In order to maintain the quality of eggs it is always recommended to gather them frequently. This is especially true during the summer months. An egg is never better than when it is laid but the quality rapidly deteriorates if it is subjected to high temperatures. It has been found that eggs will keep for half of the time if they are gathered during the morning and 1:00 in the afternoon. For times a day gathering will not be too often and the suggested hours are 9:00 o'clock, just after the morning and 1:00 o'clock, just after the afternoon.

## Softball Notes

By Alan Aude

Hello softball fans, here we are again, further under the barn than last week, as our Jills are still in their slump. The big game that everyone was waiting for in the Jarvis League has been played, with Waterford downing the Jills seven to six although it could be called eight to six as Betty Operko circled the bases in the last of the ninth to break up six to six tie. It was a nip and tuck ball game from start to finish with Waterford taking advantage of the breaks. Both teams scored a few unearned runs but we imagine the earned runs would have still left the score just as close.

There seems to be no stopping Waterford, we have just seen most of the game between them and the Orioles with Waterford having a shutout within their reach when we left. Betty Operko is clipping out the home runs in fine style. Monday evening she practically beat the Jills single handed with two mighty drives. On one occasion she caught the Jills flat-footed, scoring all the way from second base while the ball was being thrown across the infield.

The question now arises: What's the matter with the Jills? As we remember it, they went into a slump last year about this time but came back in fine style. If we listened to all the advice we get, we'd have a dozen new ball players and a new umpire, set a L. O'clock curfew and bring in another manager. On the whole things could be worse.

In the Erie League, the situation blew up with a bang last week as Fisherville were ejected from further competition in the Erie League this past week. The trouble all started after Fisherville announced their intentions of playing O.R.S.A. ball this season and after they discovered they wouldn't make the playoffs, they entered O.A.S.A. competition and figure on fielding a strong team. Under the circumstances the league executive figured it wouldn't be fair to let them play in the league — hence the suspension, a move that should have been taken a year ago. It's just like trying to keep your cks and set it too.

Following this decision it was agreed upon that all games played with Fisherville this season be thrown out. This made several changes in the standings. Nanticoke needs one more win over Lambie to take second place in the league and also to win the right to go into the O.R.S.A. playoffs. They meet twice this week, Wednesday in Jarvis and Friday in Nanticoke. In the event that Nanticoke end up in second place, the first game in the Erie League semi-finals will be played in Jarvis. If Lambie take over second place the game will be in Selkirk on the same date. The second game will be on the opposite diamond July 27th. The winner of this two out of three series takes on Selkirk in a two out of three final series.

We heard a good reason for the lackluster play of some of our ball players. One manager stated that his girls make a better effort to catch a man than they do a ball. We don't know whether that applies to men players or not. It's tough when we are in our shoes and can't catch.

This week we have the batting averages of the 1951 figures for the boys and girls have all hit the alphas. Anne Columbus still leads the hitting parade followed by Jean McMillen and Barbara Dunnigan. The averages and league standings are as follows:
