We had our first glimpse of the community hall at Hagersville the other night and now we know what the stage of the new Community Hall in Jarvis should be like. Whoever designed the new stage at Hagersville is to be commended and it will stand as a memorial to their efforts for a long, long time to come.

We don't like to be critical of our neighbours but we think Hagersville has had about enough publicity arising from the condition of the Main Street. Anyone who travels No. 4 Highway north or south through Hagersville will never be charged for speeding. With that great big pile of stone that can be seen from the highway, surely it would not be too big a problem to spread a little in the numerous holes.

Moving on to Caledonia we would like to suggest that there should be a fence or some barrier between the sidewalk and roadway over the Grand River Bridge. With the many students going back and forth daily over the bridge, it is altogether too easy to step out on the roadway in the path of a vehicle. The large cement pillars obscures the view of motorists and a pedestrian could be under the wheels almost before the driver knew it. We think this is even more important than a traffic policeman at the corner of No. 6 and No. 54 highways where they intersect in Caledonia.

Now if our contemporaries want to make any observations regarding Jarvis it will be welcomed. We already know about the unsightly property on one of the four main corners — but there is possibly, other things they might comment upon.

AGAIN CANADA'S TOP TRUCK VALUES

NEW P-1 TRUCKS
ADVANCE-DESIGN TRUCKS

THE PERFORMANCE LEADERS
with 3 More Powerful Truck Engines

Canada's fastest selling trucks offer stepped-up power and performance with three great valve-in-head engines. On the hills or on the straightaway, they deliver the goods surely, swiftly, at low cost. Every new Chevrolet P-1 truck gives you high pulling power to eat up hills and rough roads — and on the straightaway, high acceleration to cut down total trip time. Come in and see these great performance leaders today!

MORE HORSEPOWER... GREATER PERFORMANCE!

Chevrolet's three great truck engines now made even finer! New Power-Jet Carburetor and larger exhaust valves mean greater power-per-gallon — real mile-eating power that hauls the heavy loads on the roughest roads. Faster warm-up, faster pick-up, better low-speed operation, better hill-climbing are further features of new Chevrolet Valve-in-Head engines!

Price Leaders **Payload Leaders** **Popularity Leaders** **PLus Features**

From low selling price to high resale value, you're money ahead with Chevrolet trucks. Chevrolet's rock-bottom initial cost — outstandingly low cost of operation and upkeep — and high trade-in value — all add up to the lowest price for you.

For ahead with lower operating costs per ton per mile. The rugged construction and all-around economy of Chevrolet P-1 trucks cut running and repair costs — let you deliver the goods with real reductions in cost per ton per mile.

Chevrolet trucks for the last 12-month period have outsold the next two makes combined — convincing proof of the owner satisfaction they have earned through the years — proof that Chevrolet is far and away the most wanted truck.
