BATTLESHIP Roof Coating, the formula of which is protected by Canadian Patent No. 456591 will make your roof watertight and waterproof at only a fraction of the cost of a new roof. It will put new life into the old roof surfaces. Not only does it eliminate all leaks, but it also penetrates and preserves, leaving a rubber like, heavy bodied blanket above the surface that is reinforced with

BATTLESHIP Roof Coating is being used extensively b many of the leading firms in Canada. It is recommended for virtually all types of roofs usually found on industrial or commercial buildings. It is economical to buy and

of talking with him for a few minutes and our opinion was strengthened that he must be one of the hardest working M.P.'s in Ottawa. A lot of people may have the impression that an M.P. has a pretty soft time for the six G's he collects yearly, but if they work at the job like our Haldimand Member, they earn every cent of it. And that remurds us. Mr. Catherwood is speaking over C. K.O.C., Hamilton, on Friday night at 10.15 P.M and over C.H.M.L on Sat urday night at 8.45 P.M. It might be a good idea to listen in and hear what our representative at Ottawa has to say.

Representatives of the Western Canada Wheat Growers were fully in accord with the principles of the Anglo-Canadian wheat agreement and, we are quite sure, so were the wheat growers. Why? Because they furly expected it would put doliars in their pockets that would not otherwise be there. The deal backfired and the wheat growers, four years later, discovered they would have done better if they had discosted fired and the wheat growers, four years later, discovered they would have done better if they had discosted for their produce on the open market. Mr. Gardiner, Minister of Agriculture, fully in accord with the original agreement when it was drawn up, in fact, he was rather proud of it, but like the wheat growers was chagrined with the realization the four year plan didn't proves successful. We like to go visiting to see how other people produce textiles. A good visit us, and we like this too. All main countries have es, and people come from other countries in the western group to study our methods. The textile industry here in Canada is eaders in technical skill and effectiveness. And along with the U.S. it pays the highest wages for textile employment anywhere. In Canada the industry is the largest employer of manufacturing labor. Textiles also pay the largest manufacturing wage bill in this country. In these times, the size and technical ability of the industry
