

Thank You!

We appreciate the patronage accorded us since our Restaurant was opened in November, and regret that circumstances beyond our control, have forced us to give up the business.

MR. and MRS. ALEX. T. MACKAY have purchased the Restaurant and we hope you will accord them the same patronage you gave us, all of which made it a pleasure to serve you.

FEBRUARY MEETING WESLEY W.A.

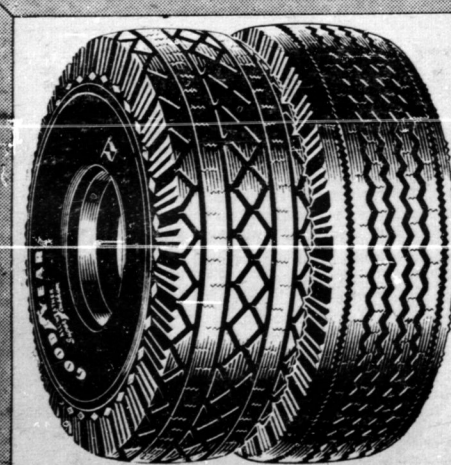

The February meeting of Wesley United Church W.A. was held at the Parsonage on Tuesday afternoon. Twenty-seven members were present. The meeting was presided over by the President, Mrs. Telford. After the hymn, Mrs. Telford opened with a prayer. The devotion was taken by Mrs. Armstrong. After the business period the ladies gathered in and about the music room while Mrs. Telford presided. Mrs. Elvin and Mrs. Butts for their generous and splendid musical numbers on both share in the pleasant surprise.

Marimbaphone and Belle also led in a Sing-Song. This delightful part of the program ended with the Birth Day Song in honor of Mrs. Blight whose birthday was on that day. The meeting being dismissed, the lunch committee then took charge and again the Birthday was in evidence when a large birthday cake was served. Mrs. Butts was displayed. This was generously sampled and appreciated by all. Mrs. Blight thanked all present, especially Mrs. Elvin and Mrs. Butts for their generous and splendid musical numbers on both share in the pleasant surprise.

Pen, Scissors and Pastepot

In the course of a conversation not too long ago a friend suggested that an elderly person known to both of us, had not exercised good judgment in failing to apply for old age pension. Our friend attributed this to rather backward thinking on the part of the eligible pensioners. It was interesting, therefore to note the observation of H. S. Parichar, chairman of the Nova Scotia Old Age Pension Board to the Canadian Welfare Council meeting in Regina recently. Mr. Parichar stated there is still considerable stigma attached to people forced to accept food, shelter and clothing from the public purse. The only deduction for 1949 was 2,070, 038 pounds. This is a drop of close to half a million pounds.

In spite of all the publicity which has been given to the subject, many farmers still fail to recognize the true value of pasture. There has been an average increase in the use of improved pasture mixtures, but new seedling are put down. A good deal can be done however, if the renovating of old pastures, and the use of chemical weed killers in the renovation process may be permitted. The cultivation or harrowing of the fields with some new seed mixtures.

A fellow named George Drew has been most vocal in demanding the Communist party be declared illegal in Canada and as a reward for his warnings he has been branded anything but a decent sort of fellow much to our personal chagrin, may we say. We are wondering if the developments of the past week or two might cause some of our fellow citizens to ponder whether or not George Drew might be right. In England Communist elements planted among shipyard workers have succeeded in tying up shipping. They are now planning to tie up the coal mines. In the United States a hand full of railway workers have threatened the whole production effort. While this has not been traced to the Communists it does give cause for concern. The crisis now facing the democracies leaves no room for academic theorizing on Communism. We cannot gear our whole National life to defence against an enemy abroad while giving protection to agents of destruction planted in our industries and even governments at home.

If you have not already done so mark the week of March 5th to 9th on your calendar now. This is the time of the best breeding plants in the country. We ask you will want to attend as many of the seasons as possible throughout the week. The programme for Crops and Soils Day is now almost completed, and the other days are rapidly being closed in.

What is Canada's Largest Flesh-Eater?

The Orca, or killer whale, is Canada's largest carnivorous mammal. Stronger on it may seem, it is true, this mammal is thought to live entirely on the flesh of seals and other warm blooded creatures. The diet of most other whales is comprised of certain types of tiny marine life. Nothing is stronger than nature... and nothing is more enjoyable. We must all help protect it by promoting conservation within ourselves, and amongst others.

On The Farm Front

BRIEF NOTES FOR THE BUSY FARMER

— By Haldimand Harry —
Final figures on Cramery Butter Production for the year 1950 have just been issued. As might have been guessed, Haldimand County was down considerably from the previous year. The total production during 1950 was 1,555,229 pounds. The production for 1949 was 2,070, 038 pounds. This is a drop of close to half a million pounds.

—OO—
In spite of all the publicity which has been given to the subject, many farmers still fail to recognize the true value of pasture. There has been an average increase in the use of improved pasture mixtures, but new seedling are put down. A good deal can be done however, if the renovating of old pastures, and the use of chemical weed killers in the renovation process may be permitted. The cultivation or harrowing of the fields with some new seed mixtures.

—OO—
In some cases, pasture renovation has resulted in an average yearly increase of as high as 33 per cent in feed nutrients during the succeeding five years. In addition the renovated pastures did more than merely provide extra grazing. They furnished more grazing earlier in the spring and later in the fall when other pastures frequently are short. How about planning now to give that old pasture a new lease on life?

—OO—
A considerable amount of interest in hay drying equipment has been aroused as a result of the Crops Meeting in Toronto last month. With questionable hay drying weather, the new dryer would be a boon to any farmer as it takes much of the heat and out of the business of curing the hay, and lessens the losses due to weathering, bleaching, heating and over handling which often ruin from twenty to fifty per cent of the nutritive content of the plant. Mow drying equipment is not as expensive as one might think and it can increase our productive capacity of high quality feed by fifty per cent or more. Don't investigate the possibilities.

—OO—
To use lights or not to use them on the laying flock is sometimes the crucial question. What the light does is merely to extend the hen's work day so that she will eat a larger amount of food and increase the average egg production. This does not always work out in practice and some of the best breeding plants in the country now use little or no light on the pullets, being content to go what production they can without lights, but at the same time, maintaining a high peak of vigour and vitality during the hatching season.

—OO—
On the other hand, where the flock is kept only for market egg production, lights could be considered as an essential to get the highest profits. High production is made to come at a period when eggs are usually highest in price, and the birds can be allowed to take a partial rest during the season when eggs are the cheapest.

—OO—
There is still hope that a variety of soybeans adaptable to the heavy clay soils of Haldimand County may yet be produced. This is borne out by the tests conducted on the farm of Wilfred Dasher, south of Fisherville during 1950. Eight separate varieties were grown side by side and of these, the Earlyana was at the top of the list with slightly over twenty-nine bushels per acre. The Blackhawk followed closely with twenty-six bushels and then the Hawkways and Monroe were standing in 3rd and 4th places respectively with twenty-five bushels per acre. If we can produce twenty-five bushels.

PERSONALS

—OO—
E. V. Roultan and family of Caladonia, visited his mother, Mrs. A. V. Roultan on Sunday last.

—OO—
Dr. and Mrs. M. Jarrett of Ingersoll visited with Mrs. M. A. Murchy on Monday of this week.

—OO—
Mr. and Mrs. Harold Porritt and family of Simcoe, visited on Sunday with Mr. and Mrs. A. L. Bobeck.

—OO—
Mrs. Chas. Montague of Simcoe spent Sunday with Mr. and Mrs. A. L. Bobeck.

—OO—
Mr. L. B. Hoover A.C.I. of R.C.A.F. Station St. Hubert Que. spent the week end with his parents, Mr. and Mrs. E. B. Hoover.

—OO—
On Thursday afternoon of last week Laird More entertained several of his little friends, it being the occasion of his fifth birthday.

—OO—
Miss Betty Carter of Simcoe, who has been giving dancing instruction in Jarvis, leaves this week for the months holiday in Florida and will commence her duties again in March.

—OO—
Mrs. Alfred Marr and Mrs. R. A. Miller, were in Hamilton on Saturday attending a meeting of the Women's Institute held in the Agricultural Hall.

—OO—
Mrs. Maude Barnes will be hostess for the Ladies Aid meeting on Tuesday at 2:15 P.M. The W.M.S. Auxiliary will have its monthly program immediately afterwards.

—OO—
A Valentine Party will be held at the Manse for the Junior Misor Band at 10:30 Saturday morning and for the Mission Band, on Tuesday from 7 to 9 P.M., February 13th.

