PURINA FARM RECORDS PROVE .. on a dry cow can mean an EXTRA TON OF MILK **Next Lactation**

Unbelievable, but true! Purina Research Farm records show that 100 lbs. extra condition on a dry Holstein cow can mean an extra 2,000 lbs. of milk next lactation— to say nothing of the increased value of that cow. That's one rea-

Purina D and F Chow — just what your dry cows need for top condition, easier calving and more milk next lactation. It's a great body and bone builder. It's cooling and mildiy laxative. Grewing heifers fed D and F Chow show plenty of size and strength, milk more in their first lactation and all through a longer producing life.

Purina Calf Startena - fo growthy, thrifty, clean-cut calves, and a real saving in time, work and money, feed Purina Calf Startena to your young calves. Give it a try this Winter and "See the Difference Purina Makes

NELLES CORNERS

Pen, Scissors and Pastepot

Judging by the results of the vote for the Reeveship in Caledonia on Monday, the Wardenship of Haldimand County for 1952 shapes up pretty definitely. Caledonia has not had the honour of the Wardenship since 1925 and we predict that Reeve. Blackwell will have it handed to him on a platter this coming year. The citizens of Caledonia apparently think he is a pretty decent sort of fellow - If he sends us an invitation to the Warden's Banquet in 1952, we will agree with them.

Our good friend Sam Morris, Publisher of the Port Dover Maple Leaf, has been counting the squares in the ceiling of his bedroom for the past several weeks, but it is gratifying to know he is going to be back in circulation come the New Year. Now that the family members of his staff have proved to him they can carry on the work and only need him in an advisory canacity, we would suggest on the work and only need him in an advisory capacity, we would suggest that he investigate the Florida climate when he starts back to work January 1st. An assignment of that sort would require at least two months of personal observation from a deck chair overlooking the Florida lagoons. Of course Mrs. Morris would have to go along to take down notes.

Circulation managers of newspap-ers say it is getting harder and har-der to find carrier boys and keep

them on the job.

This is a most disturbing bit of news. What will the banks and the big corporations do for presidents and Board chairmen in the year 2000 if the crop of newspaper car-rier boys withers away now? Where will the country turn for elder states men? How can there be big shots if they cannot refer to the time when they ran a paper route? The answer could be that if young people and older people in Canada refuse to do the common tasks on their climb to greater things, there

een in progress and quite a large umber of farmers have been inter-iewed on the subject. Unfortunatly the results have not been very ely the results have not been very satisfactory. For one reason or another farmers have not been willing to commit themselves to take very much help even during the months to come. After all, the most satisfactory type of help is the type that will stay with the farmer for the longest period. It is a well recognized focat that married men because ed fact that married men because nized fact that married men because of the responsibilities of a family are not nearly so apt to want to move and for that reason farmers, where it is possible at all, should try to make some provision to take this type of help. Single men are definitely in short supply and there

BUSY BEE SUPPER CLUB

The fourth meeting of the Bees Supper Club was held at the home of Mrs. Guy Leathong on Saturday afternoon, December 1st. Five members answered the roll call. Sandra Jones read the minutes of the last meeting. Our leader led a discussion on Menu Planning. We then prepared a casserole dish of cheese strata, we also made tomato sauce and a foamy omelette. We enjoyed sampling these dishes later.

Our home assignment is to plan a whole days menu for next week and prepare two dishes at home using tomato sauce Roll call for next meeting "An Exchange of Reci-CARNIVAL

OYSTER SUPPER ATTRACTS LARGE CROWD

The C.P. and T. Committee of the I.O.O.F. sponsored a very successful Oyster Supper last Wednesday evening in the I.O.O.F. Temple. Planty or order to again the committee ing in the I.O. O.F. Temple. Planned in order to assist the committee in buying an additional hospital bed, Nearly four hundred persons were served during the evening in the large banquet hall. A delicious menu was arranged to round out the oyster soup and was mainly to the credit of the Silver Star Rebekahs. The supper was the first of several gatherings planned by the committee, and judging by the response to last week's affair, this public spirited group is in for a very success-

John Carling K.C.M.G.

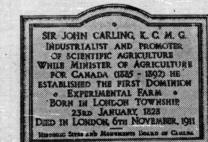

A MEMORIAL TO A GOOD CITIZEN

This week the Historic Sites and Monuments Board of Canada unveiled a plaque in honor of Sir John Carling at London, Ontario.

Sir John Carling was born in London Township on January 23, 1828 and died in 1911. During his life he did much to further the development of Canadian agriculture. One of his most important acts was to establish the first Dominion Experimental Farm . . . a fore-runner of the many which stretch across Canada today.

The plaque says of him:

"Industrialist and Promoter of Scientific Agriculture
for Canada (1885-1892)" We at Carling's take this opportunity to thank the people of Canada for this memorial to the son of the founder of our company.
