With the locks being turned in the school room doors it brings to mind memories of our school days. We can share, with deep feeling, the recollections of those days. We can remember the students who are waking up this morning with the realization that they will be denied the privilege of attending classes for the next two or three months. For the next few weeks their lives will be at loose ends. They will probably start to do many things without a thing to do except go fishing or recline lazily under a shade tree. We can recall that horrifying experience about thirty years ago. How we longed to hear the school bell ring again so we could revive those pleasant associations with our teachers; the revival of homework and the complexities of the various lessons. How we enjoyed being in school and the ease and the privilege of staying in school. How we were so sure of ourselves and so confident of our success. Ah, yes, if we weren't thoroughly convinced how really enjoyable our school days were at that time, we can say, with the utmost sincerity, that life has eliminated all doubts.

People driving over the Nanticoke road and, in fact, people living along the Nanticoke road, are living in the hope that someday the Nanticoke road may be known as the Nanticoke Highway. Highway means a nice black-top road offering smooth driving at maximum speeds. However the experience of using this road this summer hasn't prompted any particular enjoyment. The County Good Roads Department is undertaking a major job that will, apparently, take some considerable time yet before it is completed. In the meantime the traveling is rough and the residents along the road are still getting the dust treatment to which they must be subjected. It is to be hoped that by this time, have become immunized to the dust. It is to be hoped that the failure of the builders to straighten out the curves, particularly the curve at the intersection of the Sixth Concession. Not being a qualified road builder, we will probably be criticized for even mentioning the matter.

Having been delegated by the Jarvis Lions Club to attend as their representative at the International Convention of Lions Clubs at Atlantic City this coming week, we can

The boys and girls first and an address by Mr. Hosi, Dunville, who is the Children's Aid Society. The speakers spoke about the organization and its duties. It is their duty to care for children whose parents cannot properly care for them by foster homes and finances.

In the Institute's separate meeting they decided to help the Society by helping a needy family that Mr. Hosi mentioned.

Mr. Alex. Henry, Crop Improvement Fieldman spoke to the boys on how he washed their project of soil testing be conducted. They plan to take 500 samples throughout the county and have them tested this coming first prize.

Laverne Dilse told about his trip to the west. The big difference are the black loam soil and the dirt, this preventing rusting of machinery and also making outside grain bins safe and practical.

For lunch the girls brought peas and the boys paid for the ice cream. The remainder of the evening was spent in dancing.

BILL IS ANOTHER enterprising boy who is learning to appreciate the value of saving for what he wants. Each week, he puts a part of his spare time earnings in the bank. And is he proud of his bank book!

Many a businessman credits his success to the habit of thrift learned early in life. Planned saving has helped millions of Canadians to make the most of their own enterprise and industry.

Experience has shown that the difference between "getting along" and "getting ahead" often starts with a bank account. Use the chartered bank in your neighborhood as a safe and handy place to make your savings grow.