—OO—
The Young Peoples Society will have a Skating Party next Tuesday night at the Jarvis Rink, with lunch afterwards in the Church basement.

—OO—
Six or more per acre on our heavy soils, soybeans will be a profitable crop to grow. Profitable from the standpoint of producing a high protein feed and also from the standpoint of the bean being a soil improving crop. The Earlyana, Blackhawk and Hawkways are early maturing varieties although a little later than the Monroe.

—OO—
Don't forget farmers week, March 15th to 19th inclusive.

News of the Countryside

From The Record's Correspondents

ROCKFORD
Mr. and Mrs. Ralph Golding and Mr. and Mrs. Orange Ribble of Burlington left on Tuesday for New York where Mr. Golding will sail on the "Queen Mary" to visit his mother and other relatives in England. He expects to return the latter part of March.

Mr. and Mrs. John Thomson were in Hamilton for the week end and visited their son and daughter-in-law Mr. and Mrs. Alex. Thomson.

Mr. and Mrs. Gordon Timpon and family accompanied by Mr. and Mrs. Ted Frost of Simcoe and Mrs. Delbert Purley of Wiltonville, were in Toronto on Wednesday and saw the "Happy Gang" give their broadcast program and later took tea with Mrs. A. Timpon of Long Branch.

Mr. and Mrs. Frank Angus and Larry of Waterford, are spending some time with Mr. and Mrs. Alex. Angus while Mrs. Angus is recovering from her recent operation.

Mr. and Mrs. Joe Buck and sons of Woodstock visited on Sunday with Mr. and Mrs. Andy Buck.

Rev. and Mrs. H. A. Bagatell of Hagersville, Mr. and Mrs. Ralph Kaye of Hamilton and Mrs. L. Honey of Tyrrell were supper guests on Sunday evening with Mr. and Mrs. Ellis Honey.

Mr. and Mrs. Ellis Honey attended the Turkey Convention and Banquet at London on Monday which was sponsored by the Purina Dealers.

The "Win One" Bible Class held a social evening at the home of Mr. and Mrs. Andy Buck last Wednesday evening. Progressive Croquet was enjoyed by the goodly number present.

Miss Ellen Buck of Simcoe, visited her parents Mr. and Mrs. Andy Buck on Saturday.

RENTON
Mr. and Mrs. Gardiner of Port Dover spent Sunday at the home of Mr. and Mrs. R. A. Miller.

The Renton Institute held their Family Night party on Friday night in the Junior Farmer Building at Simcoe.

Mr. and Mrs. Jack Pollard of Dundas, Mr. and Mrs. H. McCawill were Sunday guests at the home of Mr. and Mrs. Earl Duncan.

Several pupils of S.S. No. 10 have returned to school after being confined to their home with Measles.

The skating arena at Mt. Zion Church has now been opened.

The Young People of Mt. Zion Church held a bean supper in the Church School room on Monday night of last week.

Mrs. Nat. Walker will be hostess to the February meeting of the Renton Institute.

The RIGHT START means FAR MORE than it costs!

Yes — with chicks the right start is mighty important! Your whole year's poultry programme (and profit) depends on getting your chicks away with a minimum of loss and a maximum of thrifty healthy growth. And here's the feed to do it — Purina Chick Startena. It contains Purina's latest word in antibiotics and Vitamin B₁₂... produces even faster growth than the 1950 "model"... gets them off to a really flying start! Ask us for

PROTECTION
Most chick troubles spread through the flock by means of the drinking water. Keep it free of disease germs — just drop one Purina Check-R-Tab in each quart you give them, the first few weeks.

CHICK-R-TABS

Purina CHICK STARTENA
At present grain prices, you'll want to get your pigs away to market on as little grain as possible. Shorten your feeding period — balance your chop with

Purina HOG CHOW

Want to save time... save work... save money... raise better calves? You can do all this by starting them on Purina Calf Startena. Ask the man who feeds it!

If you're feeding steers, this winter, be sure to ask us about Purina Steer Falena. Helps out your grain, speeds gains, improves finish... saves money, makes money.

The choice of top kennels for quality and results, Purina Dog Chow is surprisingly low priced. 1 lb. equals 3 lbs. fresh meat in food value. Take home a bag of
