oOo-

Very fine dry road dust makes a good medium with which to mix the other ingredients. The usual proportions are three parts of dust to one of either of the other two. The important feature of this method is that the birds do most of the work themselves. Where this method is not suitable this individual treatment of the birds by hand, either by using a dust or dipping in a solution must be followed. There are plenty of good insecticides on the market for this purpose or Sodium Fluoride can be used to advantage

-oOo-

In the Rod Row Tests with Oats conducted on the farm of Freeman Nixon and Sons last year, the Erban variety gave the highest yield followed closely by an unnamed variety No. 3003-F and Beaver. Other varieties that stood high were Cartier, Ajax and Beacon. It will be noted that with the exception of Erban, which is a medium late oat, the early varieties are all at the top of the list.

-oOo-

In the Barley tests conducted on the same farm the Montcalm variety gave the highest yield followed closely by Barboff. Both of these are smooth-awned varieties. The next highest yielding variety is an Ottawa strain not yet named but known as "Ottawa 3092-A". The old O.A.C. No. 21 variety was well down on the list. Montcalm, the top variety, has been approved by the Malting Barley people as a satisfactory variety for their use.

-oOo-

The Rod Row Test with soybeans was conducted last year on the farm of James G. Gibson at Caledonia and Hawkeye was the leading variety there. As a matter of fact it had a considerable lead over the next nearest variety Mandarin. Capital, another new variety was in third place.

Pete Banks is having a hard time laying charges against offending motorists for the way they park on Main street these days. With snow piled up against either curb there is no way for the chief to tell whether the parked cars are within the yellow parking lines. Of course if he had a pick and shovel he might dig down to the bare pavement and find he had a victim and if he dug far enough he might get several victims. When the cases came before the magistrate, however, there might be a legal technicality that would throw the cases out for lack of proper evidence. That would be frustrating so we guess the chief is wise not to be doing anything about it. Nevertheless a dangerous situation exists on Main street with cars parked in the snow banks on either side and heavy transports trying to squeeze in between going in both directions. Pedestrians beware!

At that the traffic congestion these days is not to be compared to the day Sixty-four years ago last Tuesday when the annual spring delivery of Massey farm machinery was made in Toronto. Many may have noticed the picture in the Jarvis Meat Market window depicting this unusual scene at the corner of Talbot and Main. The machinery was shipped into Jarvis in those days by rail and the farmers came to town to load up their new equipment in 11 run; Cockshutt Manure Spreader, No. 4; Cream Separator, 500 lb. cap.; 2 Farm Wagons and Rack; Wheel harrow; Set Bobsleighs; Cutter; Gang Plow; Hay Rake; Disc Harrow Oil Brooder; Electric Brooder.

The Board of Managers met on Wednesday and discussed plans for the remodelling of the choir loft to make room for the organ and both Junior and Senior Choirs.

We are very much interested in obtaining other pictures of a similar nature. Any advice or suggestions as to the form our Centennial Booklet should take would also be greatly appreciated.

Charlie Ivey, Port Dover's Ambassador-at-large, sends us a Jarvis Record, dated 1915, this week. There are no outstanding items of news in the issue that we can see, but it was interesting to note the advertisements.

Of particular interest was D. C. Allen's Bakery and offering a 5¢ loaf, wrapped in waxed paper, at five cents. D. C. operated his store and bakery in those days in the location now occupied by John Perezky.

The public relations Branch of the Department of National Revenue is doing it's best by news releases to get more of the 457,000 farmers who have so far failed to file income tax returns, to attend to that detail with out further delay. So far this year nearly 2'000 farmers have been prosecuted and the drive continues. Apparently there is pressure on the Department from groups in the wage class who automatically are stuck on Income Tax through payroll deductions. If you draw a pay check there is simply no evading the Income tax. Farmers have been telling themselves they do not make enough to have to pay income tax—but in reality they haven't been doing it because making up a return is simply not in their line of business. It looks, however, as if they will have to eventually and putting off the fatal day is only making the job that much more difficult.

There is no question of the Government cracking down hard on the 457,000 farmers who are delinquent in the Income tax returns. We can think of no way in which a government could alleviate the affections of that number of voters more quickly. And after all the Government has demonstrated many times in the past that it has more political sense than that. The matter will likely be left to the public relations Branch of National Revenue to beg and coax and the Branch inspectors by making spotty prosecutions, thereby scaring the rest into action.

THREE STRAIGHT WINS GARNET ADVANCE

(continued from page one)

game lead in their best of five series Garnet were full value for their win as they out-played the Littles Corners team by a good margin and the score would have been more decisive if the Garnet players had their sights trained a little more accurately on the Littles Corners nets.

The first period saw each team scoring three goals each with J. Phibbs (2) and R. Phillips scoring for Garnet, while L. Boomer (2) and L. Walker scored for Littles Corners. Two of the goals for Littles Corners were of the soft variety, in fact one was scored by a Garnet player in an attempt to clear the puck. (No names mentioned NOW).

Garnet outscored Littles Corners three to one in the second period on goals by J. Phibbs, I. Winger and H. Thomas, while B. Walker tallied for Littles Corners to make the score six to four for Garnet at the end of the second period.

In the third period, the play was in the Littles Corners area most of the time with the Garnet team hitting everything but the inside of the net, but J. Phibbs managed to pop one past Bruce while L. Walker scored on a break away for Littles Corners to make the final score seven to five in favour of Garnet. Jack Phibbs was the big gun for Garnet scoring four goals and assisting in the other three. Harry Thomas played one of his best games to date, scoring one goal and was outlucked on several very good scoring chances

R. Phillips, M. Walker, J. Newton, B. Nixon and the Miller boys all played outstanding hockey for Garnet. L. Boomer, L. Walker, J. Walker and B. Walker were again the pick of Littles Corners. Both teams were penalized before the game was out and the rough stuff and the Green boys did a great job of keeping the game in hand. Although there were six-teen penalties handed out, the game was by no means rough. There was much rough stuff going on in the crowd than there was in the game, with the police finally ejecting one slightly ruffed up spectator from the rink.

Foot Note—Was B. Meehan sick on Friday night ? No penalties ? ?

GARNET 6, LITTLES CORNERS 4

In a highly exciting game played in Galt last Wednesday night, Garnet evened their series with Littles Corners, handing them a six to four defeat after ten minutes of overtime.

It was a well played and hard fought game all the way, but was marred by a total of thirty-three penalties handed out by the referees, who must have been getting a commission for each penalty they handed out, as quite a few of these were uncalled for (muff said about the whistle tooters).

The first period was very fast with both teams playing wide open hockey with Garnet having a slight edge in play and the period ended with the score tied at one all.

In the second period Littles Corners took advantage of the Garnet penalties to score two goals to take a three to one lead as the period ended. Garnet were very fortunate after playing short handed for nearly ten minutes, but good back checking and defensive hockey staved off the Littles Corners rushes.

In the third period Garnet came from behind and rammed home three goals to take the lead, but Littles Corners came right back to tie the score at four all. R. Phillips was the hero in the overtime by banging in two fast goals to put the game on ice and for the remainder of the over time Garnet played good sound defensive hockey and checked Littles Corners to a standstill. Goal getters for Garnet were R. Phillips (2), J. Phibbs (2), B. Meehan and G. Miller. For Littles Corners, L. Boomer (2), D. Martin, B. Walker were the scorers.

It was very difficult to pick out any outstanding individual for Garnet as all players played bang-up hockey, but Sparky Stallwood played one of his best games stopping many hard drives and is improving with every game. A. Phillips, J. Phibbs, R. Phibbs B. Meehan and G. Miller also played well. Outstanding for Littles Corners were A. Bruce, L. Boomer, L. Walker and J. Walker.

will he live?
Look in your heart for the answer
It happens almost every hour, somewhere in Canada. A thoughtless step, a scream of brakes . . . and another life hangs in the balance—with an emergency blood transfusion the only hope! Will you reach out a helping hand to snatch one of these lives from the jaws of death? You can do so by giving generously to support and extend the Red Cross Free Blood Transfusion Service, through which more and more Canadian hospitals are being supplied with precious blood and plasma. Your gift will also help send relief wherever disaster strikes . . . assist The Red Cross Veterans' Services . . . maintain Red Cross Outpost Hospitals . . . and aid many other essential Red Cross services. Your contribution is needed—and needed now!

This year the need is urgent for $5,000,000 to carry out the work you expect your Red Cross to do
