The other precaution to take is to sow the main crop late after the egg laying takes place here during the first half of September and for that reason sowing should not start until after the 15th of the month. In a bad year, it is wise to delay sowing as much as possible and this year it might be a good idea to pian on getting the crop in as near the

Crop. Soil samples are easy to get and the service of having them tested is free. For full information it is suggested that you get in touch with your agricultural representative -00°.

Perhaps it is a little too early to be thinking about the alfalfa seed crop and its possibilities for 1951. It is not too early, however, to think about protecting that crop against inroads of insect pests. Last year though the co-operation of the Seed Trade, the Soil Improvement Committee and the Department of Agriculture, a series of tests was laid down using DDT and as a result an average increase of 4.4 bushels per acre was obtained on the treated plots. This is worth thinking about.

tire game for Nanticoke while three pitchers saw service for Lambs. Wray Dennis hurled half the game for Lambs and was replaced by Murray Lamb who gave way to brother Charlie, who proved to be the most effective of the three. In the field Charles Swarts came up with the best display for both teams, as at times the fielders gave their pitchers about as much support as a pair
